Danville, Maysville, Newport, Tompkinsville, Victors In Top Bracket

FEW UPSETS OCCUR IN FIRST SESSIONS

Mt. Sterling, Xavier, Calvert City, Ine Win In Lower Division

By Joseph W. Quinn

Five of the pre-tourney favorites entered the quarter-final round of the annual state high school basketball tournament...

As a result of their victories, today's paring round Danville and Tompkinsville, Newport, Maysville, Mt. Sterling, and St. Xavier...

Easy For Calvert City

Calvert City, champions of the first round, had little trouble in defeating Bardonia by a score of 44-28 in the second night battle.

There will be a meeting of the German club in Room 204 of the Administration building tonight.

Tuberculosis tests will be given today and Tuesday from 1 to 5 at the University dispensary.

There will be a dinner meeting of the University tennis team at the Teacup Inn at 4 p. m. today.

There will be a meeting of the James Kennedy Anderson Literary Club at 7:30 p. m. Monday in the regular meeting room in McVey Hall.

There will be an important meeting of the sub-committee of Pan-Politian, Tuesday at 4 p. m. on the third floor of White Hall.

Major Brewer, Commandant of ROTC Unit, Asks for Support of Students and Citizens

DR. FRANK L. McVEY SIGNS APPLICATION

Governor Laffoon Will Write Letter to Be Included in Application

Major B. E. Brewer, commandant of the University R. O. T. C. unit, announced yesterday that possibilities of obtaining a Cavalry unit at the University from the War Department are excellent...

The proposed Cavalry unit would enable courses in equestrian for students in England during a recent leave of absence from the University, some in North Carolina, while others were completed in Italy.

U. K. EXECUTIVES HOLD MEETING

Committee Approves Campus Improvements and Also Grants Leaves of Absence

Dances to Be Held Every Other Week

Club Will Observe St. Patrick's Day

Program Will Feature Irish Observance of the Patron

A special St. Patrick's day breakfast program will be held by the Catholic club of the University at the Lafayette Hotel, at 10:30 a. m. Sunday. A program especially featuring the patron Saint of Ireland has been arranged by Robert M. Vanecko, president of the organization.

Thomas Mooney, prominent Lexington, formerly with the University of Kentucky, is the principal speaker and Father George O'Bryan, chaplain of the club will be in charge of the service.

All members of the club are requested to attend and are invited to bring their friends if they so desire. There will be a charge of 25 cents per plate for both members and guests.

KENTUCKY BLUEGRASS THRIVES IN FOREIGN FIELDS OF HAWAII

Kentucky bluegrass occupies a wide belt around Maui, far-away in the highest island north of Hawaii, the highest island north of Hawaii, has been planted on Parker Ranch, which is situated on a 32,000-acre tract of pure-blood Hereford cattle grade and where every cow has a Kentucky thoroughbred.

Samuel Wilder King, Delegate to Congress from Hawaii, far-away territory which is now knocking for admission into the Union as a state, explains the transplanting of the bluegrass to this tropical paradise. This most perfect of ranches, he says, runs from the seashore for 30 miles up the mountain to an elevation of 7,500 feet, and so presents varying climates.

Mr. King's conclusion was that all over the world and planted at the levels that suit them. Five thousand feet up the mountain conditions are like Kentucky. Here the bluegrass thrives.

Mr. King's father founded this ranch in 1815 and 45 years ago, still owned by his descendants, it passed under scientific management. Since then none but registered bulls, many of them from Kentucky, have been raised on this range. At the same time Kentucky thoroughbred horses were introduced here and are now bred there.

Year after year the best of Kentucky stallions has been bought and sent to Hawaii. It has been no uncommon thing for the Parker Ranch to pay \$50,000 for a single stallion. Today there are 2,000 horses in the herd, great numbers of which are entitled to registry as thoroughbreds. The result is that the cowboys on Parker Ranch use thoroughbreds as cowponies, there being no other horses available.

Art Exhibition of Edward Fisk Now Showing

Studies Cover a Wide Range of Mediums and Colors

An exhibit of paintings, water colors, monotypes, pastels, prints, and drawings by Edward Fisk, assistant professor of the Department of Art at the University, was displayed Wednesday at the Art Center of the University...

The pictures made a sparkling display in the gallery which was formally opened with a tea given by Mr. and Mrs. Fisk at the Art Center for a number of friends.

