## MOORE-WHALEN HONORED WITH SULLIVAN NOD

Eminent Seniors Acclaimed For "Meritorious Service To University"

LAMP-CROSS, MORTAR BOARD HOLD INDUCTION

Alpha Tau Omega, Delta Zeta Named Victors In Float Competition

Sullivan Medallions for prominence in scholastic work, leadership, and extra-curricular activities were presented to Ike M. Moore and Dorothy Whalen at a convocation Friday in connection with Sukey's celebration of May Day.

Pres. Frank L. McVey gave the medals to the students for "meritorious service to the University during their college careers" before a large audience in Memorial hall.

Moore and Miss Whalen are students in the College of Arts and Sciences. Moore is a member of Delta Tau Omega, social fraternity; Phi Beta Kappa; Seaboard and Blade; Alpha Delta Sigma; Omicron Delta Kappa; and Pershing Rifles and the former is the former business manager of The Kernel.

Two senior honoraries, Lamp and Cross and Mortar Board, conducted their annual pledging ceremonies at the convocation.

## Senate Approves New Curriculum For Engineers

A new curriculum leading to degrees in the College of Engineering was presented to the faculty by the University Senate at a meeting late yesterday in Room 111, McVey hall.

According to the approved curriculum, at least one summer term will be required in each engineering curriculum to occur, normally, between the sophomore and junior years.

For students studying electrical, mechanical and metallurgical engineering, the summer term will consist of laboratory work, and for students taking architectural, civil and mining engineering, the work will be carried on at Camp Robinson in Noble, Breathitt county, Ky.

## GORDON IS SELECTED NEW KEYS PRESIDENT

James Gordon, a member of Sigma Nu social fraternity, has been elected president of Keys, sophomore honorary fraternity, at a convocation held at the University of Kentucky.

New initiates of the organization were: Preston Hunter, Kappa Sigma; Bob Shaw, Triangles; John Kirtland, Delta Chi; John Bales, Phi Kappa Tau; Robert Rowles, Sigma Chi; Lewis Clatskanie, Phi Kappa Tau; Robert Nickerson, Alpha Tau Omega; George Scott, Delta Tau Delta; Carl Kelley, Phi Sigma Kappa; Marshall Guthrie, Phi Kappa Tau; John Hunsaker, Sigma Phi Epsilon; John Tuttle, Kappa Alpha; and Frank Roberts, Sigma Alpha Epsilon.

## Downingmen's Win Soothes Basketball Wound

Last Night By Notre Dame

## MICHIGAN STATERS AGAIN DEFEAT UKY

University of Louisville Plays Locals On Campus Courts Today

Displaying a return to top form, the Wildcat tennis team defeated a strong net squad from Notre Dame Saturday afternoon on the University courts, by the convincing margin of 6-3.

The Irish presented a strong aggregation of netmen and managed to snare three of the singles matches, leaving the ultimate score to the doubles titles, all three of which were taken by the 'Cats.

The victory was in the nature of a revenge for the defeat handed the Kentucky basketballers by Notre Dame earlier this year. It is also the second successive victory over a Notre Dame tennis squad by the Wildcat aggregation, as they defeated the Irish at South Bend last year by the score of 7-2.

Much improvement was shown by individual players on the Wildcat squad over the playing in previous matches this year. Bobby Evans, who has been raised to the No. 2 position, won his singles matches handily, as did Phil Englehardt, Warren Donohue, No. 1 man, had more than his opponent, but came out on top.

The net squad from the University will oppose the Michigan Staters in the doubles this afternoon, in a match which is scheduled to start at 2 o'clock.

This match will be the first of three this week for the 'Cats, as they meet Wayne University, from Detroit, on the University courts Friday, and Saturday travel to Cincinnati to meet the netters from the University of Cincinnati.

The results of the Notre Dame match are as follows:

- No. 1 Donohue (UK) defeated Fallon (ND)
- No. 2 Evans (UK) defeated Arnold (ND)
- No. 3 Englehardt (UK) defeated Gregory (ND)
- No. 4 Kirtain (ND) defeated Montgomery (UK)
- No. 5 Wolf (ND) defeated Batis (UK) 7-5
- No. 6 Simon (ND) defeated Wotter (UK) 6-2, 4-4

DOUBLES  
No. 1 Donohue and Evans (UK) beat Fallon and Arnold (ND) 3-6, 6-1, 6-4.  
No. 2 Wagner and Englehardt (UK) beat Fallon and Arnold (ND) 4-6, 6-2, 6-1.  
No. 3 Batts and Montgomery (UK) beat Kirtain and Arnold (ND) 6-0, 7-5.

