UK, U of L go head to head at meeting

Higher education task force gathering marked by passionate discussions

By Brian Bennett Senior Staff Writer

FRANKFORT, Ky. — Sherry Jelsma bowed her head. She gri-maced like a mother of two bickering children.

Jelsma, chairwoman of the missions and programs committee of the Governor's Higher Education Review Commission, played mediator as UK and University of Louis-ville officials exchanged a few pointed words at yesterday's meeting.

ing.

Those words came as the commission appeared to decide on closing UK's dental school. State government officials supported the idea yesterday, and the commission will study the option between now and the next meeting on Nov. 16.

The idea caused battle lines to once again be drawn between the two camps. U of L President Donald Swain lobbled the first volley earlier in the full commission meeting.

Robert Meriwether, vice chair-man of the UK Board of Trustees.

fired a shot of his own during the

"I sant of his own during the committee meeting.
"I want to know if we're going to look at all the programs," said Meriwether, a brain surgeon from Paducah, Ky. "Let's look at medical schools. Do we need two medical schools?
"As a wheel."

schools?

"As a physician and by reading all the medical journals and magazines, it's clear which is the better medical school. And I can tell you it's not U of L's."

To which Swain quickly replied: "Arguments about quality are not made best by self-interested people."

Jelsma interrupted the discussion and pleaded for the two sides to "talk to each other in a calm manner."

"talk to each other in a calm man-ner."
Yesterday's debate probably doesn't indicate that the UK-U of L sports rivalry has extended into the academic arena. Rather, it illus-trates the competing interests facing leaders of the state's two doctoral institutions — the desire to maxi-mize efficiency in Kentucky higher education versus the need to protect one's own programs.

The situation figures to only grow more controversial as the commission considers the future of programs such as engineering, law

programs such as engineering, law and medicine at both schools. "You get into these committees,

Tuition formula revision suggested

By Lance Williams News Editor

FRANKFORT, Ky. — Changes could be in the works for the forcould be in the works for the for-mula Kentucky uses to determine how much money each state-supported university receives each

year.
The new funding formula, which was discussed yesterday by members of Gov. Brereton Jones' Higher Education Review Com-The newhich was discussed yoursembers of Gov. Brereton Jones Higher Education Review Commission finance committee, would allow schools to obtain more more yof ground performance.

In addition, the formula would include different variables to take each university's mission statement into account.

Council member Larry Haynes

Then, an account with the schoon-programs that are provided at an etypic institutions.

Finally, the formula takes into account the amount of funding schools received in other states. Hayes said he didn't think the formula has had any relevance during the past couple of years.

Although the goal of the state

"I think the state universities may have lost out on additional funding by using the (current) formula," he said.

The current formula, which was

The current formula, which was developed in 1982, is based on a series of principles that guide how Kentucky gives money to each of its eight state universities. First, the formula gives each university money to maintain its current level of services.

Then, an additional lump sum is given to all the schools, based on programs that are provided at all eight institutions.

Finally, the formula teles, itsee, itsee

has been to fund each institution at 100 percent of what the formula says it should receive, the highest average funding level for the universities has been 88 percent. It now stands at 72 percent — the lowest level in history.

Hayes said he was "not sure how legitimate the goal has been."

He said a reworking of the funding formula would help make the numbers more realistic and also could help the universities obtain more funding.

"Right now, we don't now what (the money), and the formula is part of the problem," Hayes said.

One of the goals of the Higher Education Review Commission is to establish a performance-based funding system that can be used with other reforms the group as a

whole will recommend.

The members of the committee agreed that the formula should give more attention to the performance of the universities, but many cautioned against scrapping the formula altogether.

"There is no need to get rid of the formula — just build performance onto it." Eastern Kentucky University President Hanly Funderburk said.

Morebead State University President Ronadé Eaglin said the basic premise of the formula baould remain intanct to protect schools that might lose funds if their performance is judged to be their performance is judged to be schools that might lose funds i their performance is judged to be

substandard.

"We need to look at the same baseline because we have to have some protection built into the for-

See FORMULA, Page 2

and things become adversarial,"
Swain said.
"It's very important that we be considered the state's premier institution," UK President Charles Wethington said. "So I'm prepared to go to battle for our programs."
The battle over dental schools has been raging for some time. Last November, the issue was raised during dental school in the state. UK offi-

cials were upset.
"We felt that a reasonable conclusion had been reached last year," said Peter Bosomworth, chancellor for the Albert B. Chandler Medical Center. "We're not prepared to acknowledge that Ufs' dental school should be closed."
"There are a lot of serious issues concerning higher education and

closing the UK dental school won't solve all of them," Wethington said. UK currently accepts about 40

students per year into the College of Dentistry, while U of L accepts about 50. Bosomworth said UK will continue to have "a dental pres-ence" even if the school is closed.

Case involving student's death held over for a grand jury

By Heather Reister Staff Writer

The case of two men arrested in connection with the beating death of a UK medical technology student was waived to a grand jury

In a preliminary hearing at Fayette District Court, the men, Richard C. Staton, 21, and Robert R. Rankin, 19, each entered not guilty pleas to charges of murder, kidnap-ping, first degree robbery and first degree burglary.

Fayette District Judge Gary Payne then sent the case to a grand jury, which will decide if there is enough evidence to bring the case to trial in Fayette Circuit Court.

A date for the grand jury hearing has not been set.

Payne also set Staton's full-cash bond yesterday at \$195,000. Rankin's received a slightly low-er bond, \$145,000.

Both men remained in custody at the Fayette County Detention Cen-ter last night, a deputy jailer said.

