

MR. T. E. CAMBRIDGE

January 2, 1922.

Industrial Accident,

SAFETY CONTEST.

Relative to the computing of the lost time so far as the safety contest is concerned in the case of accidents occurring near the close of the year and the extent of the disability or lost time is now now known, what shall we do? Shall we show only the hours lost during the year or shall we estimate the possible lost time? We have a few cases that come within this class and cannot finish our report until this point is settled.
