Dear Carr, I return the M.S.
which you sent me herewith.
What I have read of it has much
charm; - but I've not read
it all because that sort of
handwriting tries me. To
illustrate the paper I should have
to be in the country & I do not
propose leaving town until
the end of this month. Apart
from that consideration, however,

I think I had better reserve
a subject for myself - I
will let you know as soon as
I "strike" it. I make
a note of your idea about
abstracted articles upon authors
& their works. Thank you
perusing this paper for me
& look at.
