A test was made yesterday on the Potomac River, just above the Aqueduct Bridge at Georgetown, of the wireless telephone system invented by Nathan Stubblefield, of Murray, Ky. The trials lasted from 10:30 o'clock in the morning until after 2 o'clock in the afternoon. Mr. Stubblefield, the inventor, declared that the tests were entirely satisfactory to him and said that had the wind not been blowing so hard the results obtained would have been even better. He used
