

# The Kentucky Kernel

Published every Thursday throughout the College year by the student body of the University of Kentucky, for the benefit of the students, alumni and faculty of the institution.

THE KENTUCKY KERNEL is the official newspaper of the University. It is issued with a view of furnishing to its subscribers all the college news of Kentucky, together with a digest of items of interest concerning the Universities of other States and Canada.

SUBSCRIPTION, ONE DOLLAR PER YEAR. FIVE CENTS PER COPY  
Entered at Lexington Postoffice as second-class mail matter.

## THE DAY OF THE YOUNG WOMAN.

For the reason that selective and voluntary service for America and humanity is claiming many and may claim all of the young men of the country, leading them from peaceful to warlike paths, service by women in civil and business life is being rendered thruout all the United States. In various sections of the country where such service has been given trial, women have given satisfaction, perhaps in a proportion greater than that reflected by men. Many newspapers, perceiving the fact that men on their editorial and reportorial staffs will sooner or later be called into service, have engaged women, some of whom have been students in the Department of Journalism of this very University, with the intention of training them to do work now being done by men of draft age.

Never in the history of the country has there been a time more opportune for women to choose and pursue careers. Every day, thruout the United States, comes the call for women to occupy positions made vacant by men. In all the professions, in all the sciences, in the business world there are now places for the trained woman. Heretofore men have been preferred, possibly more because of custom and precedence than anything else. Custom and precedent are being broken because there is no other course for the employer to follow. The woman who gets the job and "makes good," if the reader will pardon the venacular of the business world, need have no fear that she will "lose out" after the war has ended and the boys and men have returned.

This paper, by means of this editorial, purposes to lay before the young women of the University the advisability of training themselves as thoroly as opportunities here at the University afford. To do so is a filial, personal and patriotic duty. The Kernel is of the opinion that a few, if not all the young women who do us the honor, come here with the idea and intention of fitting themselves for what they have styled a career. Opportunity that has never before presented itself so extensively to women of Kentucky is present today. Let the young woman make the most of it!

## STROLLER PLAY A SUCCESS.

As the student publication of the University of Kentucky, the Kernel desires to congratulate the Stroller organization, and more specifically those Strollers who took an active part, for the success, heretofore unattained in University theatricals, that accompanied the production of "Mice and Men."

The Kernel notes with regret that other publications of the city, commenting on the 1918 play, overlooked Lee McClain, stage manager for the Strollers, in their expressions of praise for the good work done by the cast. McClain's work was exceptionally good and resulted in his being able to write the 1918 production high in the annals of Stroller history for stage excellence and finish of performance.

## SQUIRREL FOOD

### LYKELLE POEM NO. 21.

In her new spring hat  
And her new spring coat  
She chills steps,  
While the snow flakes float.  
Says she: "I feel no storm  
My pride will keep me warm."

### Sounds Like Panhellenic

In the minutes of a recent Y. W. C. A. cabinet meeting was the statement that Miss "So and So," led the "emotional" exercises. Of course she meant devotional—but she didn't say so.

### Campus Novelties

The arboretum.  
The fountain of youth.  
The sunken garden.

### New Tims.

The mess hall freshman said to me:  
"My sorrow is never done,  
For when the clock is striking 12,  
My stomach is striking one."

### PRIVATE PROPERTY

Astronomy Teacher, "And how is time governed?"  
Ignorant One—"By Uncle Sam."

The Journalism freshman says that Ada Meade received quite an innovation Tuesday night.

If a body ask a body  
To buy a little stamp  
Won't a body help a body.  
Put out Wilhelm's lamp?

This week's pathetic sight—the real baseball fan who has taken a girl to her first game.

### Get This?

Charlie—"Did you know that Ada Meade is at the Opera House this week?"  
Archie—"S'matter? A fire?"

Were you ever in love with an actor?  
Did you think him "gone on you" too?  
Did you think every glance o'er the footlights

Was sent a love message to you?  
Did you envy his leading lady?  
Nay heartily wish she were dead.  
Then find he had a dear little baby  
And by wife was devotedly lead?

