

...AND HERE'S WHERE  
THEY ALL COME FROM

Here at Exeter, Pennsylvania, in the newest, most modern mower plant in the world, is where every Pennsylvania Mower is made. It is, in addition, the storehouse of more than three quarters of a century's accumulated lawn mower manufacturing experience.

From this modern, yet time-proved combination comes the unapproached cutting action and traditional quality of Pennsylvania Mowers. It's the combination that has kept Pennsylvania the most respected name in mowers . . . since 1877!

See your Pennsylvania Dealer and let him prove time-proved Pennsylvania performance is best for you — best for your lawn. See him today!
