**MOON-RAIN**  
The silver drops from rose eaves  
And gleams from the maple leaves:  
It shines in silver light  
Across the garden's night.

Each drop of dew is a star  
Seen while the grass-drops die.  
And the garden paths are lit  
Where moths winging silver fit.

And never a sound is heard,  
No leaf is bent, no blossom stirred:  
Ghosts, a silver rain of light  
Glits on the radiant pane.

Moon-rain! its beauty gleams  
On the petals of the rose.  
And leaves, when night has peach,  
A memory in the breeze.

There are other good cigarettes, of course.

TO TELL you that Chesterfield is the only good cigarette . . . that the makers of Chesterfield Cigarettes are the only ones who can buy good tobacco and manufacture cigarettes scientifically . . . would be nothing short of foolish.

For all tobacco is sold in open auctions—where anyone can buy if he will pay the price. Even the machines on which different cigarettes are made are alike.

This much, however, is true: By using the right kinds of Turkish and Domestic tobaccos in just the right proportions . . . by blending and cross-blending them together in the most careful way . . . we make Chesterfield what smokers say it is . . . a cigarette that's milder, that tastes better. Just try them.

### Big Blue Makes Tennessee III To Tune 44-29

Kentucky's Big Blue made it two in a row from the Tennessee Volunteers by wrecking the Orange and White basketball quintet Saturday evening 44-29. The Knoxville lads looked like another basketball team when the game began, but after the fray they couldn't even be given that rating. Kentucky, while winning easily, was considerably off form, and came far from reaching its here-to-fore attained peak of perfection. The "Vols" were unable to cash in on the many Kentucky mistakes, and as a result the Big Blue came off the floor with their fourth "Big-13" victory in a row.

**Tennessee Gained Early Lead**  
As the battle opened, Crumbliss and Phillips flipped in field goals to send the Orange shirted men into the lead. Soon the Wildcat artillery started rumbling and regardless of the many misses, Kentucky held the ball all to itself for the remainder of the first half. The mountain lads scored only 9 points from the time the "Cat" offensive started to function until the half ended. The Big Blue had a comfortable 27-9 lead at that point.

**Second Half Much Closer**  
The second half was much closer and harder contested, with the Volunteers giving the Cats plenty of trouble until the final gun. The scoring for the second period alone gave Kentucky a margin of only three points, while in the first half they had an 18 point advantage. The Big Blue forward wall was especially weak, missing numerous attempts at the basket, and failing to regain the ball as it rebounded from the backboard. The play became rough during the period and Tennessee's football star, "Breezy" Wynn, was ejected from the game.

### Mortar Board To Meet Monday

Mortar Board, senior women's honorary, will hold their first meeting of the new semester at 4 p. m. Monday, February 6, in the Reading room of Patterson hall, according to an announcement by Mary Elizabeth Price, president. Plans for the organization's program for the present semester will be discussed.

Tentative plans for the year include a tea which will be given in the new Women's building, following its opening, the furnishing of a room in the new Women's building, the organization of the Lexington Alumnae of Mortar Board, and the presentation of an award on May Day to a freshman girl living in Patterson hall. The award will consist of a set of "K" book-ends which will be made and donated by the College of Engineering.

### CO-EDS DISPLAY SPRING CLOTHES

Style Parade Indicates 11 Different Color Combinations in Vernal Modes of Dress

University beauties were featured as models in a style show presented at 3 p. m. Tuesday by the Elkin-Herring Interior at their store on the Esplanade. Each beauty represented a sorority on the campus and wore a dress displaying spring styles and colors.

The procession was led by four-year-old Hueb B. Hammett, who was dressed in a suit of dark red and ivory. The following girls appeared in the show:  
Jane Givens, Chi Omega, who modelled a white cape; Madyln Shively, Kappa Delta, who wore a two-tone violet wool sport-dress; Harriet McDonald, Kappa Kappa Gamma, wore a brown wool sport-coat; Betty Glanton, Pi Phi, was gownned in a rust blue dress, and Margaret Gable, Pi Phi, wore a blue afternoon dress.

As a result of four personal fouls, McPherson suffered a leg injury that detained play for five minutes while he was being patched up.

