to ask for the Model:

40 Ampt Hill / Quare
2 June 49

My dear Sir.

Pray don't mention
any thing about leaving us
Yesterday, business before
every thing else. and being
I was not aware that you
were engaged or I should
have chosen an other
opportunity of showing
Mr Barker the Sketches.

I quite agree with you
that the Model runs a
Chance of being injured

unless it has a glass
to protect it. So pray
have the goodness to get
one put with a
stand... as I do not know
where to procure this
kind of thing the best.
and I am sure you
will get it done better
than any one else. You
had better have it done
without delay:-

I thought the ~~works~~
head would be too large
and too powerful for

your exhibition - but the
others are my nicely
placed. particularly the
de Marie which (I must
tell you) belongs to Mr ^{Barker}
so if you can tell it she
will feel obliged to you:-
I will do myself the
pleasure of calling upon
in the course of the
week:- Believe me
Yours very truly

Dear Sir

The process is done
and as soon as you let me
know when your room
will be ready for it I
will bring it down.

Mr Irving says that you
had ^{him} had a print
of an old gate way in
Edinburgh called the Peter
Bow. I shall esteem
it an "especial favor"

of your course as we
have it at Linn
about beginning a subject
from which history shall
the above mentioned facts
forms the background
and I cannot well
begin the sketch till I
get it down in haste

Believe me

Yours truly
