

Richmond, Surrey July 16/59

Sir

After I wrote to you last
December, I found I was much too
late to arrange as I otherwise might
have done for the current Lecture
season, and therefore contented myself
with gaining what I much needed—
some actual experience,—the better to
prepare myself for the season to
follow

Allow me now to request your

attention to the extent for the Leeds
Mercury in the enclosed Syllabus, and
to the somewhat novel Lecture, which
I am preparing to deliver in accordance
with the suggestion contained in that
notice.

I beg also to enclose a letter
which I have received from Mr Jas
Hole the Secretary of the Yorkshire
Union of Institutes, and who is also
the Vice-President of the Leeds
Mechanical Institute

An early reply will oblige

Yours Obedtly

J. Saunders