The proposed Cavalry unit would enable courses in equestrian for students in England during a recent leave of absence from the University, some in North Carolina, while others were completed in Italy.

SOCIETY

WILLIE HUGHES SMITH, Editor Phone Ash. 3851-X

Today, March 15:
 Dulich Lunch club, noon, Patterson hall.
 Phi Sigma Kappa banquet, 6:30 p. m., Administration building.
Saturday, March 16:
 Alpha Delta Theta Tea dance, 4 to 6 p. m., Patterson hall.
 W. A. A. play day, University of Cincinnati, 1:30 p. m.
 Delta Delta Delta Founders' Day banquet, 3:30 p. m., Lafayette hotel.
 Phi Delta Phi initiation banquet, 2:30 p. m., Lafayette hotel.
Sunday, March 17:
 Vesper program, 4 p. m., Memorial hall.

Founders' Day
 Phi Delta Phi Sigma Kappa will celebrate the 63rd anniversary of the founding of the fraternity with a 2000 Day banquet at 8 p. m. tonight at the chapter house on East Maxwell street.
 Mr. Charles Milliken, Louisville, an alumnus of the class of '72, will be the chief speaker, and many other alumni are expected to be present.

Surprise Party
 The members and friends of the German club will meet tonight at 7:30 o'clock at the Administration building, to enjoy a party, the details of which are being planned.
 The committee in charge of arrangements has announced that the program of entertainment is most interesting and all are urged to attend.

Sigma Chi Election
 Lambda Chi Chapter of Sigma Chi announces the election of the following officers: Messrs. Elvin Stahr, president; Bill Henderson, vice-president; Robert Forsythe, secretary; William Boland, treasurer; Wintry Buntion, corresponding secretary; Cliff Collins, editor; Charles Ryan, historian; Jeff Baynham, pledge master; Fred Flowers, kudos; Eugene Prockman, kudos man; Richard Butler, rush captain; and Charles Bringardner, intramural director.

Zeta Tau Alpha Initiation
 Zeta Tau Alpha held initiation Saturday afternoon for the following: Misses Marjorie Gallaher, Cleveland, Ohio; Verna Glasgow, Martin, Tenn.; and Gladys Golden, Lexington.

Following the ceremony, the new initiates were entertained at a dinner at the Kentuckian hotel. The sorority colors, steel gray and turquoise blue, were carried out in the decorations.

Alpha Gamma Rho
 Omicron of Alpha Gamma Rho announces the initiation of the following: Messrs. John Bell, Paris; Eugene Warner, Henderson; James Simmons, Russellville; J. C. Bray, Bedford; Donald Rash, Winchester; Leon McCracky, Burgin; and Hugh Bernard, Ida, La.
 The initiation was followed by a banquet at the Tescup Inn.

Phi Beta Officers
 Kappa of Phi Beta, national music and dramatic fraternity, announces the election of the following new officers: Misses Virginia Murrell, president; Virginia Robinson, vice-president; Frances Kern, secretary; Eva Mae Nunneley, treasurer; and Martha Pugett, historian.
 The election was held Monday following the formal pledging of ten new girls: Misses Alvena Connell, Ruth Ector, Frances Garity, Susan, Martha Sue Durham, Mary Frances McLean, Betty Woodson, Margaret Whaley, Marjorie Jenkins, Dorothy Murrell, and Virginia Thorpe.

A. A. U. W. Tea
 Senior women of the University and Transylvania college were guests of honor at a tea given Tuesday afternoon at Maxwell Place.

Mrs. Frank L. McVey and Mrs. Frank Murray, president of the association, received the guests, and Mrs. Preston Johnston introduced the speaker, Miss Grace Ruthenberg, Louisville, who read several of her own plays.
 Following the program, tea was served with Dr. Elizabeth LeStourgeon, Miss Margaret Horsefield, Mrs. Winona Jones, and Mrs. Karl Wilkin presiding at the tea tables.

Omega of Pi Kappa Alpha
 announces the initiation of Tom Parry, Georgetown; Emerson Salisbury, Charleston, W. Va.; Tom Richard Taylor, Morganfield; Robert Gills, Lexington; Henry Warren, Berea; John Shropshire, Huntington, W. Va.; John West, Erlanger; and James Seltzer, Savannah, Ga.

