Dear  
Col. Mearl.

Just letters and box these  
grey days but pray don't  
throw what I do say into  
the Waste Basket.

Please read Richard  
Two letters from Spillerey with  
Editorial in Union - and Johnson  
speaks in full with mine which  
goes the round. One meeting  
like mine is with a dozen  
such circles, as that at Green  
Theatre where the audience did  
nothing but call for "Hear".

I think the Review is more pleasant  
with my suggestion about the Summary  
and the article to see me again. The  
reporting is strong but you  
must note me in his opinion.

I include also letters from the other  
Druid Editors - and Spillerey's immense editorial  
while proceeding. I don't know I read little  
of mine. - You let me see what I do  
say? Nothing for self - except to do line  
Generalship of Mearl as for Mearl you read to  
President - and that is only to strengthen my  
point & want his name - also asked  
some further for Spillerey in N.Y. - He is got  
downright and Mearl is refulgent -  
and I asked that no opportunity in Mearl's  
may be made without consulting me - let  
myself speak for me - since his description I have  
spoken to more auditors than any for other friends of the  
Review. Yet I don't writing - can not place hands -  
but most, and seem to believe that the Review is pleasant  
with what I am doing. Please give me a line about Summary  
Spillerey's name.
