On the report of requests for extra rooms and bathrooms which I went over with you, I put a question mark after the name of each tenant and house number where the list did not show the number in the family.

Please show for each of those houses that I marked the number of people in the house and then bring the report to me so we can together decide how many more rooms and bathrooms will be installed under the present program.

If your list does not show the name of Harlan Tackett, for an extra room house No. 431, please put his name on the list and show ten in the family.