FRATERNITY ROW
 Triangles announces the pledging of Loula Clinton Nelson, Pine Grove, Ky., and Milford A. Niles, Preppert, N. Y.

James E. Dalton spent the weekend in Sturgis, Ky.
 Henry Clay chapter of Phi Alpha Delta announces the pledging of B. Truett Miller, Stamping Ground, Ky.

Phi Alpha Delta held its bi-monthly meeting Tuesday in the club room of the Law college.

Mr. George Vogel, Louisville, is visiting at the Alpha Sigma Phi house.
 Beta Nu of Kappa Sigma an-

ounces the initiation of Messrs. Frank Gaines, Dawson Springs, and J. Randolph Rash, Henderson.
 Dinner guests Sunday at the Kappa Sigma house were Mrs. J. R. Rash and Miss Elaine Lambert, Henderson; Miss Dorothy Hinklebein, Louisville; and Mr. and Mrs. Robert Watts.

State Will Open A New Laboratory In Norwood Hall
 Opening of a new petroleum reclamation laboratory by the state Department of Mines and Minerals in the basement of Norwood hall was announced today by Newell M. Wilder, assistant state geologist.

It has become necessary, in recent years to reclaim the old oil fields of this state that have ceased to produce, due to lack of gas or air pressure necessary to force the oil to the surface. These fields are being reclaimed by a process called "repressuring," in which the original conditions of gas or air pressure are restored to the non-productive wells. Before the "repressuring" can be done, elaborate laboratory tests must be made of the oil content, porosity, and permeability of the sand from the old field, and it is in this new, modernly equipped laboratory that the state experts will make their tests.

The actual laboratory work will get under way on March 19th, at which time the oil operators of the state will meet at the University to discuss the work.

PLAN GOTHIC ALTAR
 The worship group of the YWCA is planning to construct a Gothic chapel on the third floor of the Woman's building, featuring stained glass windows, pointed arches and a small altar. Meeting every Monday afternoon at 3 p. m. the group under the leadership of Martha Pugett is formulating plans for the project.

GROUP ENTERTAINS
 The Social Service group of the Y. W. C. A. entertained the children of the Junior League Day Nursery with a St. Patrick's Day party from 3 to 5 p. m. Wednesday, March 13. Miss Mary Chick, chairman of the group, was in charge of the party, assisted by group members and visitors to the Nursery.

It would take 503 years for one person to complete all the courses now being offered by Yale University (New Haven, Conn.).

Mrs. Eleanor Wallace, Mrs. Eawson Williams, Miss Betty Price, all of Paris; Miss Henrietta Sherwood, Frankfort; and Mrs. Miles Hardin, Somerset, were guests at the Alpha Gamma Delta house Thursday in order to attend initiation and the banquet following.

Miss Lillian Smith will spend the week-end in Middlesboro.
 Miss Frances Little, Newport, was a dinner guest recently of Mary King Koger.

Miss Louise Ewing was a recent visitor to Louisville at the guest of Mrs. Edward Grubbs.

Jack Dalton has returned from Nashville, Tenn.
 Dr. J. L. Richardson, Ashland, was a visitor Tuesday at the Lambda Chi Alpha house.
 Guests last week-end at the Alpha Gamma Rho house were Messrs. Henry Guisenberry, Vanceburg; French Smoot, Mayville; Ralph Broadbent, Caddis; and J. L. Paddock, Paintsville.

State Will Open A New Laboratory In Norwood Hall

Opening of a new petroleum reclamation laboratory by the state Department of Mines and Minerals in the basement of Norwood hall was announced today by Newell M. Wilder, assistant state geologist.

It has become necessary, in recent years to reclaim the old oil fields of this state that have ceased to produce, due to lack of gas or air pressure necessary to force the oil to the surface. These fields are being reclaimed by a process called "repressuring," in which the original conditions of gas or air pressure are restored to the non-productive wells. Before the "repressuring" can be done, elaborate laboratory tests must be made of the oil content, porosity, and permeability of the sand from the old field, and it is in this new, modernly equipped laboratory that the state experts will make their tests.

The actual laboratory work will get under way on March 19th, at which time the oil operators of the state will meet at the University to discuss the work.

Mrs. Eleanor Wallace, Mrs. Eawson Williams, Miss Betty Price, all of Paris; Miss Henrietta Sherwood, Frankfort; and Mrs. Miles Hardin, Somerset, were guests at the Alpha Gamma Delta house Thursday in order to attend initiation and the banquet following.

