THE KENTUCKY KERNEL

Sue Dempsey, a UK Judicial Board member, was one of several students who gathered in the Student Center ballroom Monday night and raised questions before a five-member panel concerning the new student code. Several issues were raised concerning the code including peaceful dissent, civil jurisdiction on campus and the student judicial and appeals boards. The student code forum was sponsored by the UK Civil Liberties Union. Kernel Photo by Dick Ware

Issues of Student Code Questioned at Forum

By MARGARET SHADBURNE Kernel Staff Writer

The issues of peaceful dis-sent, civil jurisdiction on cam-pus, lack of student participa-tion in the drawing up of the stu-dent code, and the Student Ju-dicial and Appeals Boards were principle topics of discussion at last night's Student Code Forum the Student Center Ballroom.

The forum's panel, moderated by Dr. J. W. Patterson of the Speech Department, comprised Bruce Langford of the University Legal Counsel Department; Lexington attorney Tommy Bell, chairman of the Board of Trustees chairman of the Board of Frustees subcommittee which drew up the new student code; Scott Wendels-dorf, second-year law student; Dr. Robert Zumwinkle, vice pres-ident for student affairs; and Jack Hall, dean of students.

Issues Discussed

The five-member panel answered questions concerning the newly revised student code and accepted criticism from among the estimated 750 persons at-tending the open forum. Issues with which students seemed most

▶ Students' freedom of peace-ful assembly and dissent.
After Wendelsdorf's assertion that it is the University's respon-sibility to "allow freedom and maintain order" at campus as-semblies, numerous students questioned Dean Hall about the right of the Administration to

questioned Dean Hall about the right of the Administration to quiet any demonstration.

Hall answered by assuring students it is not his responsibility to declare a demonstration "peaceful or not peaceful, legal or illegal," adding that the decision is left up to the University president.

He stated also that the code is "no attempt on the part of

is "no attempt on the part of the Dean of Students Office to prevent peaceful protest."

Power Of Authorities

The power of civil authori-

Many students objected to section 1.31 of the code, which states that "any student who violates such standards of con-duct is subject to discipline by the institution, regardless of whether or not action is taken against the student by civil au-thorities on account of such vio-

Asked why there was a need for University disciplinary measures in cases where civil authorities are involved, Bell answered, "So you can . . . govern yourselves. You've got to work among yourselves.

Dr. Zumwinkle stated that an important function of the code is important function of the code is
"to protect the University's educational mission and protect
students." He stressed the importance of what he termed selfregulated laws in order to keep
outside authorities off campus.

The right of students to help
write the student code.

write the student code.

Questioned whether he ever asked for students to help write the revised code, Bell answered, "No, sir," but added that all

were open to interested students.
Bell stated also that the code still needs revision, terming the short amount of time used in the preparation of the docu-ment as "ridiculous."

Open Hearing Questio

Open Hearing Questioned

> Students and the Judicial and
Appeals Boards.

> Students questioned the
code's definition of an "open
hearing" of the J-Board (Section
3.319) as "representatives of the
press and four persons invited
by the accused student."

Bell stated that if hearings
were onen to the public, the

were open to the public, the court would become in effect a showplace.

After assuring students that everyone is guaranteed the right to petition for appeal, Bell was asked about Section 6.34, which reads, "In the event of an appeal, the president may increase or decrease the punishment imposed by the Appeals Board."

Decrease Punishment

Bell denied that the word "increase" was written in the original draft of the code, claiming that President Otis Singletary had asked only for the right to decrease punishment.

Lew Colten, a junior from Philadelphia, called the student code "the most repressive un-American document this univer-sity has ever published." He called for the resignation of Bell and other trustees

"If you don't resign," Colten said, "there is no set of rights and responsibilities that will keep these students from marching on this campus"

this campus."

Colten did not elaborate on

any specific protest.

The forum was sponsored by the UK Civil Liberties Union, which will hold another open meeting for discussion of the code at noon, Sept. 23, in the field across from Holmes Hall.

Bright on TV Debate

Agnew Debates Students

NEW YORK (AP)—Vice President Agnew debated four college students on a television talk show Monday night and one called him "one of the greatest precursors of violence our country has ever

Student Government President Steve Bright was among the four student leaders who con-fronted Agnew on the television show which is not carried in either

show which is not carried in either Louisville or Lexington. None of Bright's comments during the show were immedi-ately available although some of the other student's comments

The others who took part in The others who took part in the debate were Gregory Craig, 25, of the Yale law school, Eva Jefferson, 21, of Northwestern University and Richard Silver-man of the University of Wash-

ngton.

Replying to this accusation
by Richard Silverman of the University of Washington calling
Agnew a precursor of violence,
the Vice President said: "To use

me as a bete noire for the vio-lence that has existed in this country because of the disgusting and permissive attitude of the people in command of the col-lege campuses is one of the most ridiculous charges I have ever heard."

In scale to a results of Republican candi-dates.

Agnew countered that his "rhetoric is always called into question" and added he would call his speech "civilized dis-course."

Silverman was one of four youths on the stage with Agnew during the taping of a 90-minute debate on the David Frost Show. The program is to be shown to viewers Friday.

Miss Jefferson told the vice Miss Jefferson told the vice president that he gave the impression to college youths that he thought they were "people from another planet that have been put here to blow up buildings."

"Maybe," she added, "this is your goal—to isolate people."

Agnew said this was not his intent and that he felt "the hope of the country lies with theyoung people."