## WATKINS ELECTED INTERFRAT PREXY

Downing, Morgan, Lathrum Are Chosen For Other Offices

Reynolds Watkins, London, a member of Sigma Nu social fraternity, was elected president of the Interfraternity Council for the school-year 1937-38 at a dinner meeting of the group last night at the Sigma Chi fraternity house.

Other officers selected were: Kenneth Downing, Lexington, a member of Alpha Sigma Phi fraternity, vice-president; John Morgan, Madisonville, Lambda Chi Alpha, secretary, and Raymond T. Lathrum, Glasgow, Phi Sigma Kappa, treasurer.

A financial report covering the monetary conditions of all fraternities on the campus is being started by the organization and the summary will be posted in Dean T. T. Jones' office upon completion in September, 1937, it was announced.

Scholastic standings of all fraternities were approved at the meeting last night, and plans were made for a business meeting to be held at 7 o'clock Monday night in the Sigma Nu fraternity house.

Watkins, leader of the Independent political club, also is a member of Lances, and the executive committee of Pan-Politon. Morgan is a member of Keys, and is assistant business manager of the Kentuckian. Downing is a member of the advanced military science corps. Lathrum is managing editor of The Kernel, a member of Guignol and Strollers, and is co-editor of the 'K' book.

## DEAN HOLMES TO SPEAK

Mrs. Sarah Holmes, assistant dean of women, will address a mother-daughter banquet Friday night at the Danville high school.

A 4-H club picnic will be held at 5 p. m. Friday, May 14. Those expecting to attend are requested to meet at Shelly house on Maxwellton Court and hike to the Experiment farm.

A meeting of the newly organized camera club will be held at 7:30 (Continued on Page Four)

HERE SHALL THE KERNEL ALL STUDENT RIGHTS MAINTAIN

Peace Poll Indicates Belliphobia A POLLING IS THE neglect of the student corps to answering questions pertaining to their attitude toward war and their attitude toward military training.

In the Attitude Toward War trio, three students stated they would support the U. S. government in any war it may conduct; 43 stated they would fight only in case the United States is invaded; and 14 insisted they would not support any war the U. S. might conduct.

One voted for the second by stipulating he would fight only in case the U. S. was invaded, "except in case of concerted police action among nations to protect a nation that has been attacked."

Another changed the third to "I hope I will not fight in any war which the United States might conduct."

Evidence of peaceful inclinations is prevalent in that poll. Only three students avowed a completely chauvinistic attitude toward any form of American aggression.

The Attitude Toward Military Training questions was disclosed in the following: Eleven favored compulsory R. O. T. C., 35 favored optional R. O. T. C., and 16 opposed any form of military training in colleges and universities.

Again the peace supporters have registered a win. Only 18 per cent of the voters approved the type of training enforced here at the University.

If these 62 voters can be used as typical of campus expression, then it is easy to realize that the ranks of the peace thinkers are beginning to increase.

Penny-Ante Respect THE NEVER-ENDING search for campus news last week led a reporter on The Californian staff to Dr. Mathurin Dondo, professor of French.

"Respect for professors is the outstanding characteristic of University students... the students are always ready to be amused, but the professor has to give them the opportunity and occasion to make them lose their dignity and respectful attitude."

cut-and-dried variety, the students are not quietly dignified; they are anesthetized. The final source of student seriousness is subsidized sheepskin, a delusion common to this civilization. In this case, the student is overcome by the fact that the course, although he hasn't the slightest interest in it, is somehow connected with his life work.

CUTIN' UP THE CAMPUS

with URITH LUCAS, guest columnist MeVey Hall—"He doesn't love me. He won't write my term paper."

DON'T LOOK NOW, BUT— that fem you just kissed is the house mother.

SIMILES: Love is like a horse race — you lose every time. She's like a trig problem — she has a maddening figure.

THEO-RIES: If professors were made to listen to their own lectures if professors were forced to laugh at their own jokes if professors were compelled to look at their own faces if professors would go crazy just like us stoogeists.

CAMPUSALUTES: 1. To those who don't say, "I think you've got something there."

2. To the geology and journalism profs — they aren't moss grown. 3. To Eddy and Wally for putting on a side show that dims the big act.

4. To coeds who break dates — they help to keep the male ego within bounds. 5. To the eccentric person who returns what he borrows.

