RECEIVED JUN 9 1955

Works Managers:

You will find attached a recapitulation of the suggestion plan activity indexes for the month of April. It should be noted that, being based on the first month of the plan's operation, the figures reported should not be accepted as representative of what the company's experience would normally be. We do not believe it reasonable to expect that such figures will be reported until some time this fall, after the plan has been in operation for several months.

Nevertheless, you will doubtless find the attached report of interest for comparative purposes. Likewise, you may find the "Cash Awards Made" figures useful in promoting the plan.

Please call this report to the attention of those in your organization who are concerned.

E.H. Reed
Manager

cc: Award Board Chairmen
