Dear Sir

I went to the National
Gallery yesterday & saw three
of the pictures to which your next
No. relates. The other, the Villa
of Maecenas by Wilson, was not in
the Gallery, an artist being
employed in copying it. I suppose
however ^{that} it is the picture which
is so well known, of which a
mezzotint engraving has been published
by - (I think) Cooke. I will

set about the M. S. sheets that
I received the letter press of the
former Numbers, that you have
it all in a few days (the first
sheet 2 days after I receive the
letter press.) - Perhaps you may
as well send your servant to
leave with me a copy of the
(a common paper copy) of the two
first Numbers, with prints & letter
press, & I will return them to you
with the last bag of M. S.

I say this, because I imagine
that you may have more trouble in
getting the letter press made by itself
than in connection with the prints.

Your very obed^t