Staton and Rankin were arrested Oct. 14 in Des Moines, Iowa, after the body of Thomas Robinson, a 26-year-old UK medical technology student, was found behind an abandoned school in rural Fayette County.

According to the Lexington-Fayette County coroner's office, the student's death was caused by blunt injuries to the head.

Staton, of Ashland, Ky., was driving Robinson's car at the time of the arrest, and police say he also had one of Robinson's credit cards in his possession.

Police say they tracked Staton to Iowa by following purchases he allegedly made on the card.

Staton had been a house guest of Robinson and Robinson's room-mate Jeff Burlew, a UK graduate, prior to Robinson's Oct. 11 disap-pearance.

Phone scheduling replaces long lines

Officials advise early planning

By Kathryn Abney Staff Writer

With a little planning and pa-tience, students should experience an easier way to register this semes-ter — by telephone via the UK-VIP Network.

"A lot of people at UK have worked very hard and hope students have a good experience," said Lisa Collins, assistant registrar for regis-tration. "The schedule book will tell when and how to register, and we advise everyone to call if they have problems."

The new Voice Information Processing Network means students won't have to stand in long lines at centralized registration sites any more, but there is one caveat students should heed: Don't miss your registration "window."

Each student is assigned a so-called window — roughly a three day period in which he or she must register — by class standing and the last digit of his or her social security number. A table on pages 839 of the class schedule book lists them for all students.

system, however, waiting could mean students will find vastly reduced course selections.

If students miss their registration windows, they must use a secondary window that falls later in the registration schedule.

Graduate students' secondary windows for undergraduates will be available only on the final two days.

Randall Dahl, University registrar, said the change makes the system more equitable.

"Before, the windows stayed open, but this was a disservice to freshmen and sophomores because seniors would procrastinate and all would register at the same time," he said.

Dahl encouraged students to plan.

Dahl encouraged students to plan Dahl encouraged students to plan their schedules carefully and review instructions for UK-VIP before call-ing. He also stressed that students must see their academic advisers before they can register because they must have their "adviser holds" lifted.

Students wanting more for their money

Some say rising cost of education must be met with higher quality

By Caroline Shively

Students and their families may have to reach even deeper into their pockets if they want to attend a state university in Kentucky nextyear.

The Council on Higher Education staff announced last week that it will recommend an 11.2 percent increase for undergraduale in-state tuition. The full council meets on Nov. 8 to consider the staff's recommendation.

If adopted, UK tuition will jump from the current \$980 per semester to \$1090 — an increase many stu-

tuition, and when you concentrate on the per capita income of Ken-tuckians, I think the student work-force is not on the same wage-increase level of a full-time work-er," political science senior Rob El-henicky said.

Marketing junior Jason Martin said he didn't like having to pay es-calating tuition costs while state schools cut back on programs and class offerings. "it's really frustrating for the stu-dents, especially those that have to pay their own way." he said. "We keep having to pay more, and the University keeps cutting back on classes. We're paying more for less."

Out-of-state students also are facing a probable tuition increase.
"I came here from New York because it was supposed to be one of

UK's Student Government Asso-

UK's Student Government Asso-ciation is planning a rally Wednes-day at 2 p.m. in front of the Admin-istration Building to protes' the proposed increase. Students, faculty and elected offi-cials are scheduled to speak. "If they are going to keep in-creasing tuition, we want to see an improvement in education," said E1-len Hamilton, SGA governmental affairs chairwana.

SGA President Lance Dowdy said the rally will show the CHE

who do not have touch-tone phones is available in 6 Funkhouser Building.

Other changes made under the new system include a higher scheduling priority for students in the Academic Honors Program. Their windows open beginning tomorrow.

"(We try) to move (honors students) along in their cademic work, and it goes with being in the Chademic Honors Program," said Louis Swift, dean of undergraduate studies.

"They need to be able to get into classes they wouldn't be able to get in before."

Evening, weekend and disabled students, as well as athletes, also were given earlier priority windows to assure they can register for classes that fit their needs and time schedules, Dahl said. Most graduate students may begin scheduling to-day, while seniors, juniors, sophomores and freshmen follow in respective order from Nov. 4-18.

The system will be operational from 7 a.m. to 8 p.m. Monday

spective order from Nov. 4-18.

The system will be operational from 7 a.m. to 8 p.m. Monday through Friday and from 8 a.m. to 5 p.m. Saturday.

"You can't have an academic health sciences center without some presence," he said.

Engineering schools present another point of discord for UK and U of L. Jones has said that he wants one of the two schools to be ranked in the top 25 in the nation within five years.

Swain and Wethington disagree on the likelihood of that happening. "I'd be willing to bet you a dime, or even 25 cents, that it can't be done in five years or even 25 years," Swain said. "It would take millions and millions of dollars, which is something we don't have. Both of our schools combined don't add up to a single Purdue or Virginia Tech."

"It think it's extremely realistic," Wethington said. "The University of Kentucky is in a position to take its College of Engineering to that level."

level."

But while they may disagree upon issues, both Swain and Wethington say it's nothing personal.
"We're all friends," Swain said.
"We can still go out and have a beer together afterwards."

