F. President's Report to the Trustees (PR 1)

Before beginning his report, President Roselle expressed appreciation to the Trustees who had attended the orientation sessions for teaching assistants. He thanked them for their interest and concern and requested that any complaints or compliments about the conduct of classrooms by teaching assistants be funneled to the Academic Ombudsman, Professor William Moody.

President Roselle reported that the ASTeCC project is a technology transfer project centered on the College of Engineering. He stated that during the last 15 months the administration has been working to gain direct federal appropriation in support of this activity, and the activity would come in four phases: (1) some refurbishment in McVey Hall, (2) some additions to the Robotic Center, (3) some changes in the engineering complex, and (4) construction of a new facility. The total cost of the program envisioned is about \$18 million. He noted that many members of the Board and the congressional delegation have been very helpful to the University as it has pursued this particular project.

He also reported that the University appears in the budget bill adopted by the U.S. Senate for the first allocation of money in support of this project (\$4.5 million); however, it is not in the budget adopted by the House. He continued to explain the process that would determine the level of federal funding for this particular project in the budget. He indicated that the administration was optimistic that the University would get a good result out of the conference committee with the lead person on the project being Senator Wendell Ford.

President Roselle then reviewed briefly some of the other items in PR 1, calling particular attention to (1) classes beginning on August 24 and the necessity to triple some students in the dormitory rooms, (2) an increase in external funding gathered by faculty members -- from \$49.6 million to more than \$54.2 million in grants, (3) the region's first human heart valve implant performed at the UK Hospital, (4) Martin Luther King, Jr. day becoming an official holiday at the University, and (5) Boone County opening a model extension center. He asked that the Trustees review the other items in PR 1 at their leisure.

President Roselle indicating his pleasure in reporting that the students entering school this fall are the best and brightest group of freshmen to have ever entered the University. They were selected from the largest applicant pool in the history of the University, and the average ACT score for the freshman class will be close to 23 -- a gain from 19 in previous years.

G. Mr. John Hunter Recognized

Mr. McCowan expressed appreciation to Mr. John Hunter, Superintendent of Covington Schools and the School Board for the use of their fine facilities. Mr. Hunter was recognized and given a round of applause.

H. Personnel Actions (PR 2)

In recommending approval of appointments and staff changes in PR 2, President Roselle called attention to the appointment of Professor H. David Wilson, Pediatrics, as American Council on Education Fellow for 1988-89. Professor Wilson was asked to stand and be recognized, following which he was given a round of applause.

He then called attention to the appointment of Professor Joseph L. Fink who will serve as Associate Vice Chancellor for Academic Affairs for the Lexington Campus. Professor Fink's special charge will be the Admissions Office and the activities in Continuing Education. Professor Fink was also recognized and given a round of applause.

Two million dollars of the gift is to establish in perpetuity an endowed chair in the Department of Veterinary Science. The chair will be known as the "Warren Wright, Sr. - Lucille Wright Markey Professorship" in honor of the founders and operators of Calumet Farm in its first fifty-years -- 1932-1982. The balance of the award, \$500,000, is to be used to establish the "Markey Trust" endowment for the support of the Maxwell H. Gluck Equine Research Center. The motion, which was made by Mr. Clay and seconded by Mr. Bates, passed. (See PR 5B at the end of the Minutes.)

Mr. Hershey asked that the Minutes show that this is a recommendation of the nominating committee of the Equine Research Foundation and Mr. McCowan so ordered.

P. William B. Sturgill Professorship in Business and Public Policy (PR 5C)

President Roselle recommended that the Board of Trustees establish in the College of Business and Economics the William B. Sturgill Professorship in Business and Public Policy. He stated that in honor of Mr. Sturgill's contributions to the Board and the University, CSX Corporation has pledged \$150,000 in support of this professorship. Judge Stephens so moved. His motion was seconded by Mr. Wilcoxson and passed unanimously. (See PR 5C at the end of the Minutes.)

