Dear Mr. Hoppé,

The American publishers of a new book of mine have asked me to send them a photograph to use. Would you very kindly let me know if you would have any objection to their having a portrait which you made of me some time ago, numbered 4257-2, though this may be the private number of some newspaper that has already used it over here. Anyhow it was taken a good many years ago.

With kind regards,