Formula

mula," he said.
The committee did not reach an agreement on what criteria would be used to evaluate performance, but many pointed to a bill presented by State Sen. Edward Ford, D-Cynthiana, who also is a member of the commission, to the state legislature. Ford's bill proposed a series of evaluations to determine how close a university is to meeting its goals. In the bill, Ford offered 14 criteria to gauge levels of performance. The committee is expected to look at Ford's proposals at its Nov. 16 meeting to find a starting point for determining how performance will be rated.
With slightly less than 50 days

With slightly less than 50 days

With slightly less than 50 days before the commission must present its plan to the governor's office, Jones urged the commission yesterdays to work a little faster. James Miller, chairman of the Council on Higher Education, agreed with Jones and also prodded the group to speed up progress on discussions concerning topics like program duplication and the redefining of mission statements. "I was very disappointed when I received the packet for this meeting," Miller said. "I was disappointed at the commission's progress, It seems like we are making recommendations. "We now have 50 days left. We

"We now have 50 days left. We cannot continue at the pace we are

cannot continue at the pace we are going."

Clay Edwards, a University of Louisville law student who is student representative on the CHE, gave a letter to Miller yesterday, asking the commission to keep the concerns of students in mind as it considers the new funding formula. In the letter, Edwards said "all-hough students continue to pay more, quality remains unenchanced." He urged Miller and the other members of the commission to keep the burden of paying for Kentucky's higher education system from shifting back to students.

"Relying on students as a source "Relying on students as a source "Relying on students as a source

"Relying on students as a source of revenue in the face of declining budgets will inevitably mean slamming shut the doors of accessibility, thus closing the doors to Kentucky's future," Edwards said in the letter.

Money

Continued from Page 1

Student government leaders also hope to address the council at its Nov. 8 meeting.
"They need to know tuition is a priority and we can't be tampered with," he said.
Snyder said this and other student input may have as effect on the CHE's vote next Monday.
"There have been changes in the past because of student urging of the council," he said.
That remains to be seen, but accounting senior Jennifer Wesley expressed the sentiments of many seniors: "Thank God I'm graduating," she said.

DIVERSIONS

'Town Hall' provides forum for UK callers

The screech of hot tires, the crash of breaking glass and the crunch of twisting metal ring through the studio monitors at WRFL-FM as program director Rick Jamie finally gets the station's dead control board jump started.

The sound effects provide a count.

gets the station's dead control board jump started.

The sound effects provide a counterpoint to the previous few minutes of dead air, both of which happened courtesy of the control board's literal and figurative crash.

On the other side of a glass pane, in the sound proof room, sits "Town Hall" host John Clark. Calmly smoothing over the problem, Clark welcomes the listeners in a deep, neighborly voice.

After setting the agenda for the evening (pleasant and accommodating), Clark patiently waits for the first calls to come in. He begins discussing the top-rated jobs listed in a recent issue of a news magazine.

At the control board, Jamie points out that it takes 10-15 minutes for people to "figure out that music isn't being played."

Airing every Wednesday from 9

Campus Profile

to 10 p.m., Clark's all-talk show has been going strong since early to 10 p.m., Clark's all-talk show has been going strong since early September. Since he replaced for-mer hosts Chris Heustis and Marvin Jones, the show steadily has experi-enced an audience growth in Lex-ington and surrounding areas. The show has received calls from listeners in Danville, Paris and Frankfort.

Frankfort.

After several calls and congenial comments from Clark, the pace quickens. The topic skips spontaneously from Rush Limbaugh to the Reginald Denny trial to environmental lawyers, then back to Rush. "I always have a plan, and it lasts for about 10 minutes," Clark said. "And then after that, I just try to wing it and work in whatever I can, whatever is going on with people After several calls and congenial

whatever is going on with people that are calling."

the city's mayoral race.

Because Clark is well-read and always prepared (he brings newspaper clips and magazines to the studio), he can manage most topics successfully. One of Clark's favorite callers is a man from Frankfort, who he said is "really knowledgeable about extraterrestrials, UFOs and that kind of stuff."

Clark recalls one of his more memorable calls came from "as extending rader who wanted to know what they had on "NYPD Blue' because his parents wouldn't let him watch it."

Clark said about half his callers

cause his parents wouldn't let him watch it."

Clark said about half his callers have some tie to the University. Through word of mouth, "Town Hall" is gaining listeners quickly, but the limited phone system keeps Jamie and Clark from fielding too many calls. Patience is the key when trying to get through.

A UK graduate, Clark has two bachelor's degrees — one in telecommunications and the other in political science — and a master's degree in communications. Clark also is assistant director of the College of Communications and

the College of Communications and Information Sciences and teaches telecommunications classes.

John Clark is host of UK radio station WRFL-FM's talk show 'Town Hall.' Clark, assistant ditor of the College of Communications and Information Sciences, began the job in September

'Nightmare' spooky, kooky treat

Halloween allows holiday setting for haunting claymation fairy tale

"The Nightmare Before Christ Touchstone Pictures

By Nina Davidson Arts Editor

From the quirkily creative mind of director Tim Burton, who has served up such fantastical films as "Beetlejuice" and "Edward Scissor-hands," comes a new twist on the sardonic horror genre he has pio-

sardonic horror genre he has pio-necred.

"The Nightmare Before Christ-mas" blends dark humor with a sur-real landscape peopled with clay-mation characters.

Jack Skellington, the lanky skele-al hero, is bored with his routine of Halloween antics. Like any hero with a quest, he longs for some-thing more. One day as he is walk-ing in the woods, he stumbles upon a grove of trees leading to the holi-day worlds.

He is sucked in by the Christmas-town world and becomes entranced by the bright lights and good cheer. He decides to commandeer Christ-mas and stand in for Santa Claus for one year.

The romantic interest is provided The romantic interest is provided by Sally, a ragdoll animated by the local mad scientist. Sally tries to prevent Skellington from attempting to take over Christmas, but to no avail. Skellington sone enlists the whole Halloweentown in his efforts to kidnap Santa Claus and replace him as messenger of good will and cheer.

