University Senate adopts four points of report on tenure and promotions

DR. JOSEPH KRISLOV

By RON MITCHELL
Kernel Staff Writer

It took the University Senate exactly two hours Monday to consider and adopt four of the ten recommendations from the ad hoc committee on tenure and promotion. After spending one hour and 20 minutes on the first two proposals, Joseph Krislov, chairman of the committee which spent two years studying the issue, requested the 101 senators to quit wasting time on minor arguments.

IN THE remaining 40 minutes, the Senate passed two more proposals and discussed a third recommendation at length. Krislov made the motion to adjourn at 5 p.m.

After Senate Chairman Stan Smith explained parliamentary rules of order

and the procedure which should be followed in considering the proposals, action began with debate on amendments to the first recommendation.

The first proposal took the most time and was the most controversial. That recommendation stipulates that prior work at similar institutions in similar positions could be applicable to promotion and tenure consideration.

FIVE AREAS of similarities between UK and the faculty member's former institution are to be examined in granting the applicability of prior service. In a case where the period of prior service or activity differs substantially, all or part of the period may be eliminated from consideration in determining the period of review for tenure here.

Two amendments submitted by Alvin Goldman, law professor, and William Wagner, chemistry, were passed by the Senate.

The amendments provide that the review of prior service be done as "early as possible," and would make actions of a committee composed of area committee chairmen advisory, rather than official.

ANOTHER AMENDMENT, filed by Goldman and Damon Harrison, a student member of the Senate, was rejected on a 51-50 vote. The amendment would have given the faculty member the right to reinstate all or part of the period of prior service after it had already been eliminated.

'Doesn't make it illegal'

Athletic Association violates articles of incorporation

(Editor's Note: This is part two of a series dealing with athletic budgetary considerations.)

By NEILL MORGAN

Initially, UK signed a lease with the State Properties and Building Commission for Commonwealth Stadium. The University, however, has now subleased the facility to the Athletic Association.

A study of this lease shows the association violates its articles of incorporation under the terms of the lease:

—The association made an initial payment of \$1.3 million, the state another million for the construction of the \$12 million stadium. The rest to be financed through bonds which are to be paid off over the next 30 years.

—Terms of both leases specify they are renewable every two years, since the Kentucky legislature is to appropriate \$300,000 in each of its biennial sessions, over \$150,000 per year,

Neill Morgan is a BGS senior and former Kernel staff writer now doing freelance writing.

to help pay off the stadium.

—The association then pays, at current rates of inflation—about \$440,000 to \$480,000 per year, or \$880,000 to \$960,000 in each renewal period.

—SECTION 8 of the Athletic Association's articles of incorporation specifies "that the highest amount of indebtedness or liability which the corporation may at any time incur shall be \$500,000."

But just because the lease violates the association's articles of incorporation, doesn't make it illegal. When acts of a corporation are said to violate their articles it is not intended that they are unlawful, or even that the corporation cannot perform, but just that the corporation has exceeded the powers conferred upon it by the state which chartered it.

Under Kentucky law (KRS 273.173) for non-profit corporations, the lease wouldn't be unlawful, unless so decided in a court proceeding brought by an Athletic Association director against the

2) Based on last June's projected budget for the current fiscal year, as estimated by the UK Athletic Association.

corporation; brought by the corporation itself or decided in any court proceeding initiated by the state's Attorney General against the corporation.

THE ASSOCIATION'S articles of incorporation, which are on file in Frankfort, have been amended several times since its 1945 creation. The majority of amendments, though, have dealt with membership on the association's board of directors.

However, while emphasis on UK's football program was being increased, the University's total varsity athletics program was

beginning to experience the weight of the economic crunch which has hit college sports across the country. In fact, many of the Athletic Association's incidental expenses have risen astronomically in the last two or three years.

—Between FY1971 and 73, just three years, the utilities bill more than doubled.

—DURING THE same period the telephone and telegraph bill went from \$24,000 to \$32,000.

—From FY1972 to 73, administrative travel expenses

went from \$11,000 to \$30,000.

And taken as a whole, the comparative study shows UK's six minor varsity sports don't seem to have been affected by the increased emphasis on football. Total expenditures on them averaged \$190,000 per year during FY1971-73. This was expected to go to about \$275,000 during the current fiscal year.

(The audits and budgets examined don't give an individualized breakdown for each minor sport and neither the Athletic Association nor the

715

Hank passes The Babe

ATLANTA — Henry Aaron, undaunted by the swirl of controversy surrounding his quest for baseball immortality, became the game's all-time home run king Monday night when he smashed the 715th of his illustrious career.

The 40-year-old Atlanta Braves superstar left behind the ghost of the legendary Babe Ruth when he connected for the historic clout in the fourth inning off left-hander Al Downing of the Los Angeles Dodgers.

AARON hammered a 1-0 pitch over the left field fence just to the right of the 385-foot marker and circled the bases for the 715th time accompanied by a massive fireworks display.

A sellout crowd of 52,870 rose as one for a standing ovation and Aaron's Atlanta teammates poured out of the dugout and out of the left field bullpen to greet the 40-year-old superstar.

After Aaron touched home plate, teammates lifted him and carried him a few steps before the slugger broke away and trotted to a special box adjacent to the Atlanta dugout where he embraced his wife, Billye, and his parents, Mr. and Mrs. Herbert Aaron of Mobile, Ala.

HE STAYED with his family about two minutes before returning to the field and holding aloft the historic ball.

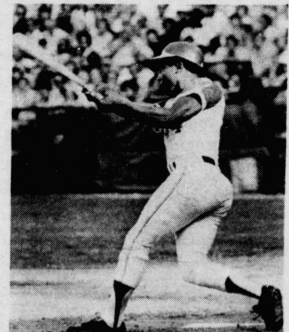

The ball carried about 400 feet and did not get into the seats. It was brought back to Aaron by Atlanta relief pitcher Tom House.

The legendary Ruth, who died in 1948, had hit 714 home runs, the last three in 1935 in a game against Pittsburgh on May 25.

RUTH PLAYED for 22 seasons, got into 2,503 games and had 8,399 at-bats.

The soft-spoken Aaron's record shot came in his third game of his 21st season. It came on his 11,295th at-bat and in his 2,967th game.

"Just thank God it's all over," Aaron told the cheering crowd.

SG endorsement

When last year's Student Government election rolled around we expressed concern that after three successful years under the leadership of Steve Bright and Scott Wendelsdorf the organization was apparently headed into a nosedive.

We were right. "Not one candidate has proven himself worthy of the (SG presidential) office," an April 17 Kernel editorial said. The editorial offered no endorsement and left selection of an SG president to the individual.

Jim Flegle, the individuals' choice, has served us poorly. Because he has been away virtually every weekend on a debate trip UK students have been deprived of full SG benefits. Next year we will need a president willing to stick close to home and willing to achieve as much as possible in the best interest of UK students.

David Mucci and his runningmate Mike Wilson have a good chance of accomplishing these goals.

Actually, the two slates competing for the top two SG positions have much in common. The differences, however, mean everything. Mucci and Wilson primarily hold experience over their opponents David Williams and Emily Ledford.

Mucci and Wilson carried the SG ball last semester while Flegle was criss-crossing the country with the debate team. The two were directly responsible for coordinating efforts to have freshmen hours for women removed from University policy beginning next fall. They also worked hard on the landlord-tenant act which was passed by the legislature and the student records confidentiality bill.

