Dear Mr Bayne

I cannot refrain from sending you a line
to express my sympathy with you at this

time. I know something of the heart in your

life that God knows yours must make

the sense of loss you must suffer after so

many years of close association with

him. Nevertheless, you must feel proud in
looking back on so many great days, in peace
and war, in which you gave him help during
his long & varied service to the country.

With all good wishes, believe me

Yours sincerely

Walter H. Fletcher