The simplistic storyline of

"Nightmare" is reminiscent of the children's classic "The Grinch Who Stole Christmas." The Grinch wants to steal Christmas so the can have all the presents, and Skellington wants to steal Christmas for the excitement of a new holiday. However, the plot is not the main strength of "Nightmare." The strength of "Nightmare." It can be strengthed to the strength of "Nightmare." It can be strengthed to the strength of th

fully designed and intriguingly animated.

The Mayor of Halloweentown is cleverly constructed with two faces, one smiling and one scowling so that he can have the correct expression for any occasion.

The landscape of Halloweentown is rendered in eerie shadows and stark shades of grey. The town is populated by gruesome monsters of all ilks, including vampires, werewolfs and hunchbacks.

Lock, Shock and Barrel are perpetual trick-or-treaters that Skellington enlists to capture Santa Claus. Paul Reubens, the deposed Pee Wee Herman, provides the voice of Lock.

Although "Nightmare," rated PG,

voice of Lock.

Although "Nightmare," rated PG, is marketed towards children, some scenes may not be appropriate for young viewers. Santa Claus is tied up and iortured by the boogie man in one section, and small children might be traumatized as they watch their Christmas benefactor squirm helplessly in the grip of the evil boogie man. The opening sequence of "Night- emas."

The characters Barrel, Shock and Lock plot to kidnap Santa Claus in the Halloween film 'The Nightmare Before Christmas.'

mare" also tours the spooky mon-sters hiding out under beds and in closets, which made one child at a local theater start crying.

Along with the mediocre plot, the musical score also is mediocre. Danny Elfman, founder of the rock group Oingo Boingo, composed the hauntingly insipid score.

Despite these minor flaws, "Nightmare" provides a dream of a movie with the creative artistry of the claymation figures reason enough to see the film.

"The Nightmare Before Christ-mas," rated PG, is showing at Lex-ington Green Movies 8, Man O' War Movies 8 and North Park Cin-

e-White tickets on sale

Fishe-write lickets on sale

lickets for the UK men's backtohal team's annual Blue-White
immage currently are available at the Memorial Coliseum ticket
ice. The intrasquad game will be played Nov. 13 at 6 p.m. All
ts are general admission and cost \$5 each. Tickets will be availaover the counter only. Remaining tickets will be available at the
v the evening of the scrimmage.

Lady Kats win seventh straight

The UK women's soccer team (13-6) ran its winning streak to sevn straight by sweeping a pair of games over the weckend.
The Lady Kats knocked off Wighth State 1-0 on Friday on the first
cal of the season for freshman Kory Freudenberg. Freshman goalceper Amy Mokely's shutout was her school record fifth of the seaon. On Saturday, the Lady Kats got goals from Nicole Ruszkowski,
arah Morrison and Karin Schneider in rallying from a 1-0 deficit to
efeat St. Joseph (Ind.).

Rifle team hits bull's eye

The UK shooting team enjoyed another record performance on Saturday as it defeated both Morebead State and Cincinnati at UK's Buell Armory. In the air rifle competition, UK established its send team record in as many weeks. The school's team of Erik Anderson, Mike Bogs, Mike Singer and Nancy Napokish dad a team total of 1548/1600, breaking last week's record of 1527 set at Tennessee Tech. UK won the smallbore event with a score of 4567/4800, paced by Anderson's 1158/1200.

Men's soccer inches toward .500

The UK men's soccer team split a pair of games over the weekend to run its assaon record to 7-8-4. The Wildcast lost to Hofstra 2-1 or a goal with less than a minute remaining after UK junior Tim Staccord late to tie the score at 1.

On Sunday, the Cats won their home finale 2-0 over Southern Indiana in the snow at Cage Field. UK got goals from Fisk and sophomore Brian Dausman. UK goalle Matt Stanley recorded his third shutout of the season and a school-record ninth in his career.

Cross country teams place 10th, 11th
The UK women's cross country team finished 10th, while the
men's team finished 11th in Saturdy's Southeastern Conference
Cross Country Championships in Baton Rouge, La. The top-ranked
Arkansas Razorbacks swept the men's and women's team titles for
the third straight year.
Freshman Maureen Egan, the first Lady Kat to finish, came in
49th place overall with a time of 19:06. Rashid Derricks paced the
men's team with a time of 25:43.89, good for 42nd place. The Lady
Kats finished with 316 total points, while the Cats ended the meet
with a score of 279.

Women's golf takes seventh

The UK women's golf team improved its score by three strokes in the final round of the Tiger-Tide Intercollegiate Tournament in Desiu, La., but still finished in seventh place — one stroke brid South Carolina. The Lady Kats finished with a score of 617, with Tracy Holmes leading the way with a 76 that placed her 10th overall in the tournament, won by LSU.

Mixed milestones marking year

Wildcats are big surprise in SEC East

By Doc Purcell Staff Writer

The UK football team entered the 1993 season as one of the least respected in America, ranked 80th 106 Division I squads by Sports II-lustrated and placed in or near the Southeastern Conference cellar by countless other preseason publications

Fortunately for the Cats, the me dia's unflattering predictions couldn't have been further from

Coming off a 26-17 win over league rival Mississippi State — only the third road victory in Coach Bill Curry's reign over the UK program — this year's Wildcat team has been on a rampage of impressive achievements.

"Almost everything this team has done has been some kind of a mile-stone," Curry said Saturday in his post-game press conference from Starkville, Miss.

Starkville, Miss.

The milestones the Cats have reached have come despite some pretty impressive opposition.

This season, they have reached five wins for the first time since 1989, Jerry Claiborne's final season at the UK helm.