Craig accused Agnew of "de-faming elected officials and slandering them over the past three weeks" in a campaign swing

In reply to an earlier question about campus unrest, Agnew said: "Student violence is a way of life throughout this world and it was with us long before I be-came a household word."

Kentuckian Editor States Goals; Staff Creates Several New Ideas

Even though the 1970 Kentuckian hasn't returned from the printers, the 1971 yearbook staff is already doing its thing.

Susan Grimsley, 70-71 editor, stated yesterday the purposes the staff hopes to accomplish through the book.

"We're not going to available."

the book.

"We're not going to evade controversial issues that are relevant to a student's life. We hope that years from now, students will be able to look through the book and be able to remember the good times they had," explained Miss Grimsley.

The book will report on campus activities and issues during the school year 1970-71. Miss Grimsley explained that they "will editorialize in justified areas," but that most of the book will "hopefully be a complete and artistically good coverage of events." age of events."

'Senior Supplement'

The staff also is planning a "senior supplement" to appear in May before graduation. This sup-

plement will include senior pictures and coverage of campus events of the past four years. Seniors who have paid their fees will get the supplement in May and the regular book next Sept-ember.

ember.
Staff members are assembling a history of the University by researching the Archives. They are comparing the University in its initial stages to the present.

Another new aspect of the 1970 Kentuckian is individualized 1970 Kentuckian is individualized coverage by participating groups themselves. Any organized group, fraternity or sorority which purchases a page can write its own copy, submit its own pictures or select from the Kentuckian files and plan its pose for the group picture, subject to the editor's approval.

Full Coverage

Full Coverage

Groups who don't buy a page will also have coverage.
"We also want to present pictures in such a manner that others can gain an understanding

Interviews with seniors and freshmen are also a new highlight.

light.

"Our campus is a small part of the world and relates to it nationally. We want to show how our campus deals with present issues such as drug usage, pop festivals, abortion, birth control, racism," the editor said.

Campus coverage will also include football, classroom coverage, beauty queens and so on, she added.

Summing up her goals Miss

she added.

Summing up her goals Miss Grimsley stated, "We want a book that makes the students aware and to remember what goes on whether controversial, entertaining or scholarly."

Yearbook prices and sales won't be determined until bids are received, but Miss Crimsley estimates the regular book will cost around \$5, with the supplement selling for \$3.

'Grad Life'

GPSA Handbook Gives Graduate 'Inside' Look at UK Life Style

The University of Kentucky Graduate and Professional Student Association (GPSA) has published a handbook which is called "A Preliminary Guide to Graduate Life," and designed to aid the graduate student in adjusting to life at the University.

Since the University is an integral part of Lexington and the Blue Grass region, transportation, motels, the interstate roads, Cincinnati and Louisville, all are discussed at some length.

Compiled from informal survey findings among graduate and professional students, the book analyzes entertainment; rates restaurants; compares banks; scrutinizes

uate and professional students, the book analyzes enter-tainment; rates restaurants; compares banks; scrutinizes drug and grocery stores, and advises regarding on-and-off campus housing.

One section is devoted to utilities, and Central Ken-tucky radio stations are noted as playing "country and prehistoric" music. "Night life in Lexington," is termed "misleading" and UK parking is recommended in Hammer-fest Nonvey.

misteacing and Ok parking is recommended in nammer-fest, Norway.

The graduate or professional student, according to the Handbook, is urged to make a lot of friends and to "look forward to a year rich in the warm shared experiences of private partying." Then of course, if all else fails, the local number is listed. dial a prayer

Copies may be obtained from the GPSA office.

A Community on Trial

The arrest of Dr. Phillip Crossen in the aftermath of last weekend's rock music festival is a clear example of the subplanting of justice by the wishes of a repressive community. This incredible arrest must be viewed as the direct result of community pressure on elected officials to purge those who are sympathetic to the young.

Local press coverage and the comments of County Attorney E. Larson King clearly represent the injustice which has been accorded Dr. Crossen. The coverage of the festival and Crossen's association with it was conducted with obvious bias and much fabrication. King's participation was typical of his continuing attempts to rid UK and the Lexington community of anyone he finds personally unacceptable.

Officials used the excuse of inadequate sanitary facilities as a reason to halt the festival. The truth is that Public Health officers approved the festival's food services as well as its trash removal, water and toilet facilities. In addition, the festival's organizers went to great lengths not only to provide adequate facilities but to furnish a wellequipped and well-staffed medical tent.

Much outcry was raised about the damage done by festival participants. However, Dr. Crossen reports negligible damage to his farm and points out that the sponsors of the event made satisfactory reparation to the owner of a garden which was damaged by the crowd.

Another issue of much concern was drug use at Crossen's farm. The local press painted the picture of drug-crazed kids bounding about in the nude and freaking out on the stage by portraying the human body as an airplane. Such incidents were minimal, but the airplane story was completely misrepresented, for the man who engaged in this action was a middle-aged (Crossen describes him as being in his 50's) drunken man.

The promoters of the festival emphasize that their major problem was with those participants who were over thirty years old who drank

The grounds for Crossen's arrest point out the legal weaknesses of the case against him. The three counts of operating a place of entertainment without a license are particularly questionable. If these counts are upheld perhaps the Lexington Police Department should move in on Stoll Field, or more likely, church socials and fraternity parties held for fun or profit.

