To: G. F. Leatherman
From: H. O. Zimmerman

A group of people living in the Shop Fork area have petitioned me for a certain number of street lights in that area. It seems now that we have installed meters in a number of the houses, the tenants naturally do not burn porch lights, and the streets, therefore, are very dark.

I feel we should provide these street lights, and I would like you to make a survey as to the needs, and then let me know what your survey indicates.

I would suggest at your earliest possible convenience you get in touch with John Henry Butler and perhaps one or two other responsible colored people living in the Shop Fork area to accompany you on this survey so that we may know just what they have in mind. This does not, of course, mean that we will give them everything they want, but we will try to comply with their request within reason.