Platforms of both slates mention many of the same programs; a system of exchanging textbooks that will allow students to bypass the expensive commercial bookstores; continuing the effort to obtain lifestyle dorms; support of recognized student organizations and maintaining an interest in Lexington affairs which directly relate to the University.

While both groups pledge to widen student involvement in SG, we prefer Mucci's plan to be a vocal president, a quality definitely missing in the present administration.

Mucci said that, while he intends to open SG to more students through further implementation of the body's constitutional structure, he will not sacrifice any of his inherent authority. And while some may characterize him as being a bit headstrong, we find this an admirable quality. It's a sure sign of aggressiveness.

Mucci and Wilson are the best UK has to offer this year. Through their dedication SG could return to its status of two years ago when it was a major clearinghouse for student campaigns.

Abbreviated platforms for both slates can be found on page 6 of today's issue. Platforms of all senatorial candidates can be found on pages 6 and 7. While we don't maintain every student should vote for the sake of voting, we encourage those interested in UK's Student Government to take a good look at these platforms prior to voting.

'NOW AND THEN I TRY FOR THE BIG STUFF!'

Letters to the Kernel

Endorsements for SG officers

I write to urge all students to vote for David Mucci for President and Mike Wilson for Vice-president of Student Government. I am supporting Mucci and Wilson because of their record of experience with problems dealing with student affairs.

In particular, their work in changing the hours of the Student Center Grill, their leadership in opposing the proposed new meal plan, their work in removing Freshwomen dorm hours, their work to stop limited enrollment in all colleges until the possible effects on all students is known, and their vocal support of the Landlord-Tenant Act, which protects the tenants' rights.

With their, David Mucci and Mike Wilson, record of experience, it is my feeling that they shall continue to work for students as President and Vice-President of Student Government.

Ronald Gross
A&S-freshman

BSU support

Being that Student Government elections are very close I would like to show where my interest and support lies. I base this on observations and conversations with the candidates involved in the upcoming elections. I have only been able to talk with two of the four can-

didates, although there are four. I have only been approached and consulted on the elections by two candidates, Dave Mucci and Mike Wilson. I have been associated with these two people and I find that they have a genuine interest in the work that they do concerning students. I have been able to communicate with them very easily on things of common interest. I am not trying to discredit the other candidates but I am trying to give other students something to base their votes on.

As Black Student Union President I feel that Mucci and Wilson will do a good job if they are elected.

Robert Pass
President, BSU

Clement speaks

I would like to endorse the candidacy of David Mucci, for President, and Mike Wilson, for Vice President.

I have worked with David and Mike this year as both a SG Senator and Vice President of Student Government. I feel that Dave and Mike have an outstanding platform and their past record proves their ability to get things done.

I have worked extensively with all of the candidates and David Mucci and Mike Wilson are by far the most outstanding of those

individuals running for office. I urge you to vote for David Mucci and Mike Wilson.

Bob Clement
SG Vice President

Concern

As an off-campus student concerned with student government, I want to strongly endorse David Mucci and Michael Wilson as a team of students that can work to solve many of the problems that are facing students that live near the University.

I have known David and Mike for two years. In that time, I have learned to respect not only the thorough way they research the problems they deal with but the sound judgment they bring to bear on these problems. For instance, both David and Mike worked hard to solicit student complaints about off-campus housing while working with other Kentucky organizations in an attempt to pass the Landlord-Tenant bill in the Kentucky legislature.

These are the type of people we all want and need to represent us as students. I strongly urge your vote for David Mucci as Student Government President and Michael Wilson as Student Government Vice-President.

Michael L. Chapman
A&S-sophomore

More letters on Page 3

Singletary impressed

During the emergency of last Wednesday night, I had the occasion to be in a number of areas on the campus of this University, and I want to take this opportunity to say that I was deeply impressed by the response that I witnessed on the part of the faculty, staff and students from this institution. The efficient and orderly manner in which all activities that I was able to witness were carried out was indeed impressive. In fact, the outpouring of concern and interest for the welfare of others was truly remarkable.

I think the University's students, faculty and staff are also to be commended for their continuing efforts after the immediate events of last Wednesday night in the collection and dissemination of supplies and materials to those areas which were more unfortunate than Lexington and Fayette County. I know of these continuing efforts and I hope that through these efforts the plight of those more severely affected by the storms may be improved. I know they will be aided by the material possessions which will be distributed through these efforts, but I also hope they gain strength in knowing that others are concerned about their misfortune and have dedicated themselves to expressing that concern.

Again I would like to express my pride in, and thanks for, the response which was forthcoming from this University community.

Otis A. Singletary
President

Readers endorse presidential candidates

Mucci and Wilson have what it takes.

If the present year is any indication, next year will be a great challenge for Student Government. In order to meet this challenge, effective leadership is necessary. Mucci and Wilson have shown that they can provide this type leadership.

Electing Mucci and Wilson as President and Vice President is necessary because they have the experience, imagination and concern to work for the students. I support Mucci and Wilson for President and Vice President of Student Government.

John Spalding
A&S-sophomore

Supports Mucci-Wilson

This letter is to express my support for the Mucci-Wilson ticket for the office of President and Vice-President of the Student Government. An examination of the platforms and qualifications of the two contending tickets leads me to this decision.

The Mucci-Wilson platform touches upon every major issue which will face the University of Kentucky in the coming year. In doing so, it offers reasoned

solutions whenever possible, and the promise to give consideration to those questions demanding further study. Particular strengths of the platform are in the areas of academic reform and the protection of student rights.

I've had the opportunity to work with Dave Mucci on several occasions and have found him able to obtain the desired results in a minimum of time. The enthusiasm and dedication which these two have shown in their terms in Student Government and the genuine concern for student rights is evident in their efforts to secure passage of the Confidentiality of Students bill before the Kentucky Legislature are precisely what the campus needs to insure a year of achievement.

Andrew O'Malley
A&S-junior

USAC supports Mucci-Wilson

The University Student Advertising Committee would like to go on record supporting David Mucci for President and Mike Wilson for Vice-President of Student Government and the

following for Arts and Sciences Senator: B.J. Dallase, Mary Duffy, Richard Graef, Greg Kendrick, and Richard Clement.

These students have shown a high degree of concern in the area of student academic's. It is our belief that it would be in the best interests of students that these people be elected.

Jamie Chase
Chairperson USAC
A&S Senator

SG secretary for Mucci-Wilson

This letter is my way of supporting David Mucci (presidential candidate) and Mike Wilson (vice presidential candidate).

My experience with past administrations gives me an edge on students as far as knowing the candidates personally (competency, dedication, etc.).

Dave and Mike have been totally and sincerely involved in SG this past year. They have the knowledge and ability to come into office and run it effectively from the beginning of the new term of office. They will not have to go through a learning process

before they can be effective and profitable for the students they would represent.

If you want SG to be powerful and effective, I urge you to vote for David Mucci and Mike Wilson.

Judy McClain
SG Secretary

Senator supports Williams-Ledford

As a long standing member of Student Government, David Williams has served faithfully, admirably, and many times above and beyond what has been expected of him.

There is no doubt in my mind that he is a person of many talents and is wholly capable of fulfilling the duties of Student Government President.

