109

My dear Sir,

It would suit me better to meet you at the "Microscopical Subscription Room" 6 Coleman St, than here, on Tuesday next - three o'clock in the afternoon would be most convenient as to time. I shall have much pleasure in seeing your specimens - but pray leave them with me for a week or ten days, till I take their portraits. I can explain to you when we meet why I do much wish it. I have repeatedly mentioned the subject to parties whom I thought likely to assist you in your investigations, and am in correspondence just now with one whom I think exceedingly likely - a geologist & microscopist too.

Yours very sincerely  
J. E. Dyer

J. B. Rose Esq.
