My dear Heaton

I shall be very glad to  
look at your picture if it  
is with you when to take  
the trouble of bringing it  
here on Tuesday - say  
about 3.30 if that suits you  
or else 12 noon. I am  
afraid verbal advice is  
all I can give. It would  
be not the least use you  
doing me paint for a few  
hours, unless it happened  
to be just some piece  
of work done right off  
within that time, which  
seldom happens in a  
picture. Proceps are

gradual with me. Thus  
this is not feasible.

I need not be writing  
now, as I'll hope to  
be seeing you so soon,  
and with kindest

Remembrances to  
Mrs Hutton

am ever yours
