Dear brother Hiram.

Your letter of the 13th inst. I received a couple days ago. I have written a letter to Von Hees, stating my views. I certainly pretend that we have claim to the town bounty. I do not consider that I have bargained our credit for the county bounty at all. We had all ordered our names to be registered for Lisleland before I ever wrote to him, and I did not mention the town bounty because I was not aware that there was any appropriated. nor am I aware that my mentioning it, or not mentioning it