I feel that David Williams' demonstrated record of involvement and achievement combined with his perceptive philosophies will be conducive to a more effective Student Government.

I feel that David Williams can and will remodel Student Government in to a viable force on our campus.

Therefore, I heartily endorse Mr. Williams and his running

mate Emily Ledford for the next President and Vice-president of Student Government.

Roger L. Massengale
Student Senator

Athletic Association violates articles of incorporation

Continued from page 1

University would release break-downs.)

HOWEVER, THE study does show the emphasis on basketball to be shifting:

—When revenues and expenditures are expressed as a lump sum, football appears to be more financially sound than basketball, because revenues for football have gone up with expenditures over the past four fiscal years, while revenues for basketball have gone down as expenditures rose.

—But when the same lump sums are expressed as a percentage of the total budget, basketball revenues and expenditure have gone down, while those for football have gone up.

—BASED ON last June's budget projections for FY1974, football will account for 55 per cent of the total athletic revenue and 54 per cent of the expenditures. Basketball during FY1974 would account for 18 per cent of the total athletic revenues and 14 per cent of the expenditures.

—Based on that projected budget for the current fiscal year, football will net \$40,000 in FY1974, and basketball will have a gain of about \$125,000 in revenues over expenditures.

—Basketball incurred some indirect expense when the association performed renovations on Memorial Coliseum last summer, and the sport will account for some additional indirect revenue this fiscal year

as a result of four games which were televised live.

WHETHER FROM the economic crunch or the increased emphasis on football, any economic woes facing UK's varsity athletics are commonplace across the nation, since costs have generally doubled in the last decade and, in some places, within the last five years.

The Athletic Association's total athletic revenues have gone from \$2.39 million in FY1971 to an estimated \$2.82 million from FY1974, an increase of \$930,000.

Nationally, the economic crunch is so bad that a survey by the Los Angeles Times last December indicated 90 per cent of the NCAA member schools had operated at a deficit in 1973—up from two-thirds in 1971.

"THERE IS not an athletic department in the country where officials are optimistic about the financial outlook five years from now," the Times survey quoted Michigan Athletic Director Dan Canham. "Not at our place, not at Notre Dame, not at Southern California. To me that's frightening."

And the economic crunch comes at a time when the revenue from attendance at most schools is at an all time high. For example, the Times reported the average income from gate receipts for football and basketball—normally about 50 per cent of a school's income—was \$500,000 at major colleges across the country in 1965. In 1969 it was at \$700,000, but by 1972 it

was only about \$750,000.

With the new Commonwealth Stadium being used initially this past football season, the Athletic Association was prompted to estimate larger attendance capabilities would increase revenues from home games by \$340,000 to about \$1 million. If UK basketball ever moves into the proposed Lexington Civic Center, it has been estimated an annual increase in revenue could run as high as \$175,000—provided the new arena sells out every home game.

The Southeastern conference.

The SEC—just think of all the prestige that goes with being a member of such a conference, especially in football, with all of the bowl bids conference teams get, six out of 10 teams during the 1973 season.

AND A lot of money, too. During the 1973 season, according to a recent survey by the Atlanta Journal, Alabama received \$302,000 as its share from conference television contracts and bowl game participation.

LSU got \$283,000, Tennessee \$275,000, Georgia got \$265,000, and UK, along with Vanderbilt and Mississippi State, came away with \$118,000 as their share of SEC prestige, just for being conference members since none of the three appeared on television or in bowl games.

During this past season, UK's share of the SEC pie went up for the first time in four years, after

being on a downward slide since the 1970 football season. For that season UK received \$247,000 and \$245,000 for 1971, but its share fell to \$112,000 at the end of the 1972 football season.

BUT EVEN at a low \$112,000 for the 1972 season, the school's share of SEC rewards amounted to almost five per cent of the total athletic revenue, \$2.5 million, generated during FY (fiscal year) 1973. In fact, without the money received from television and bowl games many SEC schools would find themselves on the brink of financial disaster.

For example, The Journal reported that during FY 1973 Florida lost \$23,000, Tennessee lost \$24,000 and Vanderbilt lost \$135,000, Alabama only made \$103,000, Georgia only made \$59,000 but LSU made a whopping \$657,000. During the same period UK's athletic program had a net gain of \$507,000.

Since different schools use different accounting procedures, comparing their athletic revenues would be like comparing apples to oranges. But the example does illustrate how much the television and bowl revenues can help some SEC schools.

IF A team participates in a regionally televised game it would gross about \$150,000 and a national telecast would gross about \$200,000 for a team. But those are only gross figures since the SEC has a share-and-share-alike plan.

If one conference team par-

ticipates in a televised game, there are 13 shares. The participating team gets three shares, the other nine teams get one share each and the SEC office gets a share. If two conference teams are in the same telecast, there are 14 shares. The home team would get three shares, the visiting team two shares and the other eight members plus the conference office would get one share.

But before any team would get a cut, the NCAA would take a six per cent slice off the top of the television revenue, while the home team would get a \$3,000 expense fee to cover the cost involved in setting up the TV cameras.

AND THE bowl games...the Orange Bowl pays about \$540,000 per team, the Sugar and Cotton Bowls about \$400,000, the Gator about \$240,000, the Peach about \$165,000, the Sun about \$90,000 and, of course, the Rose Bowl, the granddaddy of all bowl games, pays about \$1 million per team.

The SEC also has a method for dividing up the bowl receipts of its members that is a bit more complicated than the television payoff, but no team can keep more than one-tenth of bowl receipts about \$150,000.

Even so, of the six SEC teams which went to bowl games this past season, all were on television at least once. And Mississippi who didn't go to a bowl game, was on TV twice.

UK, Vanderbilt and Mississippi State just collected their shares of the money.

to consider entire fuel crisis

According to Ted D. Haley, UK mining engineer, "Coal is coming back" and that will be the theme of this year's annual Industrial Coal Conference.

The conference will provide an opportunity for the exchange of information and ideas for those concerned with the safe and efficient utilization of fuels and the social and environmental responsibilities of such usage.

VARIOUS ISSUES in the present fuel crisis will be discussed, Haley said. Views on the coal, oil and gas industries will be represented.

"Three of the talks will concern pollution and methods which will be used to reduce it," Haley said.

"One method will involve cleaning the coal before burning it."

Other topics to be discussed include problems related to energy conversion equipment, coal and ash handling equipment, storage and handling of fuels and the economics of operations.

BANQUET SPEAKER will be former U.S. Senator from Tennessee, Albert Gore, Chairman of the Board of Island Creek Coal Company.

Harold E. Johnson, district manager and Russell Wills, sales manager of Detroit Stoker Company, will present the topic "Back to Coal — What's Involved."

Other speakers will be V.M. Johnson, Lexington; Frank Conneighton, Ashland; and John W. Tieman, Monroe, Pennsylvania.

Co-ordinators of the conference are Haley and O.W. Stewart, Engineering professor.

The conference will be held at Carnahan House Conference Center on Newtown Pike April 24 and 25.

You're serious about photography. So is the Canon F-1.

To you, photography is more than a hobby. You may never want to become a professional. Yet, your photography is as important a means of self-expression to you as your speech. You demand the same excellence in your photographic equipment as you do of your photographic skills.

The Canon F-1 is the camera that can fulfill any photographic task to which you put it. It can stand up to your ability in any situation.