The other two charges seem nearly as unreasonable, but we can only conjecture about the charge of contributing to the delinquency of minors, for the prosecution has not at this time cited the basis for the charge. If the charge of allowing minors to drink on one's property is upheld, hundreds of Fayette County households could be subject.

All this points to an unreasonable and injust community attitude. There is a strong possibility that Crossen was helping the community which is persecuting him far more than he was harming it. The public's refusal to allow the young to meet for their common pursuit of happiness merely forces the youths to revert to their small, unobservable and potentially dangerous groups. It also re-enforces the basic distrust and hostility many youths feel toward their elders and the community leaders. This point is illustrated by a recent action in Portland, Oregon, where the American Legion held its convention. City officials, fearing youthful protests, organized a rock music festival outside the city to provide an alternative source of entertainment for the young. The tactic worked.

Perhaps those concerned about Dr. Crossen's arrest should not be too upset so soon. Surely our community has not reached such a repressive stage that a man can be prosecuted for actions which injured no one, and actually violated no laws.

The physician's arrest has initiated a case whose outcome will determine the guilt or innocence of a community, not that of Phillip S.

THE KENTUCKY KERNEL

TUESDAY, SEPT. 22, 1970

Editorials represent the opinions of the Editors, not of the University.

Frank S. Coots III, Editor-In-Chief

Kernel Forum: the readers write

Cognitive Welcome

To The Editor:

write to stimulate thought on subject that is often overlooked, but which deserves a high priority. As freshmen you have been thrust into an unfamiliar environment with the corresponding anxieties, problems and normlessness. You will be forced to face situations in which decisions will have to be made where no standards or prior experience exi Whatever your attitude, cliche or no, next few years are the most crucial, for during these you will determine remaining life style.

You are beginning an unparalleled opportunity to ponder and analyze the how and why of life and establish a relation-ship to life to determine where, and even if you belong in our shaky society. And there is more the unpleasant agony and struggle of self evaluation and examina-

struggle of self evaluation and examination and synthesis.

The challenge is to become and to be. It is excitingly difficult. You will be put down, you will fall down, many will die. Some will grow. You will be allowed to challenge and establish a rapport with life, (what is life but people?), in a never-ending maturing-developing-learning-growing experience. No one will force you. Some professors do conduct highschoolish classes, taking attendance, grading the quantity of regurgitation (appropriately in red). But you must learn to think despite that. The whole of the respon-

sibility for your education lies with you. It is up to you to develop the desire work to get what is offered.

Higher education should be a right: become educated is an opportunity, is the responsibility of a school to to become educated is an opportunity. It is the responsibility of a school to make man aware of himself, of what he is, aware that the responsibility of his existence rests solely on himself but at the same time he is responsible for all men. There is no escape from this total and deep responsibility. We are a generation of change, of transition, of idealism that for the first time has the potential to be realized. We soon will have the power to decide if war is really have the power to decide if war is really a childish game compulsively played by sadists with blighted minds, and if starvation is compatible with extra-

ourselves consciously and irretrievably toward that future. We are condemned to action and freedom. (I am not speaking of the shallow level of violence). Those who hide from this freedom by means of clumsy excuse are cowards. But education is the opposite of hiding.

Before man becomes aware of himself, life is nothing: it is up to us to give it meaning and value. Only this way is there the possibility of our creating a human community. Gary W. Callahan

Kernel Soapbox

Revolutionary Re-Organization or Self-Destruction

The anticipation now is that violent revolution is the inevitable product of the above thesis; in a strong sense, this is true, for indeed only violent revolution that devastates the system can affect it quickly enough to allow time for re-organization before self-destruction. But this does not entail street battles (and hence not terrorist tactics). What it does entail is a new breed of revolutionary, a highly educated one, who knows the system intimately that he can destroy it efficien intimately that he can destroy it efficiently and quickly (using much more than token isolated scares) from within, without endangering the lives of those persons it is meant to save or allowing the ostensive military backlash which is this nation's only line of defense. It entails well-planned mass sabatoge, intricately maneuvered political scandals, and intensive underground organization of the armed forces and public employees.

What does this mean for the univer-ty, viz., UK? No partial answer can given until we, as responsible members sity, viz., UK? No partial answer can be given until we, as responsible members of society, take it upon ourselves to "expose" the nature of our system and determine the "truth" for ourselves of the academic, political and social-economic condition we find ourselves in. Do power politics from Frankfort rule the University? If so, we have the obligation to ourselves to expose it; if no such rule exists, we can only insure harmony by showing the social critic his mistake. In either case, what is called for is at least conscientious inquiry into the grounds conscientious inquiry into the ground of our beliefs and accusations, as we concerned attention to those who forecast destruction, provided they do it respon-sibly (which is not necessarily without violence). It demands that well-intending organizations such as Student Coalition become more aware of their own existence

by becoming more involved in the reality that faces them. It involves SMC not being so foolish as to spread rumors about coming activists. It involves Free U in the abandonment of Yippie tactics which, fun as they are, do nothing to pull the moderates into the arena of enlightenment. The list could indeed continue.

The evidence is strong for the coming destruction of civilization, a destruction which will not magically bypass UK; and apart from such evidence, the cries of terror are becoming all too distinct.

If disruptive demonstration which necessarily shocks people and forces them to listen is all that is available for communicating this cry in a society that cannot listen, then who can deny in the face of the contemporary crisis, the necessity of such demonstrations?