The Wildcats also become complete the complete of the co

The Wildcats also have earned three straight SEC victories (over South Carolina, Mississippi and LSU) for the first time since 1977, the year they finished an unscathed 6-0 in league play.

THE KENTUCKY KERNEL:

Works every time

MAKE YOUR BEST PITCH: UK running back Randy Wyatt catches a toss from quarterback Pookie Jones against LSU earlier this year.

And the Cats have clinched their first win over a ranked opponent (a 21-0 blanking of then-No. 25 Ole Miss Oct. 2) since a home victory over No. 11 Georgia in 1988.

But perhaps the most impressive
Wildcat achievement is one still in
the making. At 5-3 overall and 4-2
in SEC contests, the Cats are wellpositioned to pounce on a postscason bowl bid.

Lexington.

This would put the Cats in the
post-season for the first time since
talborne took his 1984 team to a
Hall of Fame appearance.

With Vanderbilt (2-5 overall, 0-5

With Vanderbilt (2-5 overall, 0-5

The Peach Bowl, held Dec. 31 in
Adanta, or the Car Quest Sunshine
Bowl on New Year's Day in Fort
Lauderdale, Fla., are UK's most
probable destinations.

Considering the SEC's generous bowl alliance, which guarantees at least five teams an invitation to post-season play, the Wildcas look to be spending the holidays south of Lexington.

ule and a unimpressive East Carol na (2-6) team following that, Curr and his Cats are well aware that a least one more victory will almos assure a bowl invitation.

Curry's entertaining stories tell tale of winning football

By Eric Mosolgo Staff Writer

If you are in need of entertainment during the noon hour on Mondays, consider sjopping by UK coach Bill Curry's weekly press conference.

To the casual observer, it is sometimes difficult to ascertain whether Curry is football coach or storyteller.

Topics at yesterday's meeting with the media included magnifying glasses found in Cracker Jacks boxes and the lack of merriment in

Cracker Jacks? Believe it. The UK coach had to talk about

something.

After all, a discussion of the strengths of this week's opponent, Vanderbilt, would be of similar length to a discussion of the Clinton administration's foreign policy

With his team's bowl prospects looking Peachy, the UK coach was flooded by a host of questions con-

squad.

Realizing that a victory over a meek Vanderbilt team this week would guarantee the Wildcats their first bowl bid in nine years, Curry says it is imperative that the squad maintain the focus that has provided it or its current status.

pelled it to its current status.
Curry speaks from experience.

Curry speaks from experience.
"I've made that mistake before, and it literally cost us a chance at a bowl," he said.

In 1984, while coaching at Georgia Tech, he witnessed his team collapse after opening the season with a perfect 3-0 mark, including wins over perennial powers Alabama and Clemson.

The draw been in that resisting.

"I had not been in that position before, and I didn't handle it very

We got beat the next four weeks

We got beat the next four weeks in a row. That was a valuable les-son for me," he said. After exhuming his past tribula-tion, Curry delved into a soliloquy comparing his team's focus to the prizes (magnifying glasses, in par-ticular) he found in Cracker Jacks

Once upon a time, a young Curry took the magnifying glass and attempted to use it to start small, controlled fires.

reinject to use it to start smail, con-trolled fires.
"It might be 35 or 40 degrees in College Park, but I could get those sun rays focused and I could start a fire," he said.

Similarly, he said the Wildcats must focus all their energies to be able to ignite and sustain the lan-tern of prosperity for UK football.
"There's all this energy on our team; we've got a lot of enthu-siasm, and we play hard. We do have the capacity of doing things extremely well when we are paying absolute attention, and that's what focus is," Curry said.
"You've got to get all those rays.

focus is; "Curry said.
"You've pot to get all those rays.
When they are diffused, they don't create much heat.
But if you get them all in one direction, then that's the equivalent of a laser kind of force."
Curry added that it is the responsibility of the coaching staff to make sure the team's energies are directed toward a common objective.

"You should be able to do that 12 or 13 times a year," he said. As long as the team can keep a level head, the UK coach says that expectations are generally a posi-tive force when dealing with athlet-

tive force when dealing with athletics.

He noted that "you can always rise or fall to the level of expectations.

What we get now are fans calling in after a win angry because we didn't do well enough. That's good."

Curry said that no matter how well his team performs, chances are that he, like most other football coaches, will never be satisfied.

"It fold the gusy vesterday that af-

"I told the guys yesterday that af-ter we win our first national cham-pionship, we'll start the next day to get ready for the next one.

"There's no thrill in the world like winning. If you have the addic-tion, there's no cure."

Attack leaves scar on Germany

BERLIN — This time, the targets of neo-Nazi hate were not asylum-seekers from the Third World living in public housing.

They were American athletes who came to train for the Olympics.

who came to train for the Olympics.

Members of the U.S. national luge team were attacked over the weekend in the eastern German winter resort of Oberhof by skinheads who taunted the team's only black member. black member.

The team left the training ground day early.

They left behind a mayor worried that world-class athletes who come from as far as Japan might now shun Oberhof.

Mayor Harmut Goebel appealed to the U.S. team today not to pull out of a World Cup meet Jan. 14-16 in Oberhof.

But Go world Gup meet Jan. 14-16 luge team that not le

"There could be nothing worse for us than a boycott," he said. The region surrounding Oberhof has been hit hard by factory clos-ings, and losing tourist revenue would be devastating."

The mayor apologized effusively the American luge team Saturday effore the athletes departed for ustria

Duncan Kennedy, a white luger who stood his ground Friday night to protect a black teammate and other team members when about 15 young skinheads chased them from the Kurparkklause bar, has a swollen nose, lumps on his head and bruised ribs. bruised ribs

Kennedy told The Associated Press in a telephone interview Sun-day that despite the pain, he planned to be back training today.

