

INLAND STEEL COMPANY

WHEELWRIGHT, KENTUCKY

March 21, 1955

Mr. Louis F. Birkel
Executive Director
Kentucky Water Pollution Control Commission
620 South Third Street
Louisville 2, Kentucky

Dear Louis:

Thank you very much for the booklet you sent me with your letter of March 15 on sewage treatment plant operation.

The booklet is in good comprehensive form and in clear language. It should be helpful to any operator of a sewage treatment plant.

Yours very truly,

Hoz
Manager Coal Properties

I am passing the booklet on to both of you for reading as I am sure there are a few pointers in the book that will be helpful in maintaining proper operation of our sewage treatment plant. On Page 5 there are sketches of several operator's tools that I am sure would be helpful if we had them at the plant, and I suggest that Mac arrange to have tools of the type illustrated made for the use of the operator.

The booklet should be retained in the file of the Engineering Department.
