I think I lectured some

My appearance - experience, very varied  
for I went to the three times, & spent  
more than 2½ years in the wild  
country.

The natives were some intensely  
interesting - and in a lecture  
the matter I try to deal with is

Some of this.

I have a good collection of pictures  
taken by myself of - wild scenery.  
wildness & wild hearts -

I can assure you - that - I visited  
by any Anti man - like I can -

I'd like to come to you - But I  
cannot do so till the spring

Mr. Davis for health - makes it  
necessary for me to take the  
South the beginning of Dec