Naturally, a great camera like the F-1 won't ensure great results. That's up to you. Yet—it's nice to know that your camera can grow with you as a photographer.

Part of the reason for this is the F-1 system. Since it was designed in totality, it offers total performance. There is nothing "added on" in the F-1 system. Everything works as it was designed to, and integrates superbly with everything else. You'll spend less time worrying about operating the camera than in shooting. And that's what creative photography is really all about.

Controls fall into place under each finger. It's no accident. Professionals who depend on a camera for their livelihood have a deep regard for the F-1's handling. It's amazing how much a comfortable camera can improve your work.

Sharing these lenses and many of these accessories are the new Electronic Canon EF, with fully automatic exposure control, the FTb, now improved with all exposure information visible in the finder, and the TLb, great for a second camera body or for getting started in Canon photography. Canon. For serious applications. For serious photographers.

Isn't it time you got serious?

Instructions listed First computerized ballots to be used in SG elections

Unprecedented use of computerized ballots will mark the Student Government elections today and Wednesday, designed to provide more accurate results and faster tabulation of votes.

Carla Rodriguez, co-chairperson of the SG Elections Board, said the new balloting procedure will be more accurate, avoiding an incident which occurred in last year's balloting when votes had to be recounted several times. Rodriguez said election results would be available before midnight Wednesday.

RODRIGUEZ noted since this is the first time computerized ballots have been used it is important they be properly filled out.

On the ballot, which looks like an ordinary test result sheet on computerized tests, there is certain information which is filled out by the poll worker. Then there are 160 rows containing five blocks each.

She warned it is important that only the first block of the row be filled in when voting. The candidate's name is coded to correspond with a number on the ballot sheet.

IN A hypothetical situation where a voter has decided to vote for the candidate given 14 as the corresponding number, the voter will scan the ballot until he reaches the number 14 row. He then fills in the first block only in row 14. That makes the vote official. No blocks other than the first one in any row are to be filled in.

Under each of the offices are corresponding numbers if the voter wishes to write-in votes. The corresponding number to the words "WRITE-IN" is blackened in and the write-in votes are written on a separate sheet of paper provided at the polls.

Rodriguez said it is permissible to write-in a person for one office and use the computerized sheet for other offices, making for a split ballot.

FUTURE USE of the computerized system will depend upon its success in the current election, said Rodriguez. She said poll workers will be on duty to explain the new ballots and answer questions.

One important part of the election process, Rodriguez noted, is that the only place part-time students can vote is at the M.I. King Library poll, between 11 a.m. and 9 p.m. each day of the election.

New employment office opens in Med Center

Prospective employes at the Albert B. Chandler Medical Center can now apply through a new personnel office in Room N-140 of the Med Center on Rose Street.

G. Bruce Miller, UK personnel director, said over half of UK's job vacancies occur in the medical and allied health areas.

THE employment office for the rest of the University will

continue to be in Room 350 of the Service Building on Limestone Street.

"We still have one personnel function. We're just adding an additional office to better serve the public and the University," Miller said.

UK employs about 8,300 people fulltime. This includes the campus, community colleges, and the statewide agricultural program.

March 12, 1974

Senate Council Office

Course - Program Actions Effective: Fall, 1974
UNLESS OTHERWISE NOTED

The Senate Council circulates for your approval the following curricular actions listed below. Objections will be accepted from University Senators and faculty members and must be received within ten days of receipt of this notice to the appropriate Council designated below. All other requirements for offering the courses or programs as approved below must be met.

ACADEMIC COUNCIL FOR THE MEDICAL CENTER COLLEGE OF ALLIED HEALTH PROFESSIONS

New Courses:

AHE 857 Common office Laboratory Procedures for Clinical Associates (4)
This course will be taught by Medical Technology Department under the direction and administration of the Clinical Associate Program. (a) 15 hours per week for 4 weeks or until the student reaches mastery of venipuncture; (b) 9 hours per week (three, three-hour sessions) for eight weeks didactic and laboratory experience; (c) total credit for the eight week summer intersession is four hours. Pass-Fail only. Lab: 16 1/2 hrs. week.
Prereq: Enrollment in the Clinical Associate Program.

AHE 858 Common Office Problems (4)
Lecture format with much audio-visual and self-instructional enrichment. Those problems which have been shown to fall within the province of the class "A" paramedic will be dealt with in depth. Algorithms will be introduced for all appropriate conditions. Pass-Fail only. Lecture: 3 hours per week.
Prereq: Enrollment in the Clinical Associate Program.

AHE 859 Introduction to Radiology for Clinical Associates (1)
This course provides the student with the information needed to take x-rays of the extremities, chest and abdomen. Pass-Fail only. Lecture: 2 hours per week.
Prereq: Enrollment in the Clinical Associate Program.

AHE 860 Family Practice Practicum (8)
Clinical rotation through the Family Practice Out Patient Department where the student will function as a class "A" paramedic under direct supervision of attending M.D.'s and resident M.D.'s. Pass-Fail only.
Prereq: Enrollment in the Clinical Associate Program.

AHE 861 Clinical Pediatrics for Clinical Associates (4)
This course provides the student with an experience in evaluating the pediatric patient and helping in the medical care of children. Pass-Fail only. May be repeated to a maximum of 8 credits.
Prereq: Enrollment in the Clinical Associate Program.

AHE 862 Clinical Obstetrics and Gynecology for Clinical Associates (4)
This course provides the student training and experience in the office management of gynecology problems and prenatal care of the obstetrical patient. Pass-Fail only. Lec: 2; Lab: 38 weeks.
Prereq: Enrollment in the Clinical Associate Program.

AHE 863 Clinical Surgery for Clinical Associates (4)
This course provides the student training in evaluating and in assisting with the management of patients with surgical problems. Pass-Fail only. May be repeated for a total of 8 credits. Lec: 5; Lab: 35 hrs.
Prereq: Enrollment in the Clinical Associate Program.

AHE 864 Electrocardiography for Clinical Associates (2)
This course is designed for students to be taught to read, and recognize gross abnormalities in the electrocardiogram. Pass-Fail only. Lecture: 10 hours; lab: 30 hours per week.
Prereq: Enrollment in the Clinical Associate Program.

UNDERGRADUATE COUNCIL COLLEGE OF ARTS AND SCIENCES

Department of Political Science

Course Change:

PS 390 Seminar in Political Science (3)
(Change in credit only.)

Change to:
PS 390 Seminar in Political Science (1-3)

Department of History:

New Courses:

HIS 412 Science and Religion in the Age of Galileo (3)
Magic, science, and religion in the 16th and 17th centuries. Detailed coverage of the religious and scientific attitudes of 16th century Copernican, Galileo, and Kepler; of the Mechanical Philosophy.

Prereq: Permission of instructor.

HIS 417 The Physical World in European Thought: to the Enlightenment (3)
A study of backgrounds and theories in the history of physics, chemistry, and mathematics. Emphasis will be put on the historical varieties of scientific method.

Prereq: Permission of instructor.

Department of Classical Languages and Literatures

New Courses:

CLA 370 The Greek Experience (3)
An examination of the approach taken by the ancient Greeks to some basic human problems: the achievement of self-expression through literature and art; the relationship between the individual and his community; the purposeful organization of society. Study materials will include the writings of the classical authors and the physical remains of the Greek world. All work is done in English.