Miss Lillian Smith will spend the week-end in Middlesboro.
 Miss Frances Little, Newport, was a dinner guest recently of Mary King Koger.

Miss Louise Ewing was a recent visitor to Louisville at the guest of Mrs. Edward Grubbs.

discuss the work. The principal speaker at this meeting will be Mr. C. C. Hogg, petroleum engineer who has had success in "repressuring" the old fields of Pennsylvania.
 Mr. D. J. Jones, state geologist, will be in charge of the new laboratory, and Newell M. Wilder, assistant state geologist will be in charge of the laboratory operations.
 J. P. Daniels, chief of the state Department of Mines and Minerals, extends an invitation to all University students and faculty members to inspect the new laboratory on Tuesday and Wednesday, March 12th and 13th.

PLAN GOTHIC ALTAR
 The worship group of the YWCA is planning to construct a Gothic chapel on the third floor of the Woman's building, featuring stained glass windows, pointed arches and a small altar. Meeting every Monday afternoon at 3 p. m. the group under the leadership of Martha Pugett is formulating plans for the project.

It would take 503 years for one person to complete all the courses now being offered by Yale University (New Haven, Conn.).

SHOP SIGHTS

By MARY REES LAND

Lexington's foremost stylist, Miss Helen King, says on reviewing the past Fashion Week:
 "There is no doubt about it, women go to extremes in clothes—if they didn't they wouldn't be truly feminine."
 "The new spring silhouette certainly varies with the occasion. For sports the "bookies" tailored suits, with strictly tailored coats and clever button-down-front skirts, are as mannish as anything, while the silhouette for other occasions is strictly feminine."
 "A top coat for early spring days will go very well over your knitted suit, or your tailleur, or your silk print."
 "Blue is expressed in suits, coats, frocks, and accessories, with store after store exhibiting footwear fashions in navy blue. Fashion may have the blues this spring, but components of the latest vogues are anything but depressed—for without a doubt this is the gayest season in my memory."
 The shirtwaist frock has been glorified and now appears at every hour from morning through the evening. Denton used this fashion fidee as the theme of their style

revue Monday. Coats and suits, stressing those for active sports wear, and day, afternoon, and evening dresses were shown.

The event of the evening was a wedding party outfit. Margie Crowe, who was selected last year as the best dressed girl on our campus, modeled the bride's gown. It was of ivory satin with a lace yoke, full-length fitted sleeves and a real, real long train. The maid of honor dress was of peach tulle and had a ruffled cape whose width was accented by a ruffle at the hemline of the frock. Two bridesmaids followed wearing blue net over satin slips. The skirt of each dress had tiers of ruffles which came up to an inverted V at the low back. These also had capes of ruffles.

Wolf Wile's Campus Hat Shop has ribbon Bretons in numerous spring shades so that you will be able to top your new frock with a matching or a contrasting color scheme. One was a jade green with an encircling ribbon of brown and a high party bow in the back. For a different mood there is a demure black sisk with a white velvet bow on the crown and a white bandeau. Quilted taffeta berets help fill in the gap between felt and

straw. Something new in the way of material is a Breton of sodephone with a straw cloth band and a small white curled feather.

TWO GRADES VISIT CAMPUS

H. F. Day, Lexington, who received his B. S. in Mechanical Engineering in 1929, and who is now working in the electrical engineering department of the R. J. Reynolds Tobacco Company, Winston-Salem, N. C., visited the campus the first of the week. Melvin Nichols, graduated in 1925, in Civil Engineering in 1928, and who is now doing electrical sales work in Colorado, was also here.

Building Plans May Be Realized Soon

(Continued from Page One) verity within twenty years. Alpha Delta Sigma, honorary advertising fraternity, is publishing a bulletin explaining what the building is and what it will mean to the students of the University. They maintain that every student of the University must cooperate in order that the work on the building may be started at once, and possibly be completed for the school year of 1935-36.

Hugh Merriweather, Lexington architect, and a representative of the faculty of the engineering college, has drawn up plans for the proposed building. The plan calls for two large tea rooms, in which private organizations may hold meetings and social gatherings. The tea rooms may be transformed into one large dance hall when the need arises. This dance hall will fit the needs of the students, as the interference of basketball games will not hinder the spring dances, and the Woman's building will no longer be used for the Independent dances, which are usually attended by more students than the building will allow.

