

Jan. 13, 1919.

Fairbanks, Morse & Co.,  
347 West Fourth Street,  
Cincinnati, Ohio.

Gentlemen:

We are contemplating the installation of a scale for our mines and I would be pleased to have you send me blue print with any other data you have showing construction of this scale. Our conditions are 44" gauge track, mine car 12' over all, wheel center of car 30 inches. We will weigh these cars while in motion so that the scale will have to be long enough to allow for operation of quick weighing dial.

Yours very truly,

WISCONSIN STEEL COMPANY