No amount of ideology can hide our No amount of ideology can hide our responsibility to our own existence, and our obligation to determine whether or not in fact we are destroying ourselves in the midst of a belief that the cries of the activist are little more than obscenities. What argumentation can hide the unfathomable magnitude of man's mistake if active to fact, the scoric estimates of the control take if, again, in fact, the social critic is not screaming for the hell of it? Whose orientation toward history, psychology orientation toward history, psychology or politics can possibly explain the fears of the student in terms of scare tactics which result from mere academic frustration? What man is going to willfully abandon our leisure society, take up arms and thereby risk death if he is not first stabbed by some unbearable terror?

Only self-conscious concern for our own existence can deliver us from the fear of final tragedy.

Mideast Creates U.S. Alert

WASHINGTON (AP) - The United States marshaled land, sea and air forces Monday for possible use in Jordan, but offi-cials insisted that evacuation of Americans is the only assignment being considered now. And even that didn't seem imminent. The Pentagon said infantry

and paratroop units at home and in Europe were placed on alert, and extra C130 transports were positioned overnight in Europe to airlift these troops wherever and whenever needed.

Some U.S. medical units in

Europe also were alerted, and a third Navy aircraft carrier, the John F. Kennedy, was en route to join the two carriers already in the Mediterrane

No Troop Movement

Pentagon officials said the alerts were for specific units, not for all services, and do not involve moving any Army troops.

cans in Jordan, mostly in Amman, and 38 of the 54 hijacked

man, and 38 of the 34 hijacked airline hostages still held by Pal-estinian guerrillas are Americans. A White House spokesman, press secretary Ronald L. Zieg-ler, keyed administration moves

We think we are taking pruwe think we are taking pro-dent planning measures in the Mideast should there be a situa-tion regarding the hostsages and American personnel, should their position become untenable."

No Comment

Asked whether the United States holds open the possibility of military intervention in Jordan, Ziegler would say only: "I just have nothing further to give you

on that subject."

At the State Department, press officer Robert J. McCloskey said the United States has

vention to bring American citi-zens out of Jordan, and said there has been some tentative discussion with the Jordanian

discussion with the Jordanian government about airports that might be used if necessary.

But he said there has been no recommendation from the U.S. embassy in Amman for evacuation of Americans. This apparently means that U.S. embassy officials feel there is no immediate danger. ate danger.

McCloskey said that if U.S.

military forces are sent in U.S. military forces are sent in to remove American citizens from Jordan it is hoped that the evacuation will be peaceful.

Hospitals Sent

McCloskey said the United States has decided to send two military field hospitals to Jor-dan and is discussing arrange-ments with the International Red Cross for getting them into the

Cross for getting them into the war-forn country.

He said Jordan had appealed for the field hospitals.

Officials said they probably would be manned by American military personnel – principally doctors and nurses— because only seed to trivial in the first transfer. people trained in their use known to set them up.

Pentagon Statement
The Pentagon issued this
statement: "We are continuing
to take a series of additional
precautionary actions to increase the readiness of Army, Navy, Marine and Air Force units to support an evacuation operation Americans in Jordan should

that be necessary.
"These increased readiness actions involve units both here and in Germany, including some medical and hospital units and additional ships and transport

aircraft aircraft."

The home paratroop unit is the 82nd Airborne Division at Ft. Bragg, N.C. As part of the U.S. strike command force, the division would rely on huge C141 transports for its own transportation. Leaves for the troops were canceled.

In Europe there are two bat-talions, about 1,500 men, of paratroopers attached to the 8th Di-vision in West Germany. Also on alert and available for Cl30 flights to the battle area are infantry units of the 1st and 24th

divisions.

The Na'vy carriers Saratoga and Independence together with some 35 supporting ships are already in range of Jordan. The John F. Kennedy's airpower would give the United States some 250 jet fighter bombers all told from its Navy force.

A Marine landing team of 1,500 men is already with this force. Another force of the same size plus the helicopter carrier Guam is en route to the Mediterranean.

New Secretary of State Named by Governor

FRANKFORT (AP) - Gov. puie B. Nunn named Mrs. Leila Louie B. Nunn named Mrs. Leila F. Begley secretary of state Monday to succeed her husband, Elmer Begley, who died Friday after a long illness.

Mrs. Begley began work as an administrative assistant in the secretary of state's office soon after her husband took office in January, 1968.

Begley had wanted to make his wife assistant secretary of state at that time but Nunn would not allow it, wishing to avoid charges of nepotism.

would not allow it, wishing to avoid charges of nepotism. Nunn delayed his scheduled departure to Biloxi, Miss., for the Southern Governors' Confer-ence a half-day to make the ap-pointment, indicating the import-ance he attached to his decision.

Urgent Appointment

Appointment of a new secre-tary was urgent because, unlike most state offices, no official action can be taken while the position is vacant.

Birth Control Urged In McNamara Speech

COPENHAGEN, Denmark (AP) – World Bank President Robert S. McNamara urged Monday the prevention of the births of a billion babies by the year 2000 to brake the world population

explosion.

McNamara told the opening of session of the annual meeting of the bank and International Mon-etary Fund that a massive birth control drive should be mounted

to meet the population problem.

He also said rich countries should shift more resources into

foreign aid.

The former U.S. defense s retary, who forecast the gap be-tween the rich and the poor na-tions wuld continue widening, said birth reduction of a billion would cut the population growth rate to one percent a year.

'Imperative Issues'

"The most imperative issue

for the long term is population planning," he warned.

