Dear Buel:

Roosevelt's near-socialism makes it worth while to make another effort with Wilson. So I inclose a letter which please forward to him unless it embarrasses your plans for these papers. Please have it copied in my personal book.

If we can get something from Roosevelt well & good but if Hillis is weak & R. Specian & we have not Wilson, we shall be throwing our force on the wrong side. He writes academically so that an authorized inter-

view would be much the better way,
Let's first see what we
can get from Taft & Wilson.

I am telegraphing you tonight
my conviction that Hale can
turn the trick for us - all
three tricks. I hope you'll use
the telegraph & spare no reason-
able expense that October
number needs, this demand solely
on socialism

Your questions are most admir-
able & suggestive.

Wrench for the after-the-war series! Miller
& Holman & Otis are strong recruits.

Constance came over to luncheon
yesterday and Kate went part way back
with her. She is looking brown & strong and
is certain an attractive & lovely girl. Every-
body is glad to see her and looks to have
her so. She has some new whale oil boots
and I call her "Puss." Boots and "Goody
Two Shoes" -

Dear Mr. Jones,