A swimming pool is to comprise the basement of the Student Union building. Through the building the University will be able to cooperate with other colleges in spring swimming events. Ping-pong tables, lounges, and a cafeteria are planned. The offices of the Kentucky Kernel and the Kentuckian are to be located in the proposed building. This will enable a more effective organization of these publications, since they will be able to maintain their much desired privacy, which has been impossible in their present location.

With funds scoring 16 points, Danville easily outclassed Kirksby by the score of 33-19 in the opening game of the tournament. The Admirals started off with a bang and held the lead throughout the game. Danville presented a smooth work-

Cavalry Unit May Be Organized Here

(Continued from Page One) tary courses would be of great value to the University, as a "show unit" similar to the famous Black Horse Troop at Culver could be developed, and a rather large output of money by the government would be made here in the installation and upkeep of stables, horses and equipment. In addition, a polo team would probably be organized which would represent the University in intercollegiate matches.

Only one school in the South-eastern Conference at present has a cavalry unit, that being the University of Georgia. However, several others have such units as field artillery, engineers corps, medical corps, coast artillery, and in some of the Big Ten schools there are such branches of training as aviation, signal corps, dental corps, and ordnance. Kentucky, which has never had anything but infantry training, is well able to support another unit. Major Brewer said, and there is a definite need for it in this state, as there is a national guard cavalry unit in Lexington and a regiment of the 64th Cavalry Reserve at Louisville, but there is no source of officers for either. Major Brewer has been working on the matter for over six months in an active way, and is hopeful that the students and civilians of this section will support him in obtaining a cavalry unit for the University.

Swiss Scholar Will Speak Here Soon

(Continued from Page One) versity Commons at 6:30 o'clock next Thursday night. His general subject will be "The World's Campaign," which will be illustrated by slides and pictures showing Geneva, the League of Nations, and other international organizations at work.

The lecturer is one of Geneva's distinguished citizens, having served his native city in Switzerland in many capacities, taking an active part in its artistic and political life. He is a former president of the "Societe des Arts" of Geneva, and is president of the "Bureau Central de Bienfaisance" of Geneva. He was appointed a representative of the University of Geneva on a mission to American universities in 1933, and also is honorary treasurer of the World Alliance for International friendship through the churches.

M. Fatio is the author of numerous historical and artistic works, and at the present time is preparing a work entitled "Geneva and Great Britain."

Favorites Win In First Round Tilts

(Continued from Page One) The Bardonia were entirely outclassed and could not stop the scoring of the boys from the Purchase. Byron, with 12 points, Hurley with 11, and Oakley with 10 led the scorers for Calvert City; while Carr and Garlye were outstanding for the Bardonia five.

Best Battle of the Day In what was probably the hardest fought melee of the entire day's play, Inez outlasted a polished Central City quintet to win the final battle of the evening by a 20-15 count.

The play was slow and cautious throughout, with the issue in doubt up until the final minutes, when the boys from the Big Sandy gradually drew away. The winner led at the half by eight to five; but Central City tied it up as the third period ended 10-10. Ward was best for the victors and Wilkins led the Central City scorers with six points.

Danville Wins Easily With Candor scoring 16 points, Danville easily outclassed Kirksby by the score of 33-19 in the opening game of the tournament. The Admirals started off with a bang and held the lead throughout the game. Danville presented a smooth work-

outfit that shows promise of advancing far in the tourney. They worked the ball in under the basket for their shots, rarely, if ever, taking a long shot. Kirksby failed to penetrate the air-tight zone defense set up by the Boy's Councilians. Love played an excellent game for Danville, scoring eight points. In Bazell, captain of the Kirksby team, the Western Kentucky outfit had a fine ball player. McCusison and Wastner scored five points each for the losers.

Tompkinsville Triumphs Possessing a great height advantage and ability to hit crisp shots, Tompkinsville won their game with Annville 24-19. Annville, representing the 13th Region, relied on long shots, and missed many chances to score had they worked the ball in under the basket. Davidson, with three personal fouls marked against him in the early part of the first half, played a great game the remainder of the time, both on offense and defense. He scored six points, while Land registered seven for Annville.