McNamara rapped tight-fisted attitudes to aid for developing countries. He said the world's current level of military expenditure of \$180 billion a year had gone "beyond the point of dim-inishing returns."

It was tragic, he added, that rich countries hesitate to keep on spending even their present \$7 billion annually on aid to pre-

vent "lethal revolution."

After demonstrations Sunday

by militants who hurled stones and Molotov cocktails at police cars to protest the World Bank and IMF meeting, police with dogs threw a security cordon round the hall for Monday's open-

Demonstrations

About 2,000 demonstrators, mostly in their teens or early

mostly in their teens or early 20s, marched to the meeting hall Monday with shouts of: "Hang McNamara!" About 600 police protected the building. McNamara was not inside at the time.

The first session was attended by King Frederick and Queen Ingrid of Denmark and my many finance ministers from the 116 member countries, including U.S. Treasury Secretary David M. Secretary David M.

'Hot Issue'

Pierre-Paul Schweitzer, head of the IMF, broached a potentially hot issue by suggesting that the United States take action to prevent other governments having to hold too many dollars. Its international deficit, he said, should be financed by the use of

should be financed by the use of other reserves instead.

Schweitzer did not spell out the consequences of such a policy, but experts said it would require the United States to sell some of its gold or draw on its credit with the IMF, or both. Neither measure would be popular with American officials.

Nobel Winners Speak Out

UNITED NATIONS, N.Y.
(AP)—Five winners of the Nobel
Peace Prize urged the United States and the Soviet Union on Monday to declare a mutual moratorium on new offensive and defensive strategic nuclear wea-

pons systems.

They declared that a moratorium arising from the U.S.-Soviet strategic arms limitation talks in Europe would be "the most im-portant first step" in stopping the nuclear arms race and rescuing mankind "from international anarchy and war

The declaration was the first joint initiative by Nobel Prize winners since the awards were established in 1901. It was made in observance of the 25th anniversary of the United Nations and the launching this year of the U.N. "Disarmament Dec-

The five signers were Lord Boyd Orr and Phillip Noel-Baker of Britain, Lester B. Pearson of Canada, Rene Cassin of of Canada, Rene Cassin of France, and Linus Pauling of the United States.

Special Ceremony

Pearson, former Canadian prime minister and winner of the prize in 1957, presented the declaration to Secretary-General U Thant at a special ceremony. Of the five only Lord Boyd Orr was unable to attend.

The declaration said that the strategic arms limitation talks-

that the two superpowers realized that the Nuclear arms race gives them "no security and that it must be curbed."

"All pray for their success; the consequences of failure can be fatal. They must halt and reverse the nuclear arms race.

'Mutual Moratorium'

"A mutual moratorium on the development and deployment of new offensive and defensive strategic nuclear weapons systems, such as the MIRVs and the ABMs, is the most important first stop." tant first stop.

ABMs are antiballistic missiles and MIRVs are independently targetable multiple war-heads on missiles.

Monkey See, Monkey Do ...

If someone tries to make a monkey out of you, don't get insulted. Tests have shown that some monkeys are quick to learn, unlike some humans who must suffer displeasure or pain repeatedly before they learn to avoid it.

Researchers at the University of Kentucky Wenner-Gren Aero-nautical Research Laboratory have found that monkeys are true individuals. Like fingerprints, snowflakes and human beings, no two are alike. Their behavior is quite different. Some of them take stress rather well, while others over-react to nearly all

others over-react to nearly all test situations.
"Some of our squirrel monkeys learn quickly," says Dr. K. O. Lange, professor of mechanical engineering. "They are very good at judging time lapse. For example, one of our little friends whom we call number feriends whom we call number 65 is able to judge within a second or two the time lapse of 20 seconds and responds accordingly to maintain his environment at an ideal level."

Monkeys Tested

Monkeys Tested
Squirrel monkeys, weighing about two pounds, are tested in the UK laboratory while riding a centrifuge that is 50 feet in diameter. Inside the capsule is a lever with which the monkeys can control the rate of angular velocity and therefore the "g" force. One "g" is normal body weight, or the weight at earth's gravity. When the centrifuge reaches 14 rpm the monkey's weight is about 2 "g's", or about twice his normal weight.

It has been shown that ani-

It has been shown that animals prefer earth's gravity to higher gravity and will work to maintain it. Tests of ten squirrel monkeys showed that all reacted differently. One of them pressed the lever twice as many times as necessary to keep the rpm low and thereby maintain his normal

Proposals for further study would seek to answer questions about the biological time clock that is presumed to be inherent in nearly all kinds of mammals.

Kentucky's Dave Roller Named Lineman of the Week in SEC

By CARL FAHRINGER

Kernel Staff Writer Lynn Dickie and his Kansas State teammates are probably still having nightmares about their beating at the hands of the Kentucky Wildcats. The score was bad enough, but UK added injury to insult in one of the worst physical beatings a Kentucky team has dished out in quite some time.

There was nary a man in the There was nary a man in the K-State dressing room who still had two steady legs and an unbloodied nose after the game. As for Dickie, every time he went back to pass, some impolite Kentuckian was crushing his tender

Inflicting more than their share of punishment were tackle David Roller and end Dave Hardt, who make up the awe-some left side of the UK defensive line. As a result, when this week's SEC Lineman of the Week poll was made public, Roller and Hardt were one-two.

