My dear Eden -

It was so nice to hear from you - Of course I'll call on Mrs. Rodman - I hadn't happened over to hear of her - but she lives not far from us - I'll be glad to go to see her. There's a very delightful Swiss alumnus here, I'll try to have them meet.

Curbin is guarding the navy airships - either at Halifax, or beyond - on a destroyer. We hope to have him out of the service before July, but it is

not easy to effect! Did you know that he is the youngest Lieut. in the U.S. Navy? He has done very well - & is developing beautifully (as his family thinks!) I know you'll forgive this!

Cary, at 14, is 6 ft. tall - & weighs 150 - & is at Hill School this year. Lewis having no boy about - just a yellow dog, named Rusty, is the only lively thing around!

No - we've not yet met Frank's wife - The Saffords like her - which is hopeful. I want to know her - tho I lack courage about it!

I'm happy over a set of Trollope - all 12th editions, except 3 vols - these are all bound by Riviere - I'm reading

Marino's pleasure - both on the Discovery of
from collecting, & hence to you, no doubt you
on his paper - I know the Marino, & would
visit her, on the excellent "Morse's School Book".
They have much pleasure - from 3 new - & I
enjoy this opportunity - & directness -

Ed is very well. I'm very glad to
hear of very big numbers -

Thank - I believe me see faithfully yours
