

The Museum from Buenos Ayres

Mr. Moreno presents his compliments
to Dr. Lyndon, and begs to transmit
to him the Panorama of Buenos Ayres,
and some more numbers of the "Estadista
Americano", which record the strange
proceedings of Commodore Pirrie
in the Rio de la Plata. Unfortunately
the 1st number of the series cannot
be found; but the subsequent ones
to n. 8. inclusive contain a complete
view of the affair, and expose all
the important facts with great truth
and precision. Specially, they contain
a review of the life and eminent
services of General Rosas.