Defensive line coach Dennis Fitzgerald was one of the first to congratulate Roller.
"You're deserving," he said.

"Are you going to win it again next week?"

Talking about the award, Roller showed the same pride and determination.

Roller Works Hard

"It makes me work harder," Roller said. "I want to make it again and again."
Roller isn't about to turn down

"It came from hard work and

Roller, however, is the first to share the glory with his teammates—especially Hardt, whose booming punts kept Kansas State well away from pay dirt for most of the grown. of the game.

"Everyone worked hard," he said. "Hardt was runner-up (for Lineman of the Week), so you can see how everyone was working hard."

Head coach John Ray echoed the theme of teamwork

"It was a team defensive effort," Ray said. "When you play that well, it has to be everybody."

As sweet as the K-State game was, Roller isn't looking back.

"It's that much more incentive to work harder," he said. What is he working on this week in practice?"

"Archie Manning."
"Archie Manning."
Roller, Hardt, and the rest of the UK defense certainly face a stiff challenge this week in Jackson. Manning is generally considered the best quarterback in the country, and he leads an Ole Miss offense which could well be the most potent on Kentucky's rugged schedule.
"We've got one thing to dobeat Ole Miss," Roller said. "Then we'll be nationally ranked."

The Rebels will definately be

The Rebels will definately be The Rebels will definately be "up" for the game Saturday. They're in hot pursuit of a high national ranking, and very anxious to pay the 'Cats back for last year's 10-9 upset at Stoll Field.

'You know that they'll be

laying low for us after last year,"
Roller said.
How then, does the SEC's
Lineman of the Week propose
to bring mighty Mississippi down
to its knees?
"Head week and desig."

"Hard work and desire."

Anybody for stealing the Kate "We got pride" cheer?

Twelve Records Set At Bluegrass Strip

By IIM CLARK

The National Hot Rod Association's grand finale points meet in the North Central Division ended this weekend with the finesse so common to the NHRA style of drag racing.

Twelve national records were set during the two day event held at Bluegrass Dragway in Lexington, Ky. John Duzae low-ered the Q/Stock record to an elapsed time of 14.04 seconds for the New Orleans based racer. Jack Troxell, from Allentown, Pa., shaved the G/Stock Automatic record to a 12.41 seconds.

matic record to a 12.41 seconds.

Dave Conner, of the Rod Shop
Team, cut the Super Stock/H
Automatic mark down to an 11.76
seconds. Stuart Mathews, of
Richmond, Va., lowered The K/S
record to 12.68 seconds plus increasing the miles per hour side
of the ledger to 107.14.

Jim Wheelock, from Fort
Wayne, Ind., set a new M/SA
mark at 13.32 seconds. Sam Gianino, from Royal Oak, Mich., shattered the C/Altered record with
his new 1970 Challenger at 9.87
seconds and 139.96 mph. Clarksville, Ind.'s Bill Myers increased ville, Ind.'s Bill Myers increased the mph record in J/S to 109.35 mph

Memphis, Tenn. native, Ivars Smeltnieks, owered the L/SA mark to 13.14 mph. Ken Tobin, of Mestlake, Ohio eclipsed the B/Street Roadster speed record with a 133.53 mph clocking. Jim Elliott submarined the H/ Modified Production record with an e.t. of 12.06 in his 1954 Vette from Hamilton, Ohio.

Jeg Coughlin, of Columbus, Ohio, set the final record of the day at dusk Saturday evening, with his A/Funny Car zipped to an 8.01 second e.t.

Top Fuel qualifying was sparce, as only four of the wild dragsters showed up to run. Qualifying was lead by Ronnie Martin, driving Robert Anderson's machine from Metairie, La., with

a 7.00 e.t. The eliminations found Mar-

tin defeating Larry Leetz, of Terre Haute, Ind., in the first round with a 7.23 seconds, and Top Speed of the Meet at 214.78 mph. Danny Wingert, of Milwaukee, Wis., singled to end the round when his opponent, Roy Mattox, from West Terre Haute, Ind., did not show.

In the final, Martin left first

not show.

In the final, Martin left first and defeated Wingert with a super strong 6.94 second e.t. at 205.94 mph to Wingert's slowing 7.47, 157.22.

The first round of Funny Car action had Hollywood, Fla.'s Paul Aray, driving the first 1971 funny car, a Maverick, facing Tommy Smith's new 1971 Dodge Demon, from East Point, Ga. Smith look real strong shutting down Aray with a 7.79 e.t. slowing to a 168.05 mph.

Paul Radici then made his single in his St. Louis, Mo., based Camaro when his opponent, David Ray, driving Bob Steakly's Camaro from Waco, Tex. could not run due to drive line damage that occurred during

line damage that occurred during a time trial run.

In the final, Radici's luck held true as Smith's beautiful Funny Car lost fire on the start-

Top Gas was an example of brute horsepower, as Radeliffe, Ky.'s Dale Funk drove the Frakes and Funk twin engined rail to the winner's circle. In the first round, Rich Torse of Oreford Mich. re. winner's circle. In the first round, Rick Tope, of Oxford, Mich., realized the situation called for drastic measures if he was going to stop Funk so Tope gambled on the lights.