CLA 426 Classical Drama: Tragedy and Comedy in Greece and Rome (3)
A study of the development of tragedy and comedy in the ancient world. Attention will be focused on the cultural dimension of each form and the contributions made by individual authors. Emphasis will be placed on Greek Tragedy and Roman Comedy. All work is done in English.

Course Change:

CLA 261 Survey of Greek Literature in Translation (3)
(Change in title, description)

Change to:

CLA 261 Literary Masterpieces of Greece and Rome (3)
A survey of major Greek and Roman literary works. Attention will be focused on the various genres of Classical literature, and the course will include comparative analysis of Greek and Latin literary pieces. All work is done in English.

CLA 425 Latin Literature in Translation (3)
(Change in title and description)

Change to:

CLA 425 The Heroic Ideal: Greek and Roman Epic (3)
A study of the epic genre as developed in the works of major Greek and Latin writers. Attention will be focused on the cultural background of each author and his contribution to the genre as a whole. In addition to Homer and Virgil, the course will normally include the study of Apollonius and Lucan. All work is done in English.

Drop Course:

CLA 262 Survey of Latin Literature in Translation (3)

Department of Slavic and Oriental Languages and Literatures:

New Course:

SO 396 Independent Work in Middle East Civilization (3)
This course is designed for students who want to do advanced work in Middle East Civilization. May be repeated for a max. of 6 credits.
Prereq: Major in Middle East Civilization and consent of instructor.

SO 458 Modern Hebrew Literature (3)
Readings in Modern Hebrew Literature in Translation, reflecting the Hebrew revival of "Maskehan" ("Enlightenment") form the 19th century to the present.

for membership on

BOARD OF STUDENT PUBLICATIONS

in 1974-75

are now being received

APPLICATION FORMS may be obtained at Office of Vice President for Student Affairs, Room 529, Patterson Office Tower...or will be mailed to you if you call the office, 257-1911.

DEADLINE FOR APPLYING: 5:00 p.m. Monday, April 15.

DAVID MUCCI

MIKE WILSON

DAVID WILLIAMS

EMILY LEDFORD

Platforms of candidates seeking SG positions

Mucci-Wilson: effectiveness

We feel that our initiative in Student Government during the past year proves that we will be most effective next year. A sampling of our record illustrates this point.

On the campus level, we coordinated the efforts which eliminated freshman hours and sign-in sign-out in the dorms. We worked for lifestyle dorms and negotiated a compromise of possible expansion of dorms next fall. David chaired the committee which stopped the moral plea.

On the Board of Trustee level, Mike authored the amendment eliminating expansion as a priority. On a state government level, we authored and lobbied for the recently passed "Landlord Tenant" bill which protects off-campus students against landlord abuse.

On the state level, we've shown our initiative and dedication in protecting student concerns at all levels. Our opponents, who have also been in Student Government this year, have not used these Senatorial positions—compare the record.

We have taken positive steps to involve students in Student Government: we have selected student opinion through the polls; involved off-campus students in a "SG" interest program; worked directly with student organizations such as University Student Advisory Committee, Council on Women's Concerns and Environmental Action Society; and involved dorm governments by calling together all dorm presidents and vice presidents to discuss the proposed moral plan.

WE'VE PROVEN our desire to involve students. We ask you to compare our initiative in this area with that of our opponents during the past year.

Our program for next year is encompassing and specific. Examples include: active support to stop the Red River team, reviving the sale of notes for big classes, creating a comprehensive instant referral system to help students find apartments, and active opposition to the proposed expressway which will divide the University campus. A full platform is available in the Student Government Office.

In summary, we've proven our initiative and ability to help students. We have specific programs. We ask that you bypass campaign rhetoric, compare records and platforms, and vote that basis, vote Mucci for President and Wilson for Vice President.

Williams-Ledford: flexibility

Our prime concern in deciding to run for Student Government offices was that a great deal more could be accomplished by a more flexible and cooperative Student Government.

In our platform we have stressed changes we would like to see in the administration and coordination of Student Government, in the relationship between Student Government and other campus organizations, and in the relationship between Student Government, the campus and the community.

THESE ARE also specific proposals listed which we will work to achieve in order to create a better environment for all members of the University community.

The changes we would make in the administration and coordination of Student Government would include elimination of all salaries paid to president, vice president and administrative assistants working in the office. We will also make sure that there is increased participation and cooperation between the administrative branches of Student Government and the Student Senators.

The Student Government will become a vehicle through which all student organizations can further their goals. We pledge financial support and physical facilities for all organizations whenever possible. However, we will not take over the leadership of any organization. We believe that any endorsements coming from Student Government should come from the President.

WE WILL encourage student involvement in off-campus affairs. We believe we can best encourage this involvement by cooperating with existing student organizations already involved and/or cooperating with both State and Metro governments.

Changes or improvements that we would like to see on campus include the following: we will work for the establishment of preferential living style dorms by pre-registration.

WE ADVOCATE complete self-regulation of hours in sorority and fraternity houses.

we will work to actively recruit minority students and to improve the conditions that exist on this campus for minority students.

we will make available information on off-campus housing as well as information on avenues of redress of grievances for tenants.

WE ADVOCATE the continuation and expansion of Student Government Forums and also more coordination with Student Center Board in other programming areas.

we propose the present full information in Making It and other publications on drop-out procedures.

we will establish a computerized Book Exchange as one effort to save students' money.

WE WILL GIVE full support to Student Advisory Committees and University Student Advisory Committees. We will work with them to see that they gain recognition in their respective colleges.

These are examples of changes in which we will work and effect change in the next year. We will continually be open and hope to receive new ideas and opinions from all students.

Seats allotted

Allied Health 1

Rita Young Hawkins
I would like to be in the Student Government because I feel that there are many things at the University which can be improved. I have held various offices in high school, and held the office of secretary on the Student Center Board.

Agriculture 1

Barry Glenn Harmon
As previous service, I have served for a semester on the Student Senate as a Senator-at-Large. I have also served within the College of Agriculture as vice president of the Agricultural Student Council and as special interest clubs. My objective is to make Student Government more relevant to student needs and to build a correspondence between the governing boards of the University and the Ag. Council in the College.

William Cooper Miles

I am seeking the position because I want to contribute more to the College of Agriculture and University than by being merely a student. I want to work with and help fellow students. More than anything I want to see the College of Agriculture and the University move forward and become a leader for students and faculty.

Architecture 1

William Bruce Koenigs
As incumbent Senator, I would like to continue to protect the interests of the Architecture students while communicating to them the developments of the University as it affects them.

Arts & Sciences 5

Michael Andrew Clawson
As senator of Arts & Sciences, I will seek the reinstatement of lifestyle dormitories and the improvement of off-campus housing. I will also work towards re-examination of Student Code and greater student representation in University matters which affect them. As Senator I also manage good attendance in both the Student Government and University Senate and an interest in all matters which affect the students.

Richard L. Stewart

During my three years at UK, I've gained an insight into the academic programs of the University. I hope to use this insight to improve the quality of education offered students by this institution. As a dorm resident, I'm concerned with acquiring lifestyle dorms and expanded visitation for those who want sub-sidies improving food services, and obtaining a conchaining service for all the dorms. I am greatly concerned and will take

an active role in the various matters affecting students.

