Dear Mrs. Bayne.

I want you to know that I do sympathise with you in your trouble. I have passed through it so often & life seems to me so sad as one gets older, nothing but partings. Although it would be selfish to wish to keep our dear ones when we know their illness would increase, it does not diminish our sense of loss, & the fact that you did so much & took such wonderful care of your invalid (he said when I saw

him that you were keeping him alive) will in some ways, make you miss him more, but what a comfort to feel that you helped him so much. You have your children, but I have lost all except a half brother, who lives far away. Please do not trouble to answer.

Yrs. very sincerely,  
Alice Boydell Knight.

Knight is writing to you himself.
