Dear Victor.

This looks wonderful. I am very definitely against the dots at the end, & think one period is what we need. I had forgotten I had done this, indeed I did it without thought. What was not noticeable in the typescript became starkly evident in your type. Again I owe much to your nuncio. Certainly when men write out their notes in this hand it had a tremendous influence in shaping their thought. I should have written this so, but unfortunately I cannot.

The visit with Wayne was, as usual, very enjoyable. Maybe you can get back some time in September.

Can Carolyn please send me whatever is best, that is available on Mao Tse Tung & Chinese Communism? And a volume of the Latin Echhart if any. There is a remarkable new book out on Echhart in French by Kosky.

All Kenning, always.

Cordially in Christ the Lord
for Louis
