Dear Sir:-

Being of the opinion that if you knew more definitely about its far-reaching effect you would like to help forward the work we are doing here in the South for the elevation of our race, I take the liberty of sending the enclosed circular.

We have a large number of poor but worthy students who do all they can to help themselves by working out a part of their board and paying a part in cash; but the \$50 for tuition they are wholly unable to pay, and we are compelled to ask friends to help or turn students away.

We can use to advantage any sum no matter how small.

Yours truly,
Booker T. Washington,

Prin.
