Mr. Harold Bates  
House #21  
City

Dear Sir:

Enclosed is a check for \$27.75 which you paid for your utilities. The amount is due in full. Your water comes to a \$.20 per day, which in these days will not pay for a coke. If this bill for water is not paid in full as everyone else does, you have made yourself clear in your attitude toward this company and we shall feel that we have no longer any reason to give you a special rate in your rent. In the summer months, we have never charged anyone extra for water used to wash cars, water tomato plants, fill childrens swimming pools, wetting down the streets to keep down dust and 1,000 other things. If you insist in paying what you use, I do have a water meter here and your bill should be about double to what it is now.

Yours truly,

Janice Brown