But he said he was nagged by the idea that his assailants could have killed him.

The Lake Placid, N.Y., athlete's buddies escaped unharmed from what was the first attack on Ameri-cans by rightist hate-mongers since German unification three years ago.

But Germany's image took a

pounding.
"It just so happened that the U.S. luge team was training in a country that not long ago fostered hopes of hosting an Olympic Games," the Berlin newspaper Morgenpost commented today.

"Was it perhaps because of such perceptions that Olympia 2000 will take place in Sydney?"

Berlin had bid for those summer games, and many comentators think the threat of violence was a reason the city was passed over in favor of

Police said the five youths arrest-ed in the attack were known trou-blemakers from nearby Suhl. A re-gional prosecutor, Uwe Koenig, said he did not yet know what charges the five, ages 16 to 19, might face.

Four of the five have been re-

Before attacking the athletes Fri-day night, the neo-Nazis taunted the American group's only black ath-lete, Robert Pipkins of Staten Is-land, N.Y., imitating monkey noises and gestures.

They proceeded to chase out the americans, yelling, "Nigger Out!" Kennedy was incensed and arned to confront the gang.

But he was buried by flying fists and kicks from neo-Nazi trademark

The mayor said this was the first attack on foreigners in former East Germany's winter sports capital, al-though skinheads attacked two local uths the previous week

Geobel noted the attackers were from a city of 48,000 struggling with high unemployment and social dislocation common to many east-ern cities.

police presence it previously lacked.

Kennedy said that he identified three attackers to police who escort-ed him back to the bar after the at-tack, but that he had to leave quick-ly because the skinheads were giving Hitler salutes and shouting Nazi slogans.

Teammate Gordy Sheer of Cro-ton, N.Y., said he was terrified and barricaded his door.

"I was living the nightmare that the Nazis were going to come and get me in the night," said Sheer, who is Jewish.

A U.S. Embassy official in Bonn, speaking on condition of anonymity, said American diplomats had been contacted by German officials and were encouraged "the Germans are taking the case seriously."

Extremist attacks on foreigners have become a cause of serious concern in Germany, with seven people killed this year.

Many of the attacks have targeted foreign asylum-seekers perceived as intruders or competitors for jobs.

Ironically, visits by foreign ath-letes could improve prospects for creating more jobs in advance of the winter Olympics in Norway in February.

Salmonella studied as birth control

Scientist discovers way to produce contraceptive vaccine from bacteria

ST. LOUIS — Salmonella bacteria have been genetically altered to produce an oral birth control vaccine that primes the immune system to reject sperm before conception, a researcher reported yesterday.

The vaccine causes a harmless, temporary infection in the intestine that triggers antibodies against ge-netic components of sperm that have been spliced into the bacteria, said Roy Curtiss of Washington University in St. Louis.

Unaltered salmonella bacteria cause 4 million cases of food poi-soning each year in the United States and are a major source of di-

arrhea worldwide Curtiss said

arrhea worldwide, Curtiss said.
Curtiss is using the genetically
engineered forms to produce vaccines against hepatitis B and malaria. Human trials of the hepatitis B
vaccine have begun, and the Army
plans to begin tests of the malaria
vaccine this winter, Curtiss said.

Tests of the contraceptive vac-cine have been done only in mice so far

But the results suggest that a sin-gle dose of the vaccine might pre-vent conception for several months or longer. And the effect would be reversible, Curtiss said.

for the Advancement of Science Writing. The method also might be used to produce a male version of the vaccine, intended to disarm sperm and make the men temporari-ly infertile, Curtiss said.

In intertile, Curtiss said.
Paul Primakoff, a biologist at the
University of Connecticut who is
working on a more conventional injectable birth control vaccine, said
Curtiss's approach was promising,
but that considerably more research
is needed.

"We're trying something simpler, and if what we try doesn't work, maybe we would take an approach like his," Primakoff said.

Curtiss expressed some concern about what he said was the potential for abuse of the salmonella birth

or norger. You are effect would be reversible, Curitiss said.

"The idea now would be you don't get your booster, and within a year or so you can conceive again," said. "You could put it in the milk or water and immunize everybody," whe said at a meeting of the Council

ing that," perhaps by secretly sterilizing an entire population.

Because of the temporary nature of the vaccine, however, "this is

izing an entire population.

Because of the temporary nature of the vaccine, however, "this is something someone might be able to undo," he said.

The salmonella vaccines might prove especially useful in developing countries and rural areas because they don't require refrigeration and are cheaper to produce than the bottles that would contain them, Curtiss said.

Similar vaccines also are being tested to prevent the salmonella infections in chickens and pigs that can lead to food poisoning, he said.

The human vaccines are produced from salmonella bacteria that have been altered in two ways. Parts of the bacteria that cause disease have been removed, and genetic codes from sperm — or hepatitis B virus or malaria parasites — have been inserted.

First lady gets tough on health care foes

WASHINGTON - Hillary Rod-

the Health Insurance Association of America that question key features of the Clinton plan.

"One of the great lies that is cur-rently afoot in this country is that the president's plan will limit choice. To the contrary, the presi-dent's plan enhances choice," said Mrs. Clinton.

WASHINGTON — Hillary Rodham Clinton accused insurance
companies Monday of waging a decetiful campain against the Clinton
health plan to protect profits and
preserve the ability to cut people off
when they get sick.

