19, Fitzroy Square W.

My dear Sir,

I fear you will think
me very remiss in not answering
your letter of the 8th Inst but
it was forwarded to me in the
North and put aside with others
to be answered and so delayed
& forgotten, pray excuse it.
I cannot put my hand upon
a catalogue of the Derby Exhibⁿ
and having seen so many
pretty things in the Collⁿ cannot
tell precisely what No 105 was

as you did not say in your letter - It is perhaps too late now but if you can describe it I may probably recollect it, also the price, if you know it.

I obtained about 40 plates in my trip, for my new work - and the printing from the negatives by metal plates is going on rapidly. - I am anxious to hear if you have commenced any of those we selected, as time is drawing on and I want to print my list of illustrations - which in fact is already in type waiting for final corrections & additions.

You kindly promised to send me

descriptions of them with the owners names - please do so as soon as you can spare time as I want to insert them in the list at once, the negatives can follow -

Mr. Bayhaime was here yesterday he has the Centre of the two ^{Wedgwood} granite bases with female figure handles and wishes the complete set photo'd together he said he w^d write and ask you to send the two you have and get them done at Sheffield -

The following is a rough note of the plates

1 plate Burton
 Wirksworth
 Pinxton
