Hartford April 1 '83

My dear Hutton,

I have been laid up these days in the house with a bad throat, so I should have written you before.

The Tarrytown festival I have is in the evening from 8 to 11. I need not consequently go to New York on Monday. But my present intention is to be with you as I said on Monday at dinner. If anything occurs

to prevent I will telegraph  
you on Monday.

Prof Lounsbury writes  
me that he is also going  
to Janytown. I wish I  
could pick him up and  
bring him to your house, so  
that you might know him

Yours ever

C. D. Warner
