

8/3/49

To: E. R. Price

Fr: J. S. Becker

Ref: - Refuse at Retaining Walls
Rolling Stone Br & Slate Dump Below.

Both are pulled to level of top
of wall. From my understanding
of your mine schedule - removal
of this refuse would probably be
the last time necessary -

We have (L. E. Beckett) a small
tractor Dozer type of excavator
at \$8⁰⁰ per hour & 2 trucks -

The Bay City is in demand for Price.
What do you think of using the above
Dozer loader with the addition of
our 2 trucks to move the refuse -
also one or two small jobs elsewhere
& the slide also at Powder Magazine