### Davis Is Outstanding

"Reehorse Bill" Davis, the Harvard flash, continued his fine play in the contest with the "Vols," besides contributing 9 points, his defense was well beyond reproach. His teammate Ellis Johnson also turned in a fine game, making 6 points. In contrast, the Tennessee guards failed to score during the evening.

"Aggie" Sale and "Frenchie" DeMosey led the evening's scores with 12 and 11 points respectively. However, the two tall lads should have done much better; each missed time after time as they attempted easy shots. Phillips led the Orange attack with 8 points.

Lineups follow:

### WILDCATS SMASH VANDERBILT 40-29

By A. STANLEY TRICKETT

Coech Adolph Rupp and his Big Blue basketball team journeyed to Nashville Tuesday with vengeance in their hearts; as a result they dominated Vanderbilt university's Commodores by the score of 40-29. The game was a natural and provided fans with thrills from start to stop.

The two quintets were battling for the leadership of the recently formed Southeastern Conference, and the Kentucky lads were attempting to wipe out the sting of last year's only loss in regular scheduled games, "Vandy" with eight straight "Big-13" wins found the going too tough and was unable to maintain the top rung in the conference, which the Wildcats secured as a result of the victory. The Nashville lads, however, pointed out that it wasn't all over and warned the Big Blue to watch out when they invade the Bluegrass in about two weeks. They claim that they will repeat last season's history, and ruin the Cats record on the final evening of play.

### Commodores strong in Early Minutes of Play

When the game opened the lads from the Bluegrass state seemed completely outclassed. The first few minutes of battle saw the Commodores take a five point lead and hang tenaciously to it, with the Wildcats remaining scoreless. With the game hardly started, Coach Rupp replaced Capt. Sale with George Yates, who proved to be the spark needed to start the Cat attack. With Yates leading the way the Big Blue connected with rifle-like precision and soon held a 15-13 lead. This lead was never taken from them and at half time it was 18-15 in their favor.

### Davis, Yates, Johnson Star

The second period was fast and the fans saw plenty of good basketball with both teams playing about equal, but with the Commodores coming back strong during the final minutes of the game. Davis, Kentucky's stellar sophomore guard, was by far the outstanding man on the floor. He scored 11 points and held "Skinny"

**ETHEREZED GIRL**  
floats in air

**ILLUSION:**  
This very old illusion was invented by Indian fakirs. The secret was unearthed in 1849 by the great magician, Robert Houdin. At that time, it had just been discovered, and little was known about it. Houdin claimed that he had discovered that this new anesthetic could make people light as air. To prove it, he caused the subject to rise into the air and float apparently suspended. He passed a hoop around the body to show there were no wires or supports.

**EXPLANATION:**  
There are many, many explanations for this old trick. One is that the girl wears a concealed harness, which ends in a socket between her shoulder blades. This is attached to a piston below the stage. The piston is pushed up from below, causing her to rise in the air. The piston is invisible, because it is covered with mirrors which reflect surrounding draperies, similar to the background. The magician can pass the hoop over her body because it is cut in one place. It can be pulled apart for a second when it passes the piston.

**SOURCE: "Modern Magic" by Professor Hoffmann. George Routledge & Sons.**

Another "magic show" is cigarette advertising. One of its greatest tricks is the *illusion* that cigarettes can be made miraculously "MILD" through manufacturing methods.

**THE EXPLANATION:** All popular cigarettes today are made in modern sanitary factories with up-to-date machinery. All are heat treated—some more intensively than others, because raw, inferior tobaccos require more intensive treatment than choice, ripe tobaccos.

The real difference comes in the tobaccos that are used. The better the tobacco, the milder it is.

**It is a fact, well known by leaf tobacco experts, that Camels are made from finer, MORE EXPENSIVE tobaccos than any other popular brand.**

This is why Camels are so mild. This is why Camels have given more pleasure to more people than any other cigarette ever made. It's the secret of Camels' rich "bouquet" . . . their cool flavor . . . their non-irritating mildness.

All the natural, ripe goodness of Camel's tobacco is kept fresh for you by the famous air-tight, welded Humidor Pack. Don't remove it.
