

INLAND STEEL COMPANY
WHEELWRIGHT, KENTUCKY

R-12

December 26, 1953

To: F. E. Conley
From: E. R. Price

Effective at once, a department receiving mine supplies or equipment which will be charged directly from invoices instead of to the mine supply stores shall issue a receiving slip to the supply house instead of a mine supply store requisition.

The mine supply store will not approve or pass for payment an invoice covering equipment or supplies sent directly to the mine or a department until it has a receiving slip from the mine or department.

The foregoing instructions will also apply to creosoted and Osmore treated ties, which are charged directly to the mines, but not to untreated mine ties, props, headers, header or safety blocks, wedges, dimension lumber, et cetera.
