Re: House Rentals

You notified me on November 25th that there was some special deal on House No. 386 which called for a reduced rental figure for a period of time, with an agreement to repair and paint the house by the tenant. At the same time you indicated House No. 116 was rented to Mr. Harold Conn for storage, but you thought someone was living in it. You indicated you would check that out also.

As soon as you have anything on either of these properties, please advise. I would not suggest that you take any action at this point, but simply report the status of each house and what you can find out about them. Both of these are special cases, and we would like to know the status in advance of any action designed to correct anything which you think should be righted.