"It is time for you and for every
American to stand up and say to the
insurance industry, 'Enough is
enough. We want our health care
system back," 'she told more than
2,000 pediatricians.

Democrats, Republicans learn to just get along on health care issue

EDITORIAL

One would think having Senate Minority Leader Bob Dole and first lady Hillary Rodham Clinton in one room would produce the kind of sparks that could light up New York City.

After all, Dole is not known for his cheerful demeanor, and the good senator has hung the resolute first lady's husband out to dry on more than one occasion, so it would take a brave person or a big issue to bring them together.

But then again, heath care is a pretty big issue.

After all the bickering the president and Dole have done over the president's proposal and the GOP alternative, it looks as though they finally have resolved to get down to business.

The first lady even praised the lead GOP alternative bill as being ar superior to the other rival plans because it, like the Clinton pro-osal, moves toward universal coverage and forces individual re-

By that same token, Dole praised Ms. Clinton for her extensive work in health care.

Fortunately for the public, there was more to this event than sycophantic political back-patting.

Praise came from Ms. Clinton for the Republicans who wanted o "move beyond partisan bickering and gridlock."

Wow, there's a creative idea.

Perhaps after months of being bloodied by vicious congressional partisan battles, the two parties have decided to talk.

Because when the Democrats and Republicans continue to fight among themselves, no real progress is made. And while the worst that happens to them is a few bruised egos, the American people get injuries that are going to take more than the Band-Aids Congress offers.

LETTERS

Writer dislikes Douglas' weekly 'Rant and Rave'

I'm writing in response to Mitchell Douglas' column in the Oct. 15 edition of the Kentucky Kernel.

Frankly, I'm quite tired of being subjected to The Mitchell Douglas Rant 'N' Rave once a

Was Douglas hard up for a col-umn topic last week, or was his piece about Ted Danson simply a continuation of his previous bitch

By denouncing others for per forming in ways he deems inap-propriate, Douglas seems to attest to his own terrific goodness.

Yes, Mitchell, what Ted Dan-on did was terribly boorish and

If I wanted to know about Danson's latest act of stupidity, how-ever, I would pick up an issue of the National Enquirer, not the Kentucky Kernel (or simply go see "Made in America").

So give the angry young man act a rest, Mitchell, or at least bear in mind that the zany antics of that wacky Ted Danson don't interest readers in the least.

And please forgive me, Mitch-ell, if I seem to be ranting and raving. I'm sure you can appreciate the incoherence of something that takes 10 minutes to write.

LETTERS POLICY

Readers are encouraged to submit letters to the editor and guest opinions to the Viewpoint page in person or by mail. Writers should address their comments to "Letters to the Editor"; Kentucky Kernel Editorial Editor; 035 Enoch J. Grehan Journalism Building; UK; Lexington, Ky. 40506-0042. You may also respond by sending electronic mail to the editorial editor at CTMCDA00@UKCC.

Letters should be 250 words or less, while guest opinions should be between 250 and 800 words. We prefer all material to be type-written and double-spaced, but others are welcome if they are legible.

Writers must inlcude their names and major classifica-tions (for publication), as well as their addresses and tele-phone numbers for verification. Letters that cannot be veri-tied will not be published, nor will anonymous letters be published. Frequent contributors may be limited, and we re-serve the right to edit all material.

Therapy group reforms conservative kids

The second semi-annual meeting of the Children of Republican Parents club and group therapy experiment took place last week at the YMCA. Our leader, Libby Bleedingheart, started off the meeting with a new club creed.

She, unfortunately, was the only person who would say it loudly and with pride.

There were several new members to be initiated. One man insisted on giving winters on an inscident in which his father forced him to watch 12 straight hours of Nixon-Agnew documentary campaign footage.

Initiation rites cannot be dis-cussed outside the club meetings, but we can say that it involves some slight brain-cleansing.

some slight brain-cleansing.

We then went on to the next order of business, which was to be
the most exciting part of the meeting. Our guess speaker was speaker was
kere followed by a liberal debriefing and translation by George
Stephanopolous.

kie Roberts again (in that order and by those people, respectively).

Stephanopolous soothingly of-fered condolences to the club for its choice of speakers and gave a short, prepared statement about the future of the Democratic Party.

He opened the floor for ques tions and immediately was greeted with a large showing of hands. He was able to answer questions about speculation on how miserable life will be for Generation X as a result of health care reform and assured the group that our parents are wrong in telling us that we're turning into "those damn Canadians".

ans."

Stephanopolous also clarified
the First Lady's position in the
government by repeating that
she's only in charge of the Committee on Health Care Reform and
isn't occupying a high-level position in the Oval Office.

tion in the Oval Office.

When Stephanopolous left for his next appointment — rumored to be with the director of White House electronic mail — the group leader asked for one-word esponses to the meeting

Words ranging from "interesting" to "abominable" were offered. It also was the consensus of the group that this was one of the best meetings ever held.

Plans for a recruitment drive were discussed and the topic of the next meeting was revealed. Much to our chagrin, it will be a self-help workshop, tilded "You Too Can Break Free of Rush Lim-banch"

We repeated the group creed be-fore adjourning to Perkins for des-sert and lots of decaffinated cof-fee.

Meredith Nelson is an American Studies sophomore and a Ken-tucky Kernel columnist.

Minority status can't be defined numerically

It is interesting how the subtle connotations of words change, how words take on a slightly different feeling or meaning.

Take for instance the words "grand" and "big." Both imply something that is large, but it is doubtful you would find a hotel called the Big Hotel. "Grand" just has a little pure class.

Another word with a very con-fused meaning in our society is "minority." Literally, according to my dictionary, "minority" means "the lesser number" or "inferior in bulk, degree, importance, etc."