Steve Anthony Culbertson

I believe student apathy for the Student Government is caused by ignorance on the part of the students about exactly what influence they and their representatives have on the administration of the University. I want to correct this. For what it's worth, I am presently an IPC representative for my fraternity (Kappa).

Tim Cunningham

I feel that Student Government must become a more important factor on the UK campus. There must be a greater amount of efficiency and interest in this office. We need to strive to become a more important force instead of a lobbying front.

Roger Jane Bellows

With student apathy an established fact at UK, it is essential that the Student Senate remain active and provide an open channel for student influence. As an incumbent senator with experience on the Appeals Board and the A&S and Political Science Student Advisory Committees, I am interested in working toward a more effective Senate.

Mary Biagi Duffy

The position of senator is the best opportunity for me to gain further experience in SG and for me to benefit the students through hard working representation. I have definite ideas of areas in which SG should focus its concerns for the upcoming year and would like the chance to see these areas acted upon.

Charles Hughes

I am applying for a Student Senate seat because after attending several Senate meetings, I am convinced that the present student senate is not concerned with or active in the needs of college which interest and would benefit the majority of students. I would like to receive interest in Student Government by making it more relevant to the student.

Hope Hughes

I am interested in running for a Student Senate seat in order to expand my involvement with different people and with different aspects of the University. I want to become more knowledgeable concerning student activities. I have held two offices in my sorority and served as a member of the student information team which I think has been helpful in several ways.

Jeff Jacobs

I am applying because I am interested in government, and I feel that this could be a meaningful, education experience. Past experience: Vice Chairman of 1973 North Ohio Book Democratic Convention.

Greg Morrison

I have a strong interest in helping to plan and fulfill the

requirements, grades, advising, etc.

M. Gregory Knudick

I am interested in working for student interests in the areas of general studies, requirements, rent control, and the formulation of more meaningful academic programs. I worked for a brief time on the student affairs committee in 1971.

Douglas Stuart Lee

After I have an opportunity to speak with and listen to members of various groups and opinions within A&S, I hope to articulate my platform.

James Albert Metz

Student input is lacking — to alleviate this problem I will seek student ideas and participation. Their thoughts will be sought concerning residence hall living, reorganization of a student discount store, "out of the classroom" education, and the A&S language requirement. These along with any issue brought to my attention will be presented before the senate.

James Kay Miller

I chose to run for Student Senate because I would like to fight apathy and represent the interests of other students as well as myself. I have served on the Student Council in high school, with one year as secretary, as well as being active in many other organizations. I would like to be an advisor for students and fight for what the majority really wants.

Jerry Skies

My main reason is because I want to get involved and try to get other people involved. I think as a Senator, I can do this. I am presently on the Undergraduate Focus Forum and have knowledge of the University system. I am also working on the Student Forum on obscenity and the Law.

Napoleon L. Taylor

I want to be A&S Senator because I am interested in the University of Kentucky and I would like to see progress.

John Peter West

My reasons for applying are to try and find out why the Student Senate has so little power and how this situation can be remedied. My previous experience is in the high school student senate around academic matters.

Business & Econ 3

Tom Anderson
I am applying for the Student Senate because of a desire to see the Senate become more active in providing the students at UK with legislation that will be more beneficial to them than past Senators have provided.

John H. Carpenter

I believe that student participation in University affairs is

most important to the betterment of higher education. With my experience and background, I believe I can become an integral and useful part of the University system.

Janet Patterson

I am applying for Business and Economics because I am sincerely interested in the welfare of UK students, particularly those in the business college, and I feel that the Student Senate can have a voice in the fair treatment of each student. Qualifications: I've done a lot of public speaking and debate, and have held several job offices. I've, therefore, had to learn to work with people and make decisions that affect others.

Mary E. Davis

I've worked for Young Democrats, member of Textiles Club Sigma and Fraternity, worked for County election in high school. Had several courses in government, etc.

Scott Perry

George Swain
I believe that there should be a greater amount of reworking and analyzing of the faculty by the University. I would like to see certain policies adopted that will benefit the student in his quest of a more satisfactory education.

Kim Maria Hatch

The University of Kentucky consists of many ethnic groups. However, the ideas of many groups are not represented, thus the University tends to be things from only one perspective. I feel I could represent many different ideas.

Charles Hughes

I am applying for a Student Senate seat because after attending several Senate meetings, I am convinced that the present student senate is not concerned with or active in the needs of college which interest and would benefit the majority of students. I would like to receive interest in Student Government by making it more relevant to the student.

Hope Hughes

I am interested in running for a Student Senate seat in order to expand my involvement with different people and with different aspects of the University. I want to become more knowledgeable concerning student activities. I have held two offices in my sorority and served as a member of the student information team which I think has been helpful in several ways.

Jeff Jacobs

I am applying because I am interested in government, and I feel that this could be a meaningful, education experience. Past experience: Vice Chairman of 1973 North Ohio Book Democratic Convention.

Greg Morrison

I have a strong interest in helping to plan and fulfill the

Engineering 1

K. Gregory McNulty

Most students of engineering feel alienated from the workings of the Student Government because their academic interests are far removed from such activities. Even though they find it nearly impossible for participation outside their rigorous engineering curriculum, they should have a representative to convey their interests and keep them from becoming further alienated from the Student Government.

Graduate School 2

Richard Hayes

I feel that students should have input into the system (UK) and their input should be met with responsiveness. I feel with an undergraduate degree in Sociology and Political Science I could perform to the expectations of the general student body.

William T. Niskell

I want to help make the Student Senate an independent entity, capable of voicing its own opinions. I am particularly interested in environmental matters, and will support research in these areas. I pledge to attend and participate in all Student Senate meetings. I have been active in numerous campus organizations, and am now an active member of the Environmental Action Society.

Pharmacy 1

Jo Moore

I have had vast experience in activities of this nature and I believe I could benefit myself, my college, and the University by holding such a position. Past experience: president and secretary — Phi Kappa Tau Fraternity; President — IPC, delegate to Phi Kappa Tau National Convention — Miami, Fla.

Katherine (Kiki) Nichols

I want to see the College of Pharmacy have a strong voice in campus government. I feel that I can represent the students in the college well. I have held that I do a good job as chairman of the SAC in a position held by the pharmacy student senator. I have been involved in college committees (alternate grading systems) and actively involved in all pharmacy organizations and Student Government (SG Drug Committee, 1972).

Social Professions 1

Jim Birmingham

I'm applying because at the present time, no one else has expressed any interest in running. I've had no previous experience that would be pertinent to seeking this position. Therefore, if elected, my being senator could be a valuable learning experience.

Mark Reed

I am applying because I think it will be a good experience. I'm mainly because no one from Social Professions was running and I believe it is important that my college be represented. Also, I think student government is a very important part of college life.

Library Science 1

Alan C. Heath

I was interested in my college this spring semester of my college to take the place of Wayne Walker, who graduated in December. It is my wish to continue in this important position and ensure good representation for the College of Library Science.

Nursing 1

Sharon Lewis

I am applying for position of Student Senate because I am interested in the welfare of the student body and I want to do something to help the student body by being on Student Senate rather than talking about it or complaining.

Sherril Ann Testerman

I have always taken interest in College of Nursing, decisions and activities as well as those of the Student Government on a campus wide basis. I wish to represent my potential constituency to the best of my ability, determining their opinions on issues, keeping them informed on current issues, voting for my constituency not myself, getting involved.