He lost however, as the foul light with the light of the ligh

light revealed his anxiousness. In the second round, low gas qual-ifier, Larry Brown, lost fire on the starting line against Funk giving the Kentucky boy another easy trip. In the Top Gas finale, Funk was paired with Dayton, Ohio's Pat Dakin. Dakin had earned the right to run Funk by defeating many time national champ Gordon Collett, of Wes-terville, Ohio, in the first round and psyching Birmingham

Monday's Flag Football Results

Despite the passing combination of Mike Kreger to Bob Yagle,
which accounted for two touchdowns, Holmes 4-R still came
out on the short end of a 20-12
score with Haggin A-3 at the
Shively Sports Center.
Haggin D-4 lost to Kirwan
16 by a 19-13 count. Dennis Dezur threw scoring strikes to Kim
Mitchell and Mike Rogers for
the winners. Mike Tomes scored
both of Haggin B-4's touchdowns
on a toss from quarterback Mike
Brookins and running back an
intercepted pass.

In other action, Boyd2nipped In other action, Boyd 2-nipped Haggin D-3, 2-0 on a safety and Haggin D-4 managed to squeak by Haggin D-2, 8-6. Kirwan 1 and Haggin C-4 fought to a 6-6 tie but Kirwan won on first downs

Haggin C-1 defeated Haggin B-2 by a 27-0 margin and Kir-wan 3 shut out Holmes R-2, 12-0. Haggin B-1 downed Holmes F-2, 20-0 and Holmes R-3 nipped Kir-wan 17, 6-0. Holmes I won by a 1-0 score when Boyd B forfeited.

Kentuckians Wilbur Hackett and Dave Van Meter gang up on an un-identified Kansas State player Saturday afternoon following a Bobby Jones (at extreme right) kickoff. Hackett was one of three players presented with a game ball for their performance against Kansas State. Other Wildeats closing in are Joe Federspiel (59) and Bob Finnell (90).

COMING UP

increased college expenses and enrollment," says Jim Ingle, di-rector of Student Financial Aid at the University of Kentucky. He suggests that parents should start now building a savings ac-count for their children's education. He said parents of preschool or grade school children, whose income exceeds \$10,000 a year, may expect difficulty in securing Federal aid for their children's college expenses in the future. Last year Ingle's office provided financial assistance to some 1.600 LIK students. However, for the provided financial assistance to some 1.600 LIK students. However, Each

"Financial aid for college stu-dents is not keeping pace with increased college expenses and

1,600 UK students through Federal aid programs. "To provide financial aid to the same students this year," he said, "would require an additional \$160,000, since costs to attend UK has ticen by \$200 ees students."

since costs to attend UK has risen by \$100 per student."

The University received approximately 60 per cent of its request for financial aid. "When we send in our requests for Federal aid, the amount requested is based on estimated needs. The 40 percent we didn't receive this year means some students were denied financial assistance and therefore were unable to attend the University

Situation May Improve

Ingle believes the situation should improve this winter, since Congress has provided an ad-ditional \$110 million for higher education to what the President originally requested.

"Some of the 500 or more students denied financial aid for the fall may have a second chance to secure funds this spring," Ingle said.

He expects to receive another \$50,000-\$75,000 in National De-fense Student Loan funds in the near future, when the Bureau of the Budget orders the aid-to-education bill approved.

Four Types of Aid

Four Types of Aid
Ingle listed four types of financial assistance funded by the
Federal government: the National Defense Student Loan, which
sets no family income limit; the
College Work-Study program,
which first emphasizes families
with an income of \$7,500 or less;
Educational Opportunity Crants. with an income of \$7,000 or less; Educational Opportunity Grants, which give preference to families with incomes of \$6,000 or less, and the Federally Insured Loan program, in which participating banks and lending institutions loan the money to students.

"Loans under this last program are guaranteed and insured by the Federal government, which also pays interest fees while the student is in school and for nine months following his graduation, if the family adjusted income does not exceed \$15,000," Ingle explained.

Last year Ingle's office hand-led Federal financial aid totaling approximately \$1,175,000. "We have committed \$1,290,000 for the 1970-71 academic year," he said.

Reports Conflict **About Music Fair**

By MARY JANE BUSROE
Kemel Staff Writer
What really happened at the
Rock Bottom Music Fair last

Conflicting newspaper reports, statements from police, statements from students, and statements from Dr. Phillip S. Crossen, owner of the farm on which the fair was held, serve only to confuse the issue.

only to confuse the issue.

According to The Lexington
Herald, Sept. 21, "Sgts. (Leonard) Albaugh, Richard Arnett,
and Detective Kenneth Martin
infilterated the festival..."
However, an officer present at
the festival denied that the police
'infilterated' it. He indicated
that the police were expected and
that the festival was open to
anyone.

anyone.

The Herald also stated that "Sgts. Albaugh, Richard Arnett and Detective Kenneth Martin pulled up to the area in an unmarked cruiser—with a machine gun mounted on the hood—and calmly advised the crowd to leave the farm and go home."
No Machine Gun

No Machine Gun
William G. Sellers, chief of
the Fayette County Police Department, denied the statement.
He said, however, that marked cruiser was sent to the scene, and added that his of-ficers advised him there was no

An editor of the Herald af-firmed that the Herald was given such a report, and added that he couldn't understand why the re

or tunderstand why the report was changed.

Neither Sellers nor Arnett could provide a basis for the machine-gun story. e-gun story.

Facilities Approved

Facilities Approved
The Herald also reported that
"there were cars in the road (at
the festival), nude and semi-nude
people walking around and swimming, and many drunk minors.
Some were apparently high on
drugs, and one person in particular thought he was an airplane
and continually tried to fly off
the stage."

and continually tried to fly off the stage."

