

Will. Henry Hunt

died 1864

64

Water Color Painter

Mr Hunt presents his
compliments to Miss
Fleaton and begs to say
that he should be most
happy to make her a
drawing of fungi did he
know where to get any
perhaps when Mr H
goes into the Country

he may be fortunate
enough to meet with
some should he do so
he will bear in mind
that Miss Eaton is to have
a drawing made from
some of them
