Home Office

19 February 1841

My dear Sir

I have received your letter recommending Mr John Maurice Herbert of Lincoln's Inn for the Office of Secretary to the Commission for the enfranchisement of Copyholds under the Bill now before Parliament. It is to assure you that I will bear in mind your

recommendation of this gentleman
and give his claims every fair
consideration with those of other
candidates whenever the appointment
in question is about to be made,
but as that is not likely to be the
case for some time I can at
present give no further assurance
on the subject

Yours faithfully
Horsmanby