Q. Appointment of Dean, College of Medicine and Vice Chancellor for Clinical Professional Services (PR 5C)

President Roselle indicated his pleasure in recommending the appointment of Emery A. Wilson, M.D., as the Dean of the College of Medicine and Vice Chancellor for Clinical Professional Services. Chancellor Bosomworth reviewed the credentials and experience of Dr. Wilson and indicated that he was pleased to recommend him for this appointment.

Dr. Pisacano stated that this is one of the best appointments that has been made. He stated that Dr. Wilson is a real fine person and a great human being who is respected by the people at the University. He commended the committee for their fine work and moved that the appointment of Dr. Wilson be approved.

Professor Betts added that Dr. Wilson's interests range far and wide with a remarkable quality for an appreciation of the full nature and purpose of the University of Kentucky.

The motion was seconded by Mr. Hershey and carried. Dr. Wilson was asked to stand and be recognized, following which he was given a round of applause. (See PR 6A at the end of the Minutes.)

Mr. Hershey so moved. The motion was seconded by Professor Betts and carried. (See PR 8A at the end of the Minutes.)

S. Disposal of Personal Property (FCR 1)

Mr. Forgy, Chairman of the Finance Committee, reported that FCR 1 relates to the disposal of personal property and stated that the Board must approve the disposition of personal property not needed by the institution. On motion made by Mr. Forgy, seconded by Mr. Stricker, and carried, the Board approved the disposition of surplus and obsolete equipment as described in Exhibits I, II, III, IV, V, VI and VII. (See FCR 1 at the end of the Minutes.)

U. Approval of Lease (FCR 3)

Mr. Forgy stated that FCR 3 relates to a lease that is in excess of \$30,000 in value and, therefore, has to be explicitly approved by the Board. He then moved the adoption of FCR 3. The motion was seconded by Mr. Hershey and carried. (See FCR 3 at the end of the Minutes.)

V. Coldstream Development (FCR 4)

Mr. Forgy stated that FCR 4 relates to Coldstream Development and reviewed the recommendations. He reminded the members that the Finance Committee has a subcommittee consisting of Mr. Farmer, Mr. Rose and himself and referred to the Board's resolution that the property not be sold but be leased. He explained that the subcommittee, working with the University's administration, had gone through approximately eight different proposals and stated that it is MPC, Inc. and the subcommittee's recommendation to the Finance Committee that Homart Development Company in a joint venture with Crown American Corporation be selected. He provided information on each company and expressed that this is the appropriate developer for a shopping center on Coldstream Farm.

Mr. Forgy concluded his remarks by saying that FCR 4 empowers the administration and MPC, Inc. to enter into negotiations. He pointed out that this is a complex process and stated that it would probably take four or five weeks. He anticipated, however, that the subcommittee will have finalized the negotiations to the point that the arrangement can be resubmitted to the Board at the next meeting. He indicated that there were obviously road considerations, but the subcommittee thinks that this is the appropriate development organization. He then moved the adoption of FCR 4. The motion was seconded by Mr. Wilcoxson and carried with Judge Stephens abstaining. (See FCR 4 at the end of the Minutes.)

Mr. McCowan expressed his appreciation to the subcommittee for their hard work and the progress that is being made on this important project.

Members, Board of Trustees:

AMENDMENT TO THE GOVERNING REGULATIONS

Recommendation: that the following amendment to the Governing Regulations of the University of Kentucky, which was received by the Board of Trustees for preliminary consideration on June 21, 1988, be approved.

(Note: Wording proposed for deletion is bracketed.)

Amendment - Change Part VIII.A.4.a to read as follows:

a. Department Chairmen (University System)

The term of a department chairman's appointment shall be four years, except in the Colleges of Agriculture, [Allied Health Professions,] Dentistry, Home Economics, Medicine, Nursing, and Pharmacy where it shall be six years. Ordinarily, a department member will be asked to serve as chairman for only one term. A chairman may be reappointed, however, when the faculty advisory committee appointed to review the work of the department (AR II-1.0-6) finds that the particular circumstances and needs of the department make such a reappointment desirable. Reappointment beyond the second term may occur under exceptional circumstances when it is deemed to be in the best interests of the University. This practice may vary from discipline to discipline.

