Dear Mr Norton.

I have pleasure in requesting your attention to the letter & M.S. of Miss Perry, in whose literary success I am much interested. He will explain to you with what view her work is prepared, & what encouragement she has to suppose that this, followed by future labours, will be useful & popular. If you should find it for

Your mutual advantage to
transact business together,
it will afford great satisfaction
to Yours very truly

Harnet Martineau.