Scrap Irony

By HARRY WILLIAMS Those ATO's came through with the winning float in the May Day parade. Their "Man in a bathtub" seemed to captivate every observer.

The girls in the Institutional Cooking class made the following statement when interviewed about the many banquets they prepare: "All cooking and no pay make work a dull job."

Students majoring in Commoneology will be pleased to know that the University is thinking about improving the equipment, thereby offering better facilities for learning.

Suky's "name band" surpassed our fondest expectations. It was actually good music. The organization has "done itself proud."

The guys and gals who attended the Derby report that they can't understand why War Admiral won the race. We suggest that it probably had something to do with his getting under the wire first, that seems to be a prime factor in determining a winner.

This Campus and That World

By RALPH E. JOHNSON WHILE I am weary of this chit chat, it appears that an answer to Robert Rankin's latest attempt to slay me with his "mightier-than-aword" pen is expected of me.

However, I will answer it because I must turn in a column and inspiration in other fields is lacking this day. Mr. Rankin: if you would be a Journalist, let me suggest first that you watch your grammar carefully.

Yours is a curious mixture of hot and cold sentiment, of disjointed and disconnected ideas, of misconceptions and misunderstandings. Your youth shows through your efforts to be logical.

When it comes down to "sour grapes" old fellow, you take the prize with that statement that you don't care to have your name smeared at the head of a column. You would have given your shirt to have a columnist job this year.

The Vice Of the People

By GEORGE KERLER Restlessness drove us to the May Day exhibition of fairland trucking, men juggling women, and gym annex boys proving there is strength in young manhood.

As for the classical wrestling match put on by those muscular performers, there was nothing startling about that. We've seen The Athletics sling coeds around in the Commons with more elemental tendencies if not with as much polish.

Of special study to everybody was that gymnasium ritual. In civilian garb those strongarms appear as quiet and as impotent as on or next day. We scrutinized each face so that when on our next postulant excursion they would be included in the 628 people with whom we do not get tough.

Election Spoils The only consolation the Independent Combine hauled out of last Monday's annihilation was the fact that they will have less doctor bills to pay.

Didn't you think that all those May Day functions were a bit incongruous out there on Stoll ballfields? As we stood on the track it seemed sacrilegious that on God's prize sod where UKy heroes have galloped there should be such meaningless acts as finger-flinging dancing and a politician's glory like a May Queen coronation.

For an instant we recalled a dynamic moment two and a half years ago when Kentucky was trailing Alabama by two touchdowns. Right near where the pony was lumbering through its orders suddenly we could see Bert Johnson burst through a wall of footballers.

Again there loomed another spectacle, this time Kentucky losing to Duke, 14-7, in the final quarter. There on the very ground where we dived the Queen and her court we could envision Ralph Kercheval at a swift sophomoric name Bob Pritchard, both ignited with fury.

Most of us can manage to say the right thing at the right moment, but what we would like to boast of is refraining from saying the bright thing at the wrong moment.

Pearl's paper boys blew danceable music. Add retort. This is the worst that ever leaped out of our typewriter. You might use it sometime on a guy uttering vulgarity.

Ralph Johnson is on the road to success. We heard of our illustrious students whisper, "Johnson is an anarchist."

Bacchus Hits the Hay The urge to immortalize a recent Sigma Nu hay ride is irresistible. It would be better to brand it a Beer Fight.

Four horses, a wagon (acre in area) and two towers of beer were ordered for the excursion. Naturally, the beer came; but instead of a quartet of Dobbins and a four-wheeled lot a streamlined truck, carrying a hill of hay, roared up alongside of the house.

There in the fast-blacking twilight the truck crawled up to the Euclid (X) Mahal. If you can imagine how wounded

CHEMISTS VIEW WONDER TALKIE

Picture Will Vividly Depict Industry Growth; Show To Be In Kastle Hall

The Lexington section of the American Chemical Society will sponsor a two-reel talkie, 'The Wonder World of Chemistry,' at 4 p. m. today in the lecture room in Kastle hall.

This new talking motion picture shows scenes in large chemical plants and laboratories never before recorded for public view. Research chemists are shown at their daily work, striving to improve existing products and to develop entirely new ones.

The spectator is taken, by means of the camera, into a factory where air, water, and coal are combined with the aid of steam and pressure of seven tons to the square inch to yield on the one hand a product used in making ice and on the other a compound that protects automobile radiators from freezing.

The picture, narrated by John S. Young, radio and screen commentator, is informative and educational. It depicts in twenty-two minutes of vivid photography and sound the story of the chemical industry.
