My dear darling

Have a dear letter from you today and am glad to know Louis is better. Please be careful of yourself, you are all I have you know in this world.

Weather hot here tonight. we had a good day, am just in from the track and center tired, but I am mighty glad this got back all winter for your sake. I have all the letters down and they will be coming regular.

I hope you have your money order to night for \$1000 you are needing it badly, but never mind dear more will be coming right along.

Have some news of special importance to night, but just must talk to you as much as I can.

I hope to have matters in shape to get you down here with me, if it does take all the money it goes any time.