Newport Wins Close One One of the best games of the afternoon was the one between Frankfort and Newport, with Newport the victors by a 30-20 count. Frankfort got off a good start but faltered in the closing minutes of the first half and Newport held a 13-9 advantage at the rest period. After the opening of the second half, Frankfort failed to get in the lead. In Hickey and Portwood, the Panthers possessed two floor men that were as good as any player that participated in the afternoon session.

Newport presented a fast breaking team that slipped under the basket for numerous crisp shots. Ford, forward for the North Kentucky team, scored 12 points, mostly on long shots. Rowe, with 10 points, was second high scorer.

Mayville Wins Tough One The best defensive game of the afternoon was that played between Mayville and Dixon which Mayville won by a count of 15-12. Had

the Dixon boys been able to hit the basket, the result of the game would have been a different story. Time and time again they worked the ball in under the basket only to see the ball glance off the backboard into the hands of a Mayville player.

Tapp and Jones, two of the smallest men to play yesterday afternoon acquitted themselves well, playing good defensive ball. Crowe, with five points, was the high scorer for Dixon.

Atkinson and Nolan, with six and four points, respectively, led the offense of the Mayville outfit.

Mt. Sterling Takes Thriller The closest game of the tournament, so far, was the thriller played yesterday afternoon between Mt. Sterling and Campbellburg, with Mt. Sterling winning by a score of 24-23.

A free throw in the last minute of play by Greene, diminutive forward of the Trojans, was the deciding point. Pooled by Stout in a mad scramble for the ball under the Mt. Sterling basket, this had calmly stepped up to the foul line and with the score tied at 23 to 23 sunk the final and deciding point. Horton was the outstanding star for the Trojans, scoring 13 points. Tahmuel, who was ejected in the last quarter on four personal fouls, was second high scorer, with seven markers.

Brent and Raisor, with seven and nine points respectively, were the high scorers for the Campbellburg team.

ALEY IS DELEGATE

Kenneth G. Aley, Kansas City, Mo., senior in the College of Engineering, will be the official delegate of the University to the annual meeting of the American Society of Mechanical Engineers, to be held March 25-26 at the University of Tennessee.

Mr. Aley, who will preside at one session of the meeting will speak on "Modern Trends in Furnace Fan Heating for Large Buildings."

Approximately fourteen students From 1802 to June, 1834, 10,183 cadets have been graduated from the United States Military Academy (West Point, N. Y.)

We are ALWAYS OPEN, and ready to give -- QUALITY FLAVOR SERVICE VARIETY THE WHITE SPOT

Introducing... Jockey Shorts and Shirts for Men. Designed by Cuprum to afford the utmost in comfort for work, play or dress. A mild support. A new ideal it's daring! It's sensible priced at 50c a Garment. EXCLUSIVE WITH GRAVES, COX. GRAVES, COX AND COMPANY, INC. Established 1888

WE ASKED LEADERS IN WINTER SPORTS:

"Is this fact important to you?" Camels are made from finer, more expensive tobaccos - Turkish and Domestic - than any other popular brand. (Signed) R. J. REYNOLDS TOBACCO COMPANY Winston-Salem, North Carolina. ENERGY! "Camel's energizing effect is a great thing for one who is active." says Paul Thompson, of the world-champion Chicago Black Hawks hockey team. "When tired, there's one thing I want—a Camel!" HEALTHY NERVES! Says Ray Stevens, North American Bob-Sled Champion: "When the last heat has been run, I light a Camel and enjoy it to the full, knowing that Camels never bother my nerves!" FLAVOR! Jack Shea, Olympic Speed Skater: "Camels taste so good that with me Camels get the nod every time. When people mention my being a cigarette smoker, I correct them and say, 'I'm a Camel smoker.'" MILDNESS! Betty Chase, expert skater, says: "Camels are so mild and appealing! And smoking Camels steadily never tells on my nerves. To me, it's a very important fact that Camels use finer tobaccos." VALUE! "I'm just an interested winter sports fan," says Edward Kent. "But I'm with Jack Shea and Ray Stevens when it comes to smoking Camels! I get a lift with a Camel when I'm low and need cheering up, or when I'm tired. And the fact that tobacco of a choicer quality are used in Camels goes far to explain why Camels are so mild and pleasing, and never irritate my nerves. It means a lot to me that millions more are spent for the tobaccos used in Camels."
