

New Haven, Oct. 16, 1869.

My dear Mr. Trumbull,

I hope that you do not forget your engagements to be with us this week, and to bring that paper on the "Manitow" for us: we are counting upon you both.

If you could come on Wednesday, and attend in the evening the meeting of the Conn. Academy, it would be so much the better. It is expected that Mr. Lyman and Mr. Newson will give some accounts of their summer's trip in Europe, in its scientific aspects.

As ever, yours truly,

W. D. Whitney
