

Sir

I am favoured with your letter of the interesting
political meliorism - I have not by me any
representation of the coarse features of disabled
persons which you are desirous to become acquainted
with but when I go to Edin. for the winter
I can easily find means to procure & send you
one especially as I can there also find a
frank. Meanwhile I am with thanks for the
good opinion you have bestowed on me by expressing
for

your obliged servant
Walter Scott
