

Univ. Senate, May 28, 1926

and practice of progressive selection and motivation of good students.

1. Independent Work Courses The present plan of Independent Work courses is recommended for a general support and practice in the College of Arts and Sciences. It should be kept before the attention of the students and uniformly made to consist of special assignments for study, conference, reports and term papers of some sustained effort. A copy of the required term paper is to be filed with the Dean of the College.

2. Special Honors Courses It is recommended that departments be authorized to designate certain courses as "special honors courses" for which upper-division students are selected by the departmental faculty on the basis, not of their general standing, but of their particular excellence in the department selecting them. Any upper-division course may be made a special honors course for the year, upon approval of the Honors Committee.

3. Honors Courses Courses in Independent Work and Special Honors courses shall be known as Honors Courses.

Honors Courses are defined by their larger scope, wider content, advanced point of view and by a more rigorous demand of reading, writing and thinking.

4. A department may recommend to the Arts faculty, through the Honors Committee, for special commencement honors in that department, any student who has completed a minimum of 12 credits of honors courses in such department, and who passes satisfactorily a comprehensive oral examination in the field of these Honors Courses. This examination is to be held by the departmental faculty.

MINUTES OF THE UNIVERSITY SENATE NOVEMBER 8, 1926

The University Senate met in the Little Theatre November 8, President McVey presiding.

The minutes of May 28 were read and approved.

Professors George Roberts and W. S. Webb were elected to represent the University Senate on the University Council for the coming year.

The following recommendation from the Rules Committee was approved:

"The Committee on Rules recommends that our admission requirements be slightly changed to permit a maximum of four units in the History and Civics Group instead of three and one-half units, and to permit the offering of one unit in Civics instead of one-half unit. This change is to meet the demands of the high schools and to more nearly conform to what other universities are doing."

The

University Senate November 8, 1926

The Senate approved the following recommendation from the Faculty of the College of Law:

"Resolved: The degree of Bachelor of Laws is awarded to students who, in addition to satisfying the admission requirements to the College of Law, have completed all the required subjects, making a total of 80 semester credits. This resolution shall become effective with the class of 1929!"

The following recommendations from the Extension Department were approved:

"To Members of the University Senate:

For the purpose of getting more definite regulations regarding extension work at the University of Kentucky, the following recommendations will be made to the University Senate at its next meeting.

1. That not more than twelve semester credits of extension work done by a student during one calendar year will be accepted by the University of Kentucky, unless it may be definitely shown that such work has been done under conditions where the student has been engaged in full time study and has not been otherwise employed. This includes extension work done in other institutions.
2. That students having senior classification at the University of Kentucky are limited to twelve semester credits of extension work during the senior year.
3. That a student having senior classification and lacking twelve semester credits or less of graduation, may not offer more than six of the last twelve credits by extension.
4. That students may not satisfy in excess of one-half the requirements for a major by extension courses.
5. That credit in extension classes must be based on an hour for hour plan as in residence, and that extension classes must conform as nearly as practicable to the semester organization of the Institution.
6. That correspondence courses require a formal examination or other suitable test properly administered before credit can be given.
7. That such of these regulations as are not already in force go into effect February 1, 1927, in order to enable the Department of University Extension to give proper notice to students. (This refers particularly to items 1, 2, 3, 4.)

It is considered unnecessary to present any argument on these proposals. They represent merely a good faith attempt to maintain proper standards in extension work.

Respectfully submitted

Wellington Patrick, Director Dept. University Extension "

Univ. Senate November 8, 1926

Senate approved the following recommendations of the University Council for new organizations:

The 4H Club

Group to petition Beta Gamma Sigma--national honorary scholarship fraternity in commerce.

The following recommendations from the Committee on Courses of Study were approved:

- ↓ Zoology-106. Embryology. Four credits.
- ↓ Political Science 201a. Special Problems in Political Science. Two credits.
- ↓ Political Science 201b. Special Problems in Political Science. Continuation of Political Science 201a. Two hours per week. Two credits.
- ↓ Political Science 178a. Independent Work. This is an honors course designed primarily for seniors who are working for honors in that department. One credit. Consent of t
- ↓ Political Science 178b. Independent Work. A continuation of 178a. One credit.
- ↓ English 140. English Literature from the Restoration to the Death of Pope. Two hours a week. Two credits.

Change-

- ↓ Metallurgy 5 to 105 - Advanced Metallurgy of Iron and Steel Lectures, recitations and problems 5 hours a week. First half of second semester.
- ↓ Metallurgy 13 to 113 - Heat Treatment and Pyrometry Laboratory 4 hours a week. First half of second semester
- ↓ Metallurgy 14 to 114 - Metallurgical Calculations - Lectures, recitations and problems 3 hours a week. First semester.

Following courses recommended for introduction:

- ↓ Metallurgy 101 - Element of Oil Shale Engineering - Lectures and Quizes 2 hours a week. One semester.
- ↓ Metallurgy 201 - Heat Treatment of Steel Lectures and quizzes-3 hours a week. One semester.
- ↓ Metallurgy 202 - Laboratory Work on the Treatment of Steel Laboratory 8 hours a week. One semester.
- ↓ Metallurgy 203 - Oil Shale Technology - Lectures and recitations 3 hours a week. One semester

Univ Senate--November 8, 1926

- ✓ Metallurgy 204-Laboratory Work in Oil Shale Technology-
Laboratory twelve hours a week. One semester.
- ✓ Mining 201 - Cadastral Engineering
Recitations 2 hours a week, drawing and field work 4 hours a week. First semester.
- ✓ Mining 202 - mine Models - This consists in the making of glass models of underground metal mines. Recitations 1 hour a week. Second semester.
- ✓ Mining 203 - Mine Organization and Operation. There are recitations 3 hours a week. Second semester.
- ✓ Mining 204 - An Advanced Course in Mine Ventilation.
Recitation 2 hours a week, design 4 hours a week. First semester.
- ✓ Mining 205 - An Advanced Course in Non-Metallic Mining.
Recitations 3 hours a week, design 6 hours a week. First semester.
- ✓ Mining 206- Explosive Engineering-
Recitation 2 hours a week. Second semester.

Engineering Mechanice 10 has been dropped from the course of study for the degree, Bachelor of Science in Mechanical Engineering.

It was voted that members of the R. O. T. C. be dismissed from classes at 9:30 A. M., November 11, and ordered to report to the Military Department. Also that other students were to be dismissed from classed from 10 A. M. to 1 P. M.
