To: W. B. Cummings
From: H. O. Zimmerman

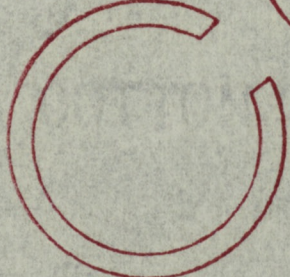

Commencing with the month of May, you should bill the McDowell Memorial Hospital \$15 each month as a charge for handling their garbage and refuse through our incinerator.

When you forward the invoice to them, I would like you to do this with a letter, stating that even though we had provided them with this service since about February 1, we held up billing them until the month of May to give us time to determine just what the cost should be for this service.

Our observations indicate that a charge of \$15 per month is fair, and this rate will be charged regularly each month until such time as there may be an increase in the operating expense of our incinerator.