Dr. Crossen, who was ar-rested after the festival, told a Kernel staff member that the person trying to "fly" off the stage was a man in his fifties, and was drunk on liquor.

The Herald story also stated that "there were only four sani-tary toilets on the premises when county police arrived yesterday

county police arrived yesterday (Sunday) morning, no drinking water, except for the taps at Crossen's house, and no food facilities

Dr. Crossen claims that the Public Health Service approved food services, water, toilet facilities and trash disposal.

Watching Is Easier

Curious UK students peek in through the barred windows of Buell Armory to catch a glimpse of Sin The's karate class. In a time of women's liberation and other similar movements the self

defense course has become popular with several students. Of course, some will always want to "just watch."

Fall Registration 'Smooth'

UK Increases Enrollment

gistration in recent years, marked the University of Kentucky 1970 fall registration.

Final figures released by Dean of Admissions and Registrar El-bert W. Ockerman noted 17,790 students enrolled on the Lexington campus (including the Lexington Technical Institute). The

1969 figure was 16,182.

Dr. Ockerman said the increased enrollment is being felt in all parts of the University, "as every class and registration category saw their numbers increase." creas

The category with the greatest growth percentage was transfer students from the communcolleges with an increase of 1 percent over 1969. Other categories that noted increases were graduate students, which rose 10.02 percent, and sophomores, whose numbers rose 3,044 in 1969 to 3,474 in 1970.

a jump of over 14 percent.

The only category that did not show an increase over last year was out-of-state students. This year, 14.4 percent of the freshman class and 15 percent of the undergraduate population are from out of state.

General Policy

"This is part of a general pol-icy on the part of state-supported colleges and universities to limit the percentage of out-of-state stu-

An all-time high enrollment, dents in the freshman class to 20 combined with the smoothest repercent, and the percentage of percent, and the percentage of out-of-staters in the undergraduate population to 15 percent," Dr. Ockerman said. Dr. Ockerman attributes the

Dr. Ockerman attributes the rise in the number of sophomores to the increased number of com-munity college transfers, many of whom are freshmen and sophor whom are freshmen and sopn-omores, and to an improved fresh-man retention rate which he at-tributed to more liberal proba-tion and dropping rules estab-lished at UK in 1969.

Six Major Changes

Dr. Ockerman attributed the smoothness of fall registration to six major procedural changes that were enacted this year:

• For the first time this fall,

high school transcripts were not required for each incoming fresh-

Advance registration was required for all continuing students.

All new undergraduate students were required to attend the Summer Advising Confer-

▶ Transfer students are being handled faster, since tentative acceptance is now issued on the basis of work already completed. This eliminated the delay caused by withholding acceptance until a transfer student had completed his current semester.

The application deadline was advanced to June 15.

Each student was required confirm his registration by August 1.

Commenting on the new pro-cedures, Dr. Ockerman said the purpose "was to allow as many people as possible to registerand receive related services complete-ly through the mails. This in turn could eventually reduce the regis-tration rush at the Coliseum to a one-half day affair."

In addition, he noted, the current rate of continuing students who enroll but do not actually return for classes is the lowest in UK history.

Food Co-op Organizing

An open meeting to discuss the possibilities of forming a food co-operative program for Lexing-ton is planned for Wednesday, Sept. 23, at 7 p.m. in Room 363 of the Student Center.

The food co-op concept is a proposed means of reducing food costs in local poverty areas.

It is hoped that some suggestions of immediate forms of action will be brought up at the meeting.

Ky Coming Vietnam Leader Leaves for U.S.

SAIGON(AP) - South Vietna mese Vice President Nguyen Cao Ky left Saigon on Tuesday for Tokyo en route to the Paris peace

Tokyo en route to the Paris peace talks and Washington.
Among those at Tan Son Nhut airport to wish Ky well on his trip was U.S. Ambassador Ells-worth Bunker.
U.S. Embassy spokesmen said Bunker attended the departure ceremony as a member of the Saigon diplomatic corps.
Ky told newsmen that he was

Ky told newsmen that he was going to Washington "to voice the aspirations of the South Vietnamese people to their American allies."

Safety Questioned

As to whether he feared for his own safety while in the United States, Ky said "No, I don't think so."

He is scheduled to speak Oct. 3 at a "March for Victory" rally sponsored by the Rev. Carl Mc-Intire, a fundamentalist radio preacher who favors total mili-tary victory in Vietnam. Several U.S. senators, includ-

ng supporters and critics of the war from both parties, have voiced opposition to Ky's visit and urged him through public statements not to go to the United

Large Protest Planned for Rally

WASHINCTON (AP) — Anti-war groups announced plans Monday night for a nonviolent demonstration against the plan-ned Oct. 3 appearance of South Vietnamese Vice President Nguyen Cao Ky at a rally here.

Organizers called for busloads of protestors to come from all over the United States and to protest the appearance and in-ject new life into the anti-Viet-nam war movement, quiet since last spring.

Direct Confrontation

Addressing a crowd of about 500 students, organizers said they wanted to avoid a direct confrontation with the Ky rally organized by radio cleric, the Rev. Carl McIntire.

Rennie Davis of the Chicago Seven who urged the rally to dramatize social and economic issues as well as the war.

"It is not sufficient to hold s focused directly on the

war," he said.

Those who organized the meeting included the National Student Mobilization Committee, which put together the March on Washington last year.
