My dear Sir

I am very pleased  
to hear of your loss.  
When you introduced  
me to some of his  
more intelligent looks

Struck me and I  
should have been very  
pleased to remember  
him among my  
students and give  
him my help in  
my power

Twenty years ago  
I had the only one I

then possessed & though  
he was but a child the blow  
was hard to bear and  
the memory of it  
makes me sympathizing  
with you more every  
minute

Patience should work  
pulled me through

My dear Sir

I am very grieved to hear of your loss. When you introduced your son to me his bright intelligent look struck me and I should have been pleased to number him among my students and give him any help in my power.

Twenty years ago I lost the only son I then possessed & though he was but a child the blow was hard to bear and the memory of it makes my sympathy with your sorry very genuine.

Patience & hard work pulled me through the evil days of that time; and though I do not think that a man's life ever seems the same after one of these knockdown blows - he may be none the worse fitted to live in this no wise playfull world and do a man's work there.

I trust that your experience may be no worse than mine

Ever yours sincerely