Home Economics 1

Patricia Stevens

Qualifications: Vice President of Textiles Clothing; Merchandising Club, President of Coordinating Council of College Committee Service in ABEA, member of R.O. Reasons: I am interested in serving the College in this capacity in order to increase and improve communication and interaction between the College of Home Economics and the rest of the University.

Law 1

Rebecca Westfielder

Having been involved with the procedures and mechanisms of the University Senate and vice president for the UK Student Body (1972), I would use my experience to maintain significant law student representation in the Senate. I would strongly support expansion and revitalization of the College of Home Economics and other programs which permit law students greater curriculum alternatives. Furthermore, I would vigorously advocate academic reforms which would allow for a stronger student voice and involvement in academic policy making.

Education 3

Charles W. Ludwig

My main reason for declaring my candidacy is to insure the students of the College of Education and the University as a whole that they will be properly represented in the upcoming school year.

Joseph Hamilton Mattingly

I feel that I have something to give to my college. As a moderate, I will act as a liaison between my college and the University as a whole. I will often the issues which exist in the College of Education are overlooked. I will attempt to change this.

Simon revives detective hero to create entertaining escape

By JOEL D. ZAKEM
Kernel Staff Writer

He's known by many names — Travis McGee, Mike Hammer, Shell Scott, Matt Helm, Sam Spade, even Sherlock Holmes. And recently he has been undergoing a sort of revival.

He, of course, is the detective. And, until recently, no fictional detective was able to capture the mood of the 70's.

ONE COMES close now. His name is Moses Wine, and he is described as a "dropped-out, debt-ridden, dope-smoking dick".

Wine is the hero of *The Big Fix* (Pocket Books), a novel by Roger L. Simon. And like his predecessors, he gets involved in more than he wants to.

The book begins with Wine called in to stop an extortion racket aimed at a presidential candidate. But on the way to solve it, he gets involved with

murder gambling, the occult and a few women who both hinder and help his efforts.

SIMON HAS studied the masters (in this case, Raymond Chandler and John D. MacDonald) well. He creates moods and scenes which carry the book. In addition, he has found in Wine a perfect main character—slightly brash, slightly hip and very human.

The Big Fix is not great literature, nor does it attempt to be. It is an 157 page escape into a different, much simpler reality. And on that level it works perfectly.

Fans of this genre should embrace Wine as one of the most original detective figures in a long time. Those who have no experience with this type of book will find *The Big Fix* a good place to start. It entertains, which is all that a book of this type should do.

'Lost in Stars' to show

Kurt Weill and Maxwell Anderson's *Lost in the Stars*, one of eight American Film Theatre presentations, will show at 2 and 8 p.m. today in the Fayette Mall Cinema.

Based on Alan Paton's novel, *Cry the Beloved Country*, the film

stars Brock Peters in a repeat of his Broadway role as a humble country preacher. The action takes place in South Africa with racial equality the central theme.

TICKETS ARE on sale at the theatre.

Concert review

Moody, ensemble display talent, bring jazz to area

By DAVID CUBINE
Kernel Staff Writer

The lights were left on and the performers wore coats and ties instead of work shirts and glittered make-up. Instead of 50,000 amplifiers with roaring guitars in a 10,000 seat coliseum, there was the clear, crisp sound of brass and piano swinging in the intimate atmosphere of Memorial Hall. A welcome change!

The University of Kentucky Jazz Ensemble, along with renown guest soloist James Moody, brought this change in a well-done jazz concert Sunday night. Moody combined talents with the Jazz Ensemble as well as performing several numbers with a smaller group. And the ensemble held its own, both in aiding Moody and in performing solo.

ALTHOUGH THE sound of jazz is not a new one in the world of music, Lexington has been deprived of it except in a few instances.

And Lexingtonians were obviously hungry for jazz. Memorial Hall was filled with persons from all walks of life. Old and young and those in the middle were in attendance. The odor of pot mixed in unlikely combination with cologne and perfume.

The ensemble, led by Vincent DeMartino, opened the evening's entertainment and featured several outstanding musicians in solos: including Cary Kools on saxophone, Dave T. Thompson and Steve Walker on trumpet and Dave Webb on piano.

Moody followed, opening with "On the Trail", backed by the ensemble but later switching to a trio of musicians which included Jake Flipping on piano. Moody's sax gave both the excitement of a fast-paced swing and the mellow flowing of a country breeze.

MOODY CHANGED to flute without much difficulty, constantly shifting moods and styles. One number was inspired by another, in the style of better known jazz musician Herbie

JAMES MOODY

Mann. But Moody stood on his own, perhaps playing like Mann but developing a form all his own.

UK's Jazz Ensemble proved to be talented and versatile. This is the first semester in which the ensemble has been divided into two groups. The second group, led by Jake Flipping, had a much shorter set but included talented members like soloists Kevin Moore, trumpet, and Dave Aldrich on piano.

Moody and the Jazz Ensemble finished the night together, with DeMartino picking up the trumpet. He and Moody traded licks in a jam manner (although the tune was prearranged), bringing the receptive audience to its feet.

I CAN ONLY hope that Lexington brings in more jazz.

This type of music has been overlooked too long in this area and other performers, as well as other styles of jazz, should be given a chance.

The concert was sponsored by the honorary musical societies Phi Mu Alpha and Sigma Alpha Iota.

Lecture given

on 'The Tempest'

Lawrence J. Ross, Professor of English at Washington University and author of two books, will give a lecture on Shakespeare's drama, *The Tempest*, at 8 p.m. today in the auditorium of the Commerce Building.

The lecture is open to the public.

Kentucky ruggers sweep Vols in tourney warmup

EACH OF Kentucky's two rugby clubs won hard fought battles against the University of Tennessee in Knoxville Saturday to remain undefeated.

UK's Blue squad came from behind to win 14-10. Tennessee scored early in the first half to take a 6-0 lead. The Cats narrowed that advantage to 6-3 on a Fred Black penalty kick.

But Kentucky's defense lapses opened up a hole for the Vols. UT converted a deep offensive kick for a "tri" (four points) as the half ended at 10-3.

THE CATS came to life in the second half as Bill Doerries broke through the UT wing (backfield) and passed to Jack Townsend for four points. Fred Black's penalty kick later in the action knotted the score at 10-10.

UK's scrum (lineman) threatened the rest of the second half until Stan Jones passed to Joe Foran to make the final score 14-10 in favor of the Cats.

In the second game, UK's white squad scored first on a penalty kick by John Albright followed by a pass from Scott Saylor to set up

a long run and successful tri by Geoff Wall.

BUT THE momentum turned to the Vols in the second half. They scored one tri and threatened the remainder of the game, but the whites hung on for a 7-4 victory.

Both UK squads are 4-0 for the season. The teams travel to Ft. Campbell for a match this Saturday in preparation for the SEC tournament in Nashville the following week.

Algood on a hot streak

UK racketeers split series

By JOHN VOGEL
Kernel Staff Writer

THE UK tennis team split two matches this weekend at the Bluegrass Racquet Club losing to Louisiana State 7-2 and whipping Mississippi State 9-0.

Due to inclement weather, Friday's match against LSU was moved indoors. The Bayou Bengals, sporting a 7-3 record, won four singles and all three doubles matches.