Background: This change has been recommended for approval by the College of Allied Health Professions, the Academic Council for the Medical Center, the Chancellor for the Medical Center, the University Senate Council, and the University Senate. This recommended reduction in the length of the department chairman's term from six years to four years in the College of Allied Health Professions accompanied the College's plan to consolidate eight existing departments into two new departments, effective July 1, 1988.

Members, Board of Trustees:

PROPOSED AMENDMENT TO THE GOVERNING REGULATIONS

Recommendation: that the following proposed amendment to the Governing Regulations of the University of Kentucky be received at this time for preliminary consideration and, at the next regular meeting of the Board of Trustees, be included on the agenda for action.

Amendment -- Change Part X.B.2, second paragraph, concerning prior service and probationary periods, to read as follows:

(Note: Proposed additions are underlined; proposed deletions are bracketed.)

Probationary periods are applicable, however, to non-tenured appointments of faculty members on a full-time year-to-year basis in the regular, special title, extension, or librarian series of academic ranks and titles. Such non-tenured appointments may be for one year or for other stated periods, subject to renewal. The total non-tenure period, however, shall not exceed seven years, including previous full-time service with the rank of instructor or higher in other independently accredited institutions of higher learning, provided that in the case of a faculty member with more than three years in the academic profession, who is called from another independently accredited institution and appointed at the rank of associate professor or below, it may be required that the individual serve in a probationary status for a period not to exceed four years, even though thereby the individual's total non-tenure period in the academic profession is extended beyond seven years. However, in any case where a period of prior service of a prospective faculty member involves significantly different institutional objectives or significantly different professional activity, all or part of the period of prior service may be eliminated from consideration in determining the maximum non-tenure period [at] in the University System or the Community College System of the University of Kentucky. Except as provided in Part X.C.5, time spent on leave of absence shall count as probationary period service unless the University in granting the leave and the individual in accepting it agree to the contrary. An individual initially appointed to the rank of full professor may be given non-tenure status for a period not to exceed one year. An individual shall not remain at the rank of instructor in the University for more than three years. If, after that period, promotion to a higher rank cannot be justified, the individual's appointment [at] in the University System or the Community College System of the University of Kentucky shall not be renewed.

Background: Faculty members who come to the Lexington Campus and Medical Center sectors of University of Kentucky from community colleges other than those in the University of Kentucky Community College System are eligible to request a waiver of prior service if the position description under which they worked in their former institution was clearly different in expectations from those in place at the University of Kentucky. However, the University's present policy is that faculty members who are recruited by the Lexington Campus and Medical Center sectors from community colleges in the University of Kentucky Community College System are not eligible to request waiver of prior service at the community college even though their community college position descriptions may be identical to those of faculty members in community colleges outside the University of Kentucky Community College System.

The Lexington Campus and Medical Center are accredited together as an institution by the Commission on Colleges of the Southern Association of Colleges and Schools; however, each of the fourteen community colleges in the University of Kentucky Community College System is independently accredited as an institution by the same accrediting body. Since each college in the University of Kentucky Community College System is independently accredited by the Commission on Colleges of the Southern Association of Colleges and Schools, and since the University of Kentucky Community College System has different criteria for academic ranks and separate policies and procedures for appointment, promotion, and granting of tenure, it appears reasonable to consider the University of Kentucky University System (i.e., the Lexington Campus and Medical Center sectors) and each of the University of Kentucky community colleges as independent institutions for purposes of assessing the applicability and possible waiver of prior service.

This amendment is unanimously endorsed by the Chancellors of the Community College System, Lexington Campus, and Medical Center sectors and by the University Senate Council.