## "STROLLER DAY" IS OBSERVED IN CHAPEL

Stroller Day, with usual Stroller success, was observed in chapel March 5, with a clever negro-dialect skit, "The Coming Champion," to take the first trench.

Grover Creech and Fred Augsburg pulled the stunt in real vodvil fashion, even to a first-class boxing match. At least, it would have been "first-class," so Director McClain declared, had not the actors been involved in a previous scrimmage which resulted disastrously.

As a drawing card for the evening performance of "Mice and Men," the sketch was a winner.

The cast of "Mice and Men" was shown off to a great advantage by "Spieler" Planck. Stage Director Lee McClain, outlined the story of the play and gave in brief the history of the Stroller organization. Appreciation of the invaluable services of Miss Hopkins, Mr. Daingerfield and Prof. Enoch Grehan in presenting the play was expressed by Mr. McClain.

## SIGMA NU'S HAVE 25 STAR SERVICE FLAG

Gamma Iota Chapter of the Sigma Nu fraternity has on display in its chapter house a service flag with 25 stars.

The flag is an extremely handsome piece of work, being about six by four feet with a red satin border eight inches wide, the top of which contains in silk handwork the Greek letters Sigma Nu. These letters are in black and gold, the national colors of the fraternity. The background is of white silk with the stars in blue, forming a perfect five pointed star, the Sigma Nu emblem. Twenty stars make up the center emblem with the five remaining stars scattered in the corners. In the lower right hand corner of the white background the Greek letters Gamma Iota are also in black and gold silk.

The following is a list of the members who are now serving their country:

Captains Keeling G. Pulliam, Jr., aviation; George Bain Morrison and John F. Auxier, infantry; First Lieutenants Herbert F. Nagle, Albert B. Goodin, James A. Reed, John M. Gibson, Charles J. Haydon, infantry; James W. Atkins, engineers, and George H. Wilson, medical; Second Lieutenants Carroll Taylor, aviation; Henry M. Skillman, J. Collis Ringo, George D. Aaron, and Murry M. Montgomery, infantry; Sergeant Major Jerrie O. Sullivan, Sergeants Charles H. Matherly and Winston Skillman; Third O. R. T. C. Morrie J. Crutcher, Homer B. Combast and Woodson Vaughn; Naval Cadet Flyers Floyd H. Wright, Harold A. Pulliam, David P. Campbell and Sylvester D. J. O'Sullivan, Mechanical Department Naval Aviation, Morris E. Pendleton.

## SINGING TOMORROW

The community singing in chapel will be resumed tomorrow after a two weeks' rest. Professor Cover hopes that a large per cent. of boys will be present to add volume to the sweet warbles which usually proceed from the place on Friday mornings.

## YOUR FIFTY DOLLAR THIRD LIBERTY BOND

It will protect 1,000 soldiers from smallpox and 666 from typhoid. It will assure the safety of 139 wounded soldiers from lockjaw, the germs of which swarm in Belgian soil.

It will render painless 400 operations, supply 2 miles of bandages—enough to bandage 556 wounds.

It will care for 160 injuries in the way of "first-aid packets."

It will furnish adhesive plaster and surgical gauze enough to benefit thousands of wounded soldiers.

Every purchaser of a Liberty Loan Bond performs a distinct individual service to his country and to our boys fighting in France.

## Campus Improvements

(Continued from Page One.)

porary heating plant sufficient to take care of the needs of Mechanical Hall, now served by other plants, and those buildings that are served by the central plant. This would make it possible to remove the present plant.

2.—The rejuvenation of both dormitories by putting in them new plumbing, new floors and giving them new paint.

3.—The possible use of the lower floor of the old dormitory for a dining room.

4.—The conversion of the present dining hall into a laboratory for public health work.

5.—The erection of a gymnasium for the girls, sufficiently large to take care of the needs for some time.

6.—The possible addition of another story to the rear part of Patterson Hall.

7.—The repairing of the old Chemistry Building.

8.—The erection of a temporary stock judging pavillion.

9.—Rooms for the Domestic Science Department in the basement of the Natural Science building.

The committee has made a report to the President in which it approves of several of the above suggestions and makes recommendations of equal importance.