UK's Scott Smith started the match on a positive note, knocking off LSU's Mitch Creekmore 3-6, 6-2, 6-3. Picking up momentum in the second set, Smith destroyed his opponent with several aces and fine sideline placement returns.

BUT LSU proceeded to win the next four singles matches obliterating any hopes UK had of copping the match.

Gary Albertine picked UK's Steve Gilliam apart in the number two singles, winning 6-4, 4-6, 6-3. Albertine, using a variety of shots and a consistently good serve, started the Bengals on their way to victory.

Louisvillian J.T. Sims did his part, smashing Ricardo Harmsen at number three 6-4, 6-3. Showing the stuff that made him one of the most highly sought tennis players in the nation two years ago, Sims easily beat an erratic Harmsen.

THE MATCH that probably broke UK's back was when

Randy Edmiston, considered the Wildcat's ace in the hold, lost a heartbreaker to Bobby Hagerman 3-6, 7-6, 7-6. Though both players were experiencing frustrating afternoons, Edmiston led 4-2 in the tiebreaker in the third set, only to lose 4-5.

In the other singles, Johnny Foster battered UK's Glen Booth 6-2, 6-4 and Chet Algood thrashed LSU's Robert Rouse 6-2, 6-0, in the shortest match of the day.

Though the Wildcats still had a chance at this point, the Bayou Bengals were not to be denied.

Creekmore and Sims toppled Smith and Gilliam in number one doubles 6-7, 6-2, 6-4. Fierce net play plus many well-placed shots by both teams dominated the match.

SMITH, playing like a demon, put on a one man show, smashing shot after shot back at LSU but Sims and Creekmore proved too much in the end.

GARY FAIRMAN and Edmiston were beaten by Albertine and McGehee 7-6, 6-3 and Harmsen and Algood lost a tight match, 6-4, 7-6 to Foster and Rouse at number three. UK's number three doubles team was handicapped in their match by poor team play.

Coach W.T. "Dub" Robinson's team, obviously no pushover for UK, crushed Auburn and Mississippi State 8-1 and 9-0 earlier this year, and barely

missed beating conference power Florida 4-5. LSU's future should be bright as their lineup consists of three juniors, three sophomores and one freshman.

Saturday morning's match against Mississippi was also played indoors, at 6:30 a.m., due to weather conditions and the indoor center's availability.

LATER THAT morning (over the telephone) UK coach Graddy Johnson indicated the Wildcats started off sleepily against the Bulldogs but picked their play up considerably thereafter.

Smith who is, according to Johnson, "really picking up," beat State's number one player German Cuberos 2-6, 6-3, 6-4.

Gilliam and Harmsen, playing number two and three singles, both won sets 7-6 after falling behind in the tie breakers 2-4 and 3-4.

GILLIAM captured a 7-6, 6-3 victory over Gopie Krishna Nanna and Harmsen struggled to a 6-4, 7-6 win over Anders Mellquist.

The other three singles came rather easily. Edmiston blanked Eduardo Copetu 6-0, 6-0, Fairman took a 6-2, 6-2 win over Allen Rannels, and Algood picked Bill Hockwalt apart 6-3, 6-3.

ALGOOD, with a 13-3 record, has now won 11 matches in a row.

Mississippi State is now 9-11 while UK upped their record to 13-4.

University Senate adopts part of Krislov tenure report

Continued from page 1

Bruce Westley, journalism department chairman and president of the UK chapter of the American Association of University Professors (AAUP), opposed the amendment.

"By allowing the faculty member to change his mind, I question whether the national intent (of AAUP) is being satisfied," he said.

UNDER GUIDELINES of another amendment which was passed, the committee of all committee chairmen will study the feasibility of the review function and report to the Senate.

The second Krislov Report recommendation passed almost unanimously with only a few negative votes. The proposal, complete with several amendments, provides faculty files on tenure and promotion of faculty members be kept by the department chairman and individual faculty members.

Five guidelines regulating those files were included in the original recommendation. As the

proposal passed Monday, the file shall be available to the faculty member, except for letters of recommendation and written judgments obtained under conditions of confidentiality.

AN AMENDMENT offered by Westley and Leonard Tipton, journalism professor, was also passed. Similar amendments were presented on most of the recommendations by the two, making actions mandatory rather than optional.

"We're not doing anybody any good by saying it would be nice to do this or do that," Westley said. "I think we ought to state what is required, not what would be jolly nice of them to do."

THE OTHER two committee recommendations which passed Monday were:

—A stipulation that the department chairman provide each new faculty member with, or access to, a copy of the University Governing Regulations, Administrative Regulations, University Senate

rules, the individual's college rules, departmental rules and the Student code of Rights and Responsibilities.

—Four specific guidelines pertaining to performance review and tenure. Provisions of that recommendation include: 1) Informing the new faculty member of tenure standards and prospects by the department chairman; 2) An individual hired with the prospects of becoming a tenured faculty member shall be assigned duties commensurate with making progress toward meeting tenure requirements; 3) The annual performance review of non-tenured faculty shall include discussion with the department chairman of the individual's progress toward tenure in terms of the departmental expectations; 4) The department chairman shall consult with tenured members of the faculty concerning the individual's progress toward achieving tenure.

The four recommendations will now be sent to President Otis A. Singletary for consideration and will eventually be forwarded to the Board of Trustees.

Announcement of Registration Procedure for Fall Semester 1974 and for Summer Terms of 1974

Registration for Fall 1974 and Summer 1974

All currently enrolled students must register during this period if they plan to attend the Fall 1974 or any of the 1974 Summer Terms. There will be no other opportunity to register.

Dates:

April 15 - April 19

A - L

April 22 - April 26

M - Z

Who Should Register

Currently enrolled students, including part-time and non-degree students, and any student who was officially enrolled in spring semester but withdrew before the end of the semester.

Who Should Not Register

- Transient student.
- Students in Medicine or Dentistry.
- Students who will enter Pharmacy for the first time.
- Students who will enroll in classes in Evening School only.
- Students who will enter Graduate School for the first time. (Except currently enrolled UK students.)
- Any student whose 1974 spring schedule was cancelled

Procedure For Registration

- Go to your Dean's office for instructions.
- See your adviser.
- Fill out college schedule cards.
- Fill out IBM's schedule cards and return them to your academic Dean's office. You must use the STANDARD DEPARTMENTAL ABBREVIATIONS which appear in the schedule book. You are not registered if you omit this final step.
- Complete major change card.

Miscellaneous Registration Information

Changing Colleges

go to the Dean of the college of your current enrollment to receive instructions as to the proper procedure for making the college change.

Delinquent Students

any student who is delinquent to any unit of the University will not be permitted to register until the delinquency is resolved. This must be done during the April 15-26 registration.

Evening School Classes

you may register for Evening School classes if you are a day student. Evening classes are listed in the schedule book.

1974 Summer and Fall Terms Confirmation of Schedules and Fee Payments for

Currently enrolled students who register for either one or both of the Summer Terms and - or the Fall 1974 Semester will not report to the Coliseum for registration or confirmation of registration. Each student will receive by mail, prior to term(s) semester for which he registered, a copy of his official schedule along with instructions concerning the completion of the registration process and fee payment. Students will report directly to the classes listed on their official schedule. Any necessary changes in schedules must be made through the Drop-Add process.