In common usage, however, peo-ole seem to have another idea of a minority as some segment of our opulation with a distinct definipopulation with a distinct tion and even special rights.

A recent experience of mine oints out this confused and con-

A few weeks ago, I gave a talk to an education class on issues re-lating to sexual orientation.

aung to sexuai orientation.

During a discussion of legal discrimination against homo/
bisexuals, a man brought up a charge by certain right-wing
groups that gay people in Cincinnati were seeking to define themselves as a minority.

Think about this stateme: What are these groups in Cincinn ti (taking a cue from other rigl wing rhetoric around the countr

Does this mean the majority of Americans actually are homosexu-al? If they are, I sure don't know

No, I think that right-wing radi-cals, the media and popular culture increasingly are defining a minori-

Jeff Jones Kernel Columnist

ty as a group targeted by certain programs like affirmative action hiring quotas, multi-cultural edu-cation and anti-discrimination

laws.

The Radical Right has been quite adept at selling to middle-class white heterosexual America a message that minorities have switched the tables — that now the Cunninghams are being discriminated against by policies aimed to help the Cosbys.

The story usually goes: "Sure, nere was segregation, slavery, in-

ternment, persecution, genocide, etc. But that is all in the *past*. We are all Americans now, and the best person should be hired."

The policy experiences of black Americans seem to define what it is to be a "minority" among white

There is a telling message in the fact that all but one of UK's top administrators are white men and most of the people working at lunchtime at the Limestone Street McDonald's are black

Even among supposedly sensi-tized academics such as myself, it is far too easy to discuss race only in connection with black people or to only teach about gender as something only women have.

White is still the norm and not

Women remain the Gendered Other relational to the male norm. Without an understanding of how our society creates what it

is to be gendered as a man, how can men understand new ways of being a man as the women's movement has done for women?

movement has done for women?

If the nuclear family (married opposite-sex couple and their children) today represent a minority of less than 20 percent of the U.S. population, why do so many so-cal science theories assume this group as the model for living for the other 80 or so percent of Americans?

mission or change its name. Cur-rently, the office's programs deal almost entirely with African-American students. I know of other people (Hispan-c, Asian, etc.) who, on calling to

find out about minority scholar-ships, have been told that there are not enough Hispanics to be a mi-nority at UK!

So, what is a minority?

Women make up the majority of our population. Then why are they lumped in with "minorities"? In truth, men are a minority in numbers. Why do we not speak of them as a minority?

There are only an estimated 25 million exclusively homosexual people in the United States.

Why then does the right fear la-beling gay people a minority?

I think it is because today "mi-nority" does not mean "numerical-ly fewer."

A minority today is a group that is underrepresented in society — in our classrooms, our textbooks, our government, our media and our leadership positions.

The whole rhetoric about affirnie whote metoric about attri-mative action and anti-discrimination laws being "special rights" is really a smoke screen for why one minority — heterosexual, middle/upper class white men— hold such inordinately large power and visibility in our society.

UK Lambda President Jeff Jones is a geography graduate student and a Kentucky Kernel columnist.

The Radical Right thus opposes aulti-cultural education that dis-uses Asian, African and other on-Western traditions because, evitably, such lessons have to oint out the continuing social ad-antages given to white men. Likewise, UK's Office of Mi-

The Radical Right has been quite adept at

The Kentucky Kemel is published on class days during the academic year and weekly during the summer session.

Readers are encouraged to submit letters and quest opinions to the Kentucky Kernel in person or by mail.

Writers should address their comments to: Editorial Editor, Kentucky Kernel 035 Journalism Building, University of Kentuck Lexington, KY 40506-0042

Letters should be 350 words or less, while guest opinions should be 850 words or less. Fax #258-1906

We prefer all material to be type written and doublespaced, but others are welcome if they are legible

Writers must include their name, address, telephone number and major classification or connection with UK on all submitted material.

Frequent contributors can be limited so we may publish letters from as many writers as possible.

> We reserve the right to edit all material.

Debate over Packwood diaries turns personal

in the context that this Senate needs to know of the potential gravity of the offense."

The debate moved into the eve-

in the context that this Senate needs to know of the potential gravity of the offense."

Packwood the potential gravity of the offense."

Packwood into the evening with no indication when a vote might come.

Packwood had said earlier that is more than 8,000 pages of writings include entries on the sex lives of fellow lawmakers.

He added yesterday that the diaries included refrences to history-making events and matters that "rar every, very personal."

Packwood described how he had this include expending "family heartaches, statement about potentials of a law statement about potentials from the committee would describe that the committee chairman went to far in his statement about potentials from the potential criminal conduct in the committee would describe that the committee chairman went of a rin his statement about potentials from the confusion of a law suit that the committee would fees related by the word "criminal."

"There, Sen. John Warner, R-Va, expedition.

There sein, John Warner, R-Va, expedition.

The ethics committee is seeking that the committee wood a require and soft in state mental and the committee wood a result of a law suit of a law wood and his about the committee wood and state mental and park and the committee wood and state mental and the committee wood and state mental and park and

PUSH HERE FOR ATRI

(Plus area code and number)

Use it from dorm and pay phones on or off campus.

College is hard enough. Getting AT&T isn't. So whether you're making a calling card or collect long distance call, check the sign on the phone first. If it's not AT&T, or you dial and don't hear "ATXT" after the bong, hang up. Then dial 10+ATT+0, plus the area code and number. It's the easy way to get the service you want at the prices you expect. So next time you call you'll know what buttons to push. **AT&T**

Can't complete your call? Dial 1 800 321-0288.