Members, Board of Trustees:

COLDSTREAM DEVELOPMENT

RECOMMENDATIONS:

1. That the Board authorize the negotiation of an option agreement with Homart Development Company in a joint venture with Crown American Corporation for the development of a regional mall together with ancillary uses on approximately ninety-five acres of Coldstream Farm.

2. That the option agreement, as negotiated, be presented for consideration and approval or rejection by the Finance Committee and, ultimately by the Board of Trustees.

BACKGROUND:

Pursuant to previous directives from this Board, MPC has engaged in an extensive process to solicit expressions of interest from mall developers willing to meet the University's requirements for Coldstream, including a commitment to lease, rather than purchase, the land. These solicitations have included, but have not been limited to, newspaper publications requesting expressions of interest.

As a result of this search process two developers were identified and both made presentations to the Subcommittee on Coldstream Farm. Thereafter MPC analyzed both proposals in detail.

On the basis of its analysis MPC is of the opinion that Homart/Crown American's proposal is the most attractive. This opinion is based primarily on the following factors:

- experience in the development of regional malls; Homart is ranked as the country's fifth largest retail developer and Crown American is number ten
- ability to meet the requirements of the land use concept plan previously approved by this Board and the

Urban-County Government's Comprehensive Plan, with particular emphasis on the developer's ability to obtain commitments from anchor tenants

- the financial strength to offer and perform with respect to a lease proposal providing an appropriate return to the University on the value of the property

It is envisioned that, following a period of negotiations, a definitive option agreement will be presented to the Finance Committee and the Board of Trustees for consideration and action.

Recommendation: that the Board of Trustees authorize the creation of a quasi-endowment fund to be entitled the "Charles P. Roland Quasi-Endowment Fund."

Background: By this action the Board of Trustees will establish the fund and permit the allocation of funds necessary to implement this authorization. Funds for this endowment will come from unrestricted gifts, grants, interest on private funds and any special appropriations for such purpose. The Charles P. Roland Fund will consist initially of \$5,000. The Fellowships will be awarded to outstanding graduate students at the University who are pursuing research interests in American history, especially the history of the Civil War, race relations, and the American South. ESTABLISHMENT OF THE VALLEAU/DIACHUN QUASI-ENDOWMENT FUND

Recommendation: that the Board of Trustees authorize the creation of a quasi-endowment fund in the College of Agriculture Plant Pathology Department, to be entitled the "Valleau/Diachun Quasi-Endowment Fund" from funds previously received.

Background: By this action the Board of Trustees will establish the fund and permit the allocation of funds necessary to implement this authorization. Funds for this endowment will come from unrestricted gifts, grants, interest on private funds and any special appropriations for such purpose. Some years ago, undesignated gifts totalling \$2,261.87 from multiple gifts to the Department of Plant Pathology were deposited in the "Valleau/Diachun" fund. The intent was to accrue monies that could, for example, be used to bring distinguished lecturers to campus to address aspects pertinent to plant pathology. This program was not actively pursued in part because relatively few funds were available. The department now wishes to establish the "Valleau/Diachun Quasi-Endowment Fund", which will incorporate monies presently in the Valleau/Diachun account as well as future gifts which are anticipated to be received by the department via payroll deductions and periodic gift solicitations to alumni, friends and industry. The monies will be used for lectureships, as indicated above, as well as for other activities that will enrich the academic experience in the department.

Background: By this action, the Board of Trustees will establish the fund and permit allocation of funds necessary to implement this authorization. Funds for this endowment will come from gifts, grants, interest earnings on private funds, and any special appropriations for such purpose. The quasi-endowment will consist initially of \$200,000 which is a gift from the estate of Ruth Louise Works to be used for research in the field of myasthenia gravis in the College of Medicine. Earnings from the endowment will be used to support this professorship. In addition, funds raised from private sources specifically for this purpose will be permanently endowed and will be used for this same purpose.
