My dear Vis-Countess

Gladstone designates
as E. M. 2. ^{Prigun} Progress
the Council's plan as "liberal and
wise"

I conclude, from Mr. Gifford's
circular, that that is the subject of
the Council on Monday. If there is
no more, I shall not wait for it. ^{as}
Do not trouble yourself, pray, to
answer this, unless there should be
any thing for which I ought to say.

If you have any more letters to be
printed, and will send them to this
house, I will see them through the
press, please God

With kindest regards

Yours very faithfully
