My Dear Mr. Trumbull

I have just recd. the Pamphlet w^{ch} you were so kind as send me, & I hardly need say I am delighted with it. It is all new to me. Archaeologists are under great obligations to you: not only for this learned production, but for a great amount hitherto accomplished.

I need not say go on, for I am of the opinion that you can't stop if you would - judging from my own crude notions.

Very truly yrs
